## THE CHALLENGE

# 272 Games. 32 Venues. Zero Unified Intelligence.

### Fragmented Systems

Each club runs its own tech stack. League has no real-time visibility into Game Day operations.

### Reactive, Not Predictive

When incidents happen, you learn after the fact. No early warning or pattern recognition.

### Revenue Leakage Invisible

Traffic delays reduce per-cap spend. VIP experience failures undocumented.

### Compliance Risk

32 different approaches to safety and standards. No unified certification.

**\$2-4M**

Annual revenue leakage per venue from traffic issues

**60%**

of fans buy only once—missed repeat opportunity

**79%**

of venues report staffing shortages

# EVERGAME360: Proven in Production

## Unified Checklists

Replaced WhatsApp + Google Drive with real-time operational checklists across all 32 clubs.

## Real-Time Readiness

Time-based SLAs and readiness scoring give league visibility before, during, after every game.

## Evidence Ledger

Immutable, timestamped documentation. Complete audit trail for compliance and liability.

## THE VISION

# eVenu: Every Stadium. Certified. Intelligent

Transform every NFL venue into a **certified, intelligent ecosystem** with unified readiness scoring, predictive operations, and real-time revenue optimization.

## CERTIFICATION

- ADA, fire, safety compliance
- Operational readiness scoring
- Evidence documentation
- Digital twin blueprinting

## REVENUE

- Traffic-to-revenue correlation
- Per-cap optimization
- VIP experience analytics
- Repeat purchase prediction

## RISK

- Cyber-physical fusion
- Incident pattern recognition
- Evacuation modeling
- Liability protection audit

# The Investment Thesis

Sentrais has **validated product-market fit** with the NFL. The \$6.3M contract proves enterprise willingness to pay. The question: **what's the upside from scaling?**

## VENUE REVENUE RECOVERY MODEL

**\$2-4M**

Per-venue annual leakage

**30-50%**

Recovery potential

**32 venues × \$1-2M recovery = \$32-64M** annual value for NFL. Sentrais captures 10% success fee = **\$3.2-6.4M incremental ARR**.

## Beyond the NFL

Same platform → NBA (30), MLB (30), MLS (29), NCAA (1,000+). Plus FIFA 2026, Live Nation (394 venues), convention centers, airports.

## MARKET SIZING

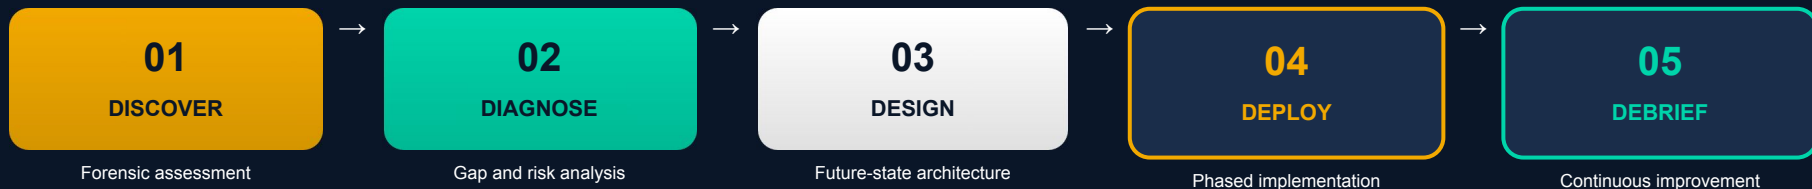

|                           |                 |
|---------------------------|-----------------|
| Global Event Management   | <b>\$1.16T</b>  |
| Smart Stadium Tech        | <b>\$19.5B</b>  |
| Venue Management Software | <b>\$8-20B</b>  |
| Live Events Intelligence  | <b>\$75-85B</b> |

## SENTRAIS POSITION

- **\$6.3M** validated NFL contract
- **\$1.9M** committed ARR
- **51%+** founder ownership
- **24mo** unicorn pathway

**Series A Target: \$12-15M at \$50-80M Pre-Money**

# NIN: From Discovery to Dominance

## 3-5 Months

Not 18-24 months. NIN is engineered for rapid value delivery with quick wins at each phase.

## Evidence-First

Every step generates documentation that holds up in court, to regulators, and to boards.

## Repeatable

Same methodology scales across 32 NFL venues, 394 Live Nation venues, and beyond.

## Crisis-Tested

Born from actual crisis command. Not theory—operational reality under maximum pressure.

**NIN** is the methodology that transformed Atlanta's cyber recovery into Super Bowl success—now powering NFL operations.

# Why the NFL Should Invest in Sentrais

## Strategic Alignment

You're already the customer. You've validated the product. An investment converts vendor relationship into strategic partnership with upside.

## First-Mover Advantage

No one else has built a unified venue intelligence platform with live production validation. The NFL can own a stake in the standard-setter.

## Diversified Revenue

Sentrais scales beyond sports: Live Nation (394 venues), FIFA, federal (DHS/FEMA), airports. NFL investment captures multi-sector upside.

## De-Risked Entry

\$6.3M contract proves product-market fit. This isn't a bet on a vision—it's an investment in a validated, revenue-generating platform.

## INVESTMENT STRUCTURE

|                     |           |
|---------------------|-----------|
| Series A Target     | \$12-15M  |
| Pre-Money Valuation | \$50-80M  |
| Founder Ownership   | 51%+      |
| Unicorn Timeline    | 24 Months |

## NFL INVESTMENT BENEFITS

- Board observer/advisory seat
- Preferred pricing on expansion
- Co-development on features
- Upside from multi-sector growth

Turn your vendor into your portfolio company.
