PART 1: PRE-GAME EXPERIENCE (GD-7 to GD-1)

1.1 GDA Pre-Assignment Model

GDA ASSIGNMENT MODEL
GDAs are PRE-ASSIGNED to games by NFL Operations Assignment is based on: • Certification level (L1, L2, L3) • Geographic availability • System specialization • Historical performance WHAT GDAs CHOOSE: ☒ Position within their assigned system (multi-position only) WHAT GDAs DO NOT CHOOSE: ☐ Which game to work ☐ Which system to operate ☐ Which day to work

ASSIGNMENT CONSTRAINT:

One GDA → One System → One Game → One Day

Team Assignment Concept

GDAs assigned to multi-position systems (IVRS, SVS, C2P, FTR) are assigned as a **TEAM**. Position selection is simply choosing which location within the team assignment they will work.

EXAMPLE: IVRS Team Assignment - Week 16 Saints @ Falcons

IVRS TEAM (4 GDAs Assigned)

Team Members:

- J. Martinez → Home Booth (self-selected)
- S. Lee → Visitor Booth (self-selected)
- K. Brown → Home Field (self-selected)
- A. Patel → Visitor Field (self-selected)

Position Selection:

All 4 GDAs were pre-assigned to IVRS for this game.
They simply selected which position to work.

1.2 GD-7: Assignment Notification

1.4 Assignment Conflict & Override Process

When GDA Has a Conflict

If a GDA cannot work their assigned game, they report a conflict:

REPORT ASSIGNMENT CONFLICT
ASSIGNED GAME
Week 16 - Saints @ Falcons Jan 4 1:00 PM System: IVRS Position: Home Booth
CONFLICT REASON
○ Personal emergency ● Schedule conflict ○ Illness/medical ○ Transportation issue ○ Other (specify)
DETAILS
Prior commitment - family event scheduled before I received this assignment.
 Your conflict will be reviewed by your Supervisor and NFL Lead. You will be notified of the decision.

[Cancel] [Submit Conflict Report]

VP Override (For Exceptions)

If operations needs to assign a GDA to a second game same day (rare):

VP OPERATIONS - OVERRIDE REQUEST

Exception Request - Same Day Assignment

REQUESTOR: NFL Lead - S. Johnson

REQUEST TYPE: Assign GDA to second game same day

GDA: J. Martinez

CURRENT ASSIGNMENT

Game 1: Saints @ Falcons | 1:00 PM | IVRS

Expected End: ~4:00 PM

REQUESTED ADDITIONAL ASSIGNMENT

Game 2: Bears @ Lions | 4:25 PM | IVRS

Same venue (double-header)

JUSTIFICATION FROM NFL LEAD:

"Same stadium double-header. IVRS tech called out sick.

J. Martinez is only qualified and available backup.

Minimal travel, games are back-to-back at same venue."

RISK ASSESSMENT

⚠ Gap between games: 25 minutes ⚠ Total work hours: ~9 hours ✓ Same venue - no travel ✓ GDA certified for both
DECISION ○ Approve Override ○ Deny - Find alternative Notes: [Deny] [Approve Override] ⚠ This exception will appear on IT Executive's report

JUSTIFICATION (Required)

Hardware failure at Booth 3 cannot be resolved before kickoff (ISS-441). Backup equipment also failed - possible power supply issue at location. Other 3 IVRS positions (Home Booth, Home Field, Visitor Field) are 100% operational. Game can proceed safely with 3/4 coverage.

RISK ASSESSMENT

-  LOW - No impact to game operations
-  MEDIUM - Reduced redundancy
-  HIGH - Potential game impact
-  CRITICAL - Would not recommend proceeding
