

Operational Orchestration & Security Maturity

A Unified Capability Portfolio

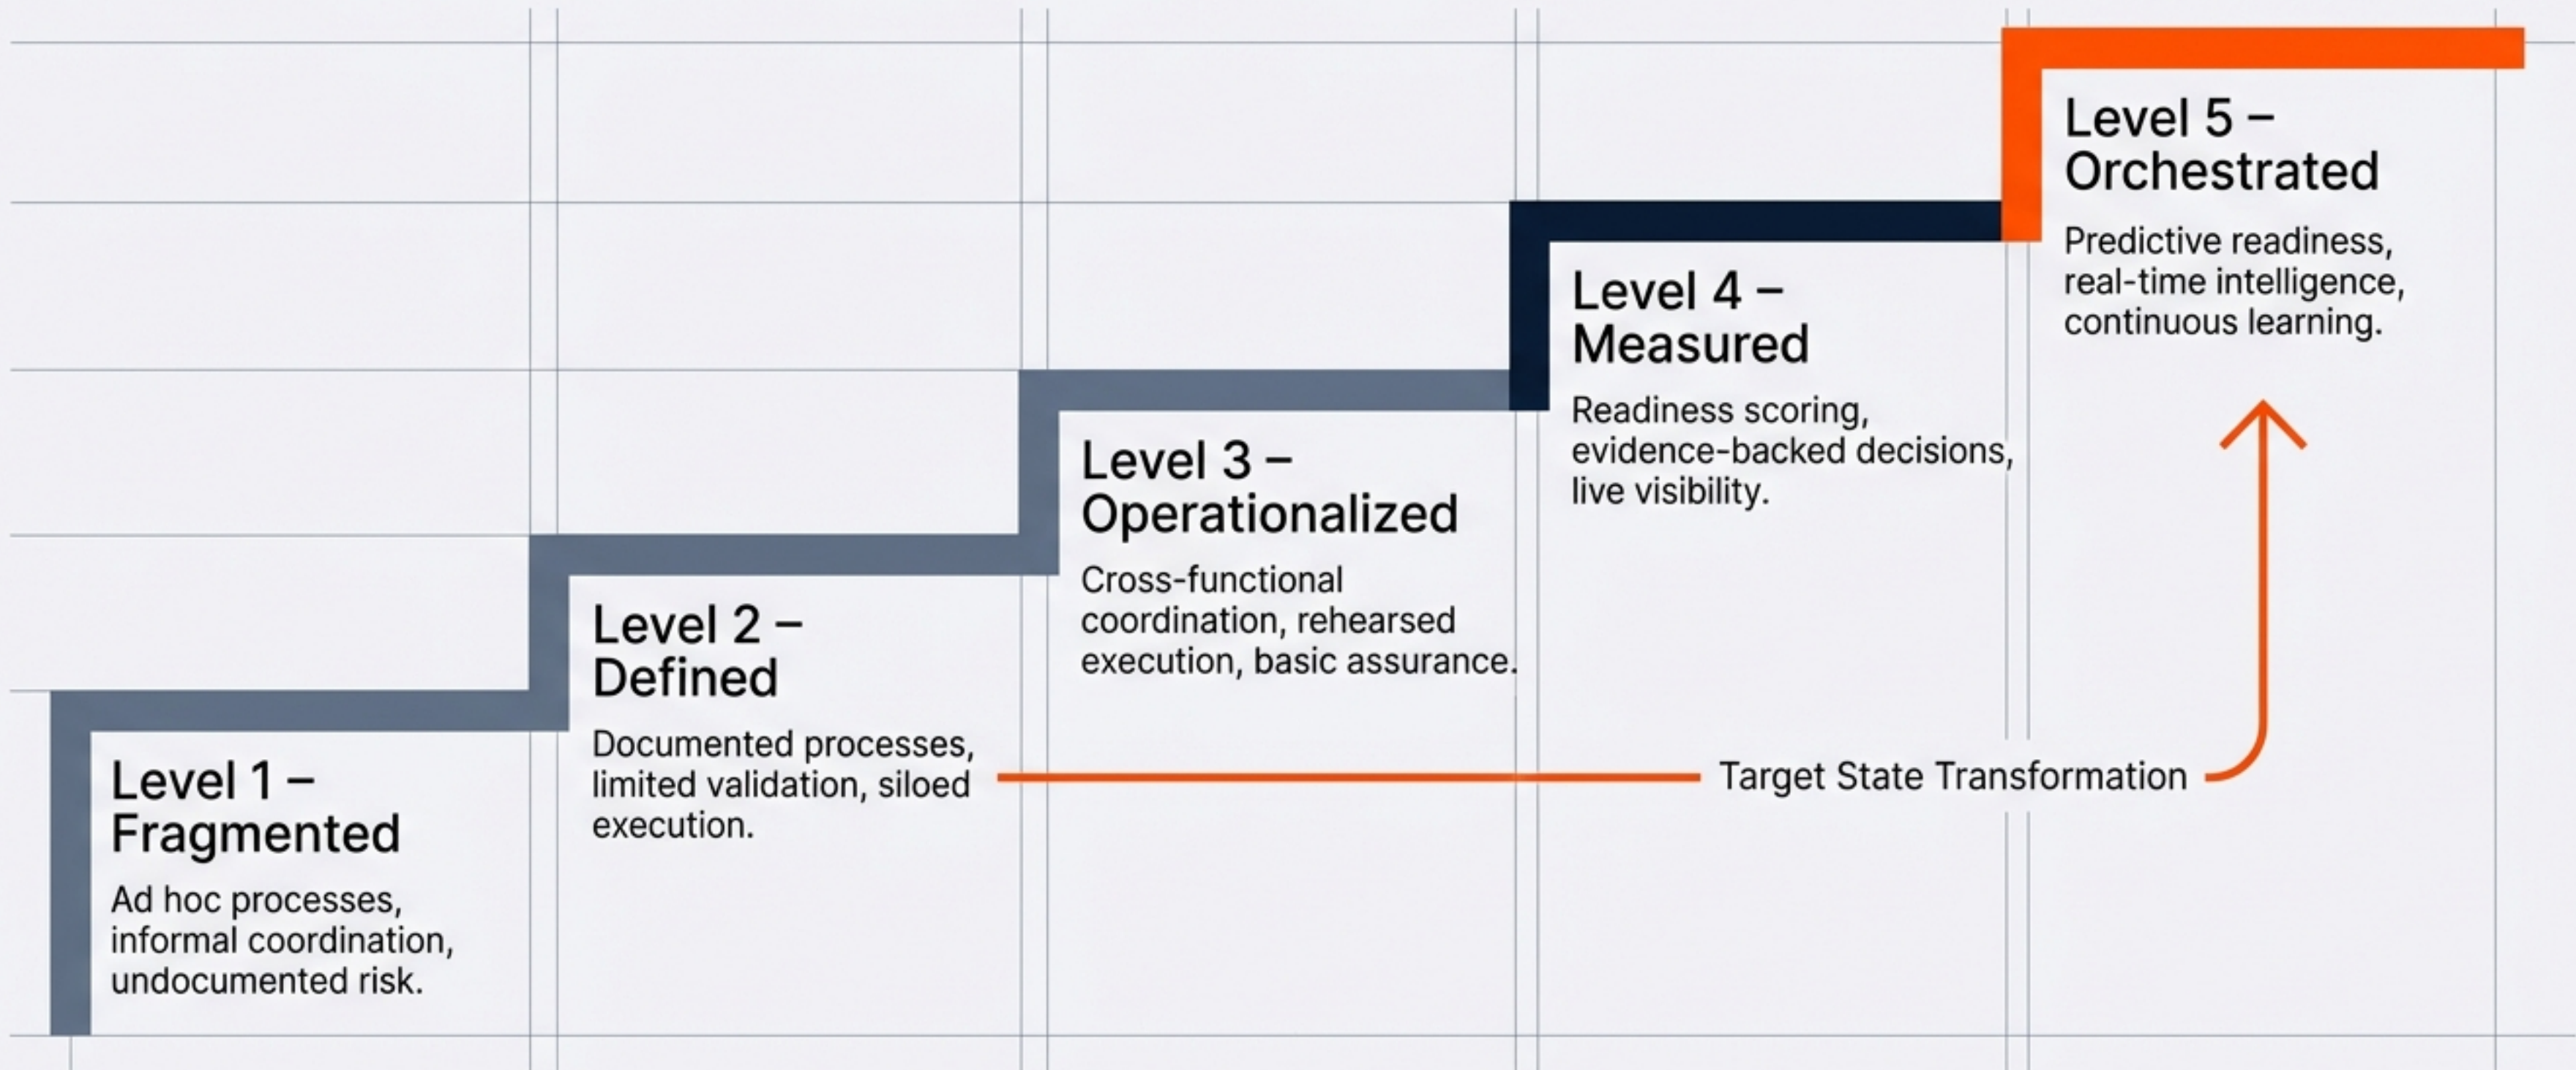

Defining the standard for risk reduction, operational maturity, and accountability across venues, cities, and federal jurisdictions.

