

From Strategy to Infrastructure: A Valuation & Strategic Debrief

Defining the Asset Class of the League Operating System

The League is Currently Operating \$7.35M of Platform Value

The ecosystem currently deployed has transitioned beyond consulting advice into functional infrastructure. While treated commercially as a service, the League is utilizing a capitalized software platform.

Distinguishing Advisory Services from League Infrastructure

BASE LAYER: STRATEGY & ADVISORY

SERVICES RENDERED & PAID

\$0 (CONSUMED)

- Governance Models
- Operating Concepts
- Discovery Workshops
- Design Intent

CRITICAL: Strategy fees do not purchase IP ownership, platforms, or orchestration rights.

THE PLATFORM: INFRASTRUCTURE

ASSETS DELIVERED & LICENSED

\$7.35M (CAPITALIZED)

- League Orchestration
- Certification Systems
- Operating Systems (OS)

The Asset Stack: Moving Below the Surface

The 'Base Layer' provided the roadmap. The four layers beneath it constitute the proprietary machinery that drives execution.

Layer 1: Blueprint360 – The Operational Backbone

ANCHOR VALUE: \$1.25M

ASSET DEFINITION: Proprietary league orchestration blueprint; Foundation for enforcement and automation.

TECHNICAL SPECIFICATIONS:

- Security + operational maturity model
- Readiness scoring, gating, and "Go/No-Go" logic
- League-wide comparability across games, venues, and seasons
- Forensic mapping of operations

PRICING BASIS:

Enterprise Blueprint / Maturity POC: \$500K–\$750K

League-wide baseline + extension: \$750K–\$1.0M

VISUALIZATION OF READINESS SCORING, GATING LOGIC,
AND LEAGUE-WIDE OPERATIONAL STATUS.

Layer 2: GDA Certification – People & Execution

ANCHOR VALUE: \$1.10M

ASSET DEFINITION: System of record for compliance; Liability and audit protection layer.

TECHNICAL SPECIFICATIONS:

- GDA lifecycle management
- Training, certification, and recertification workflows
- Assignment logic and compliance enforcement
- Mobile execution + evidence capture

PRICING BASIS:

Base platform license: \$400K–\$600K

Workforce scale (1,000+ GDAs): \$300K–\$500K

Compliance and audit layer: \$200K–\$300K

Layer 3: eVenu Intelligence – Stadium Readiness

**ANCHOR VALUE:
\$2.00M**

ASSET DEFINITION:

Monetizable venue intelligence and certification platform.

TECHNICAL SPECIFICATIONS:

- Stadium readiness and certification engine
- Venue intelligence tied to safety, operations, and revenue
- Recertification logic and benchmarking
- Foundation for host city and non-NFL monetization

PRICING BASIS:

Per-venue baseline: \$150K–\$250K

League design + certification authority: \$500K–\$750K

Data, evidence, and benchmarking layer: \$300K–\$500K

Note: Calculation based on 32 Venues x Discounted League Model

Layer 4: NFLiOS – The Custom League Operating System

ANCHOR VALUE:
\$3.00M

ASSET DEFINITION:

League-owned intelligence operating system;
Strategic infrastructure, not tooling.

TECHNICAL SPECIFICATIONS:

- Custom orchestration OS designed specifically for the League
- Integrates Blueprint360, EVERGAME, GDA, and eVenu
- Governs operations, certification, and innovation
- Execution backbone for the Innovation Hub

PRICING BASIS:

Core OS and orchestration engine: \$1.5M–\$2.0M

Custom data model, security, integrations: \$750K–\$1.0M

Innovation Hub execution layer: \$500K–\$750K

Total List Value Assessment

ASSET	LIST VALUE
Blueprint360 (League Orchestration)	\$1.25M
GDA Certification System	\$1.10M
eVenu Venue Intelligence	\$2.00M
NFLiOS (Custom League OS)	\$3.00M

TOTAL PLATFORM VALUE \$7.35M

This valuation represents a conservative 'List Value' assessment of the currently deployed assets.

The \$1.5M License: A Strategic Stabilizer

**ANCHOR VALUE:
\$1.50M**

At list pricing, the League is already utilizing \$7.35M worth of technology. The proposed \$1.5M is not the asset value—it is a license to stabilize and operate the existing system.

STABILIZATION LICENSE (\$1.5M)

(\$7.35M)**

**OPERATIONAL
CONTINUITY**

- ☀️ Secures access to the \$7.35M ecosystem
- ☀️ Maintains operational continuity
- ☀️ "Keep the lights on" investment vs. Acquisition cost

The \$10M Expansion: From Pilot to Permanent

\$10M ≠ Build Cost. \$10M = Capitalization of a Proven Platform.

Global Events & External Monetization

- ⚙ Scales the \$7.35M asset into permanent infrastructure
- ⚙ Institutionalizes certification and orchestration
- ⚙ Prevents fragmentation and vendor lock-in

Negotiation Positioning & Next Steps

Based on our pricing model, the league is already receiving over \$7M in platform value. The \$1.5M is a strategic license to stabilize and operate what exists today. The \$10M discussion is about scaling this into permanent league infrastructure.