POWERED BY 
BLUEPRINT360 & SENTRAIS OS

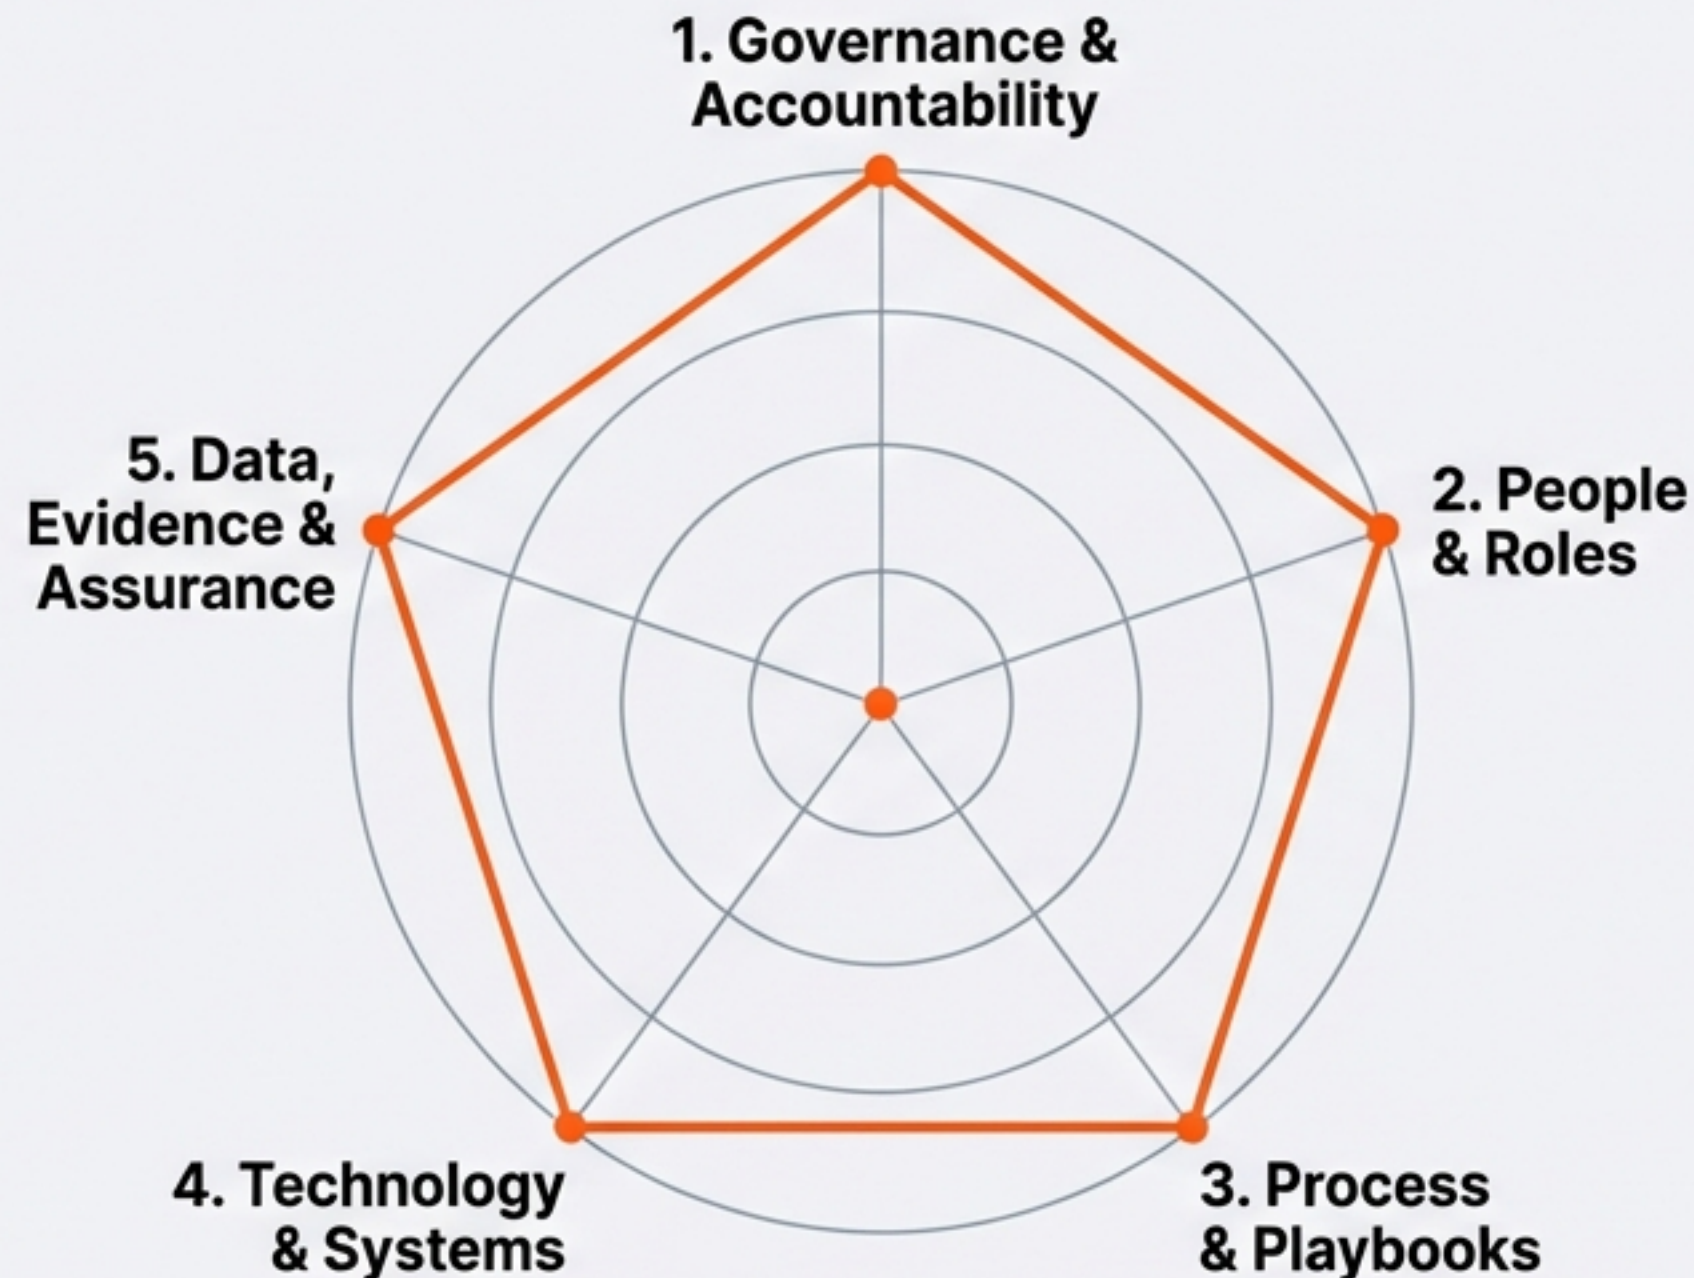

The Security & Operational Maturity Model

Risk is not just a threat; it is a lack of readiness.

The Assessment Framework: 5 Dimensions of Readiness

1. **Governance:** Decision rights, escalation clarity, ownership.
2. **People:** Training, staffing, role clarity, surge capacity.
3. **Process:** Documented procedures, rehearsals, execution fidelity.
4. **Technology:** System readiness, integration, resilience, visibility.
5. **Data:** Auditability, proof, after-action learning.

Insight: True maturity requires alignment across all five dimensions.

Blueprint360 provides the Governance and Process; SentraisOS enforces the Technology and Data.

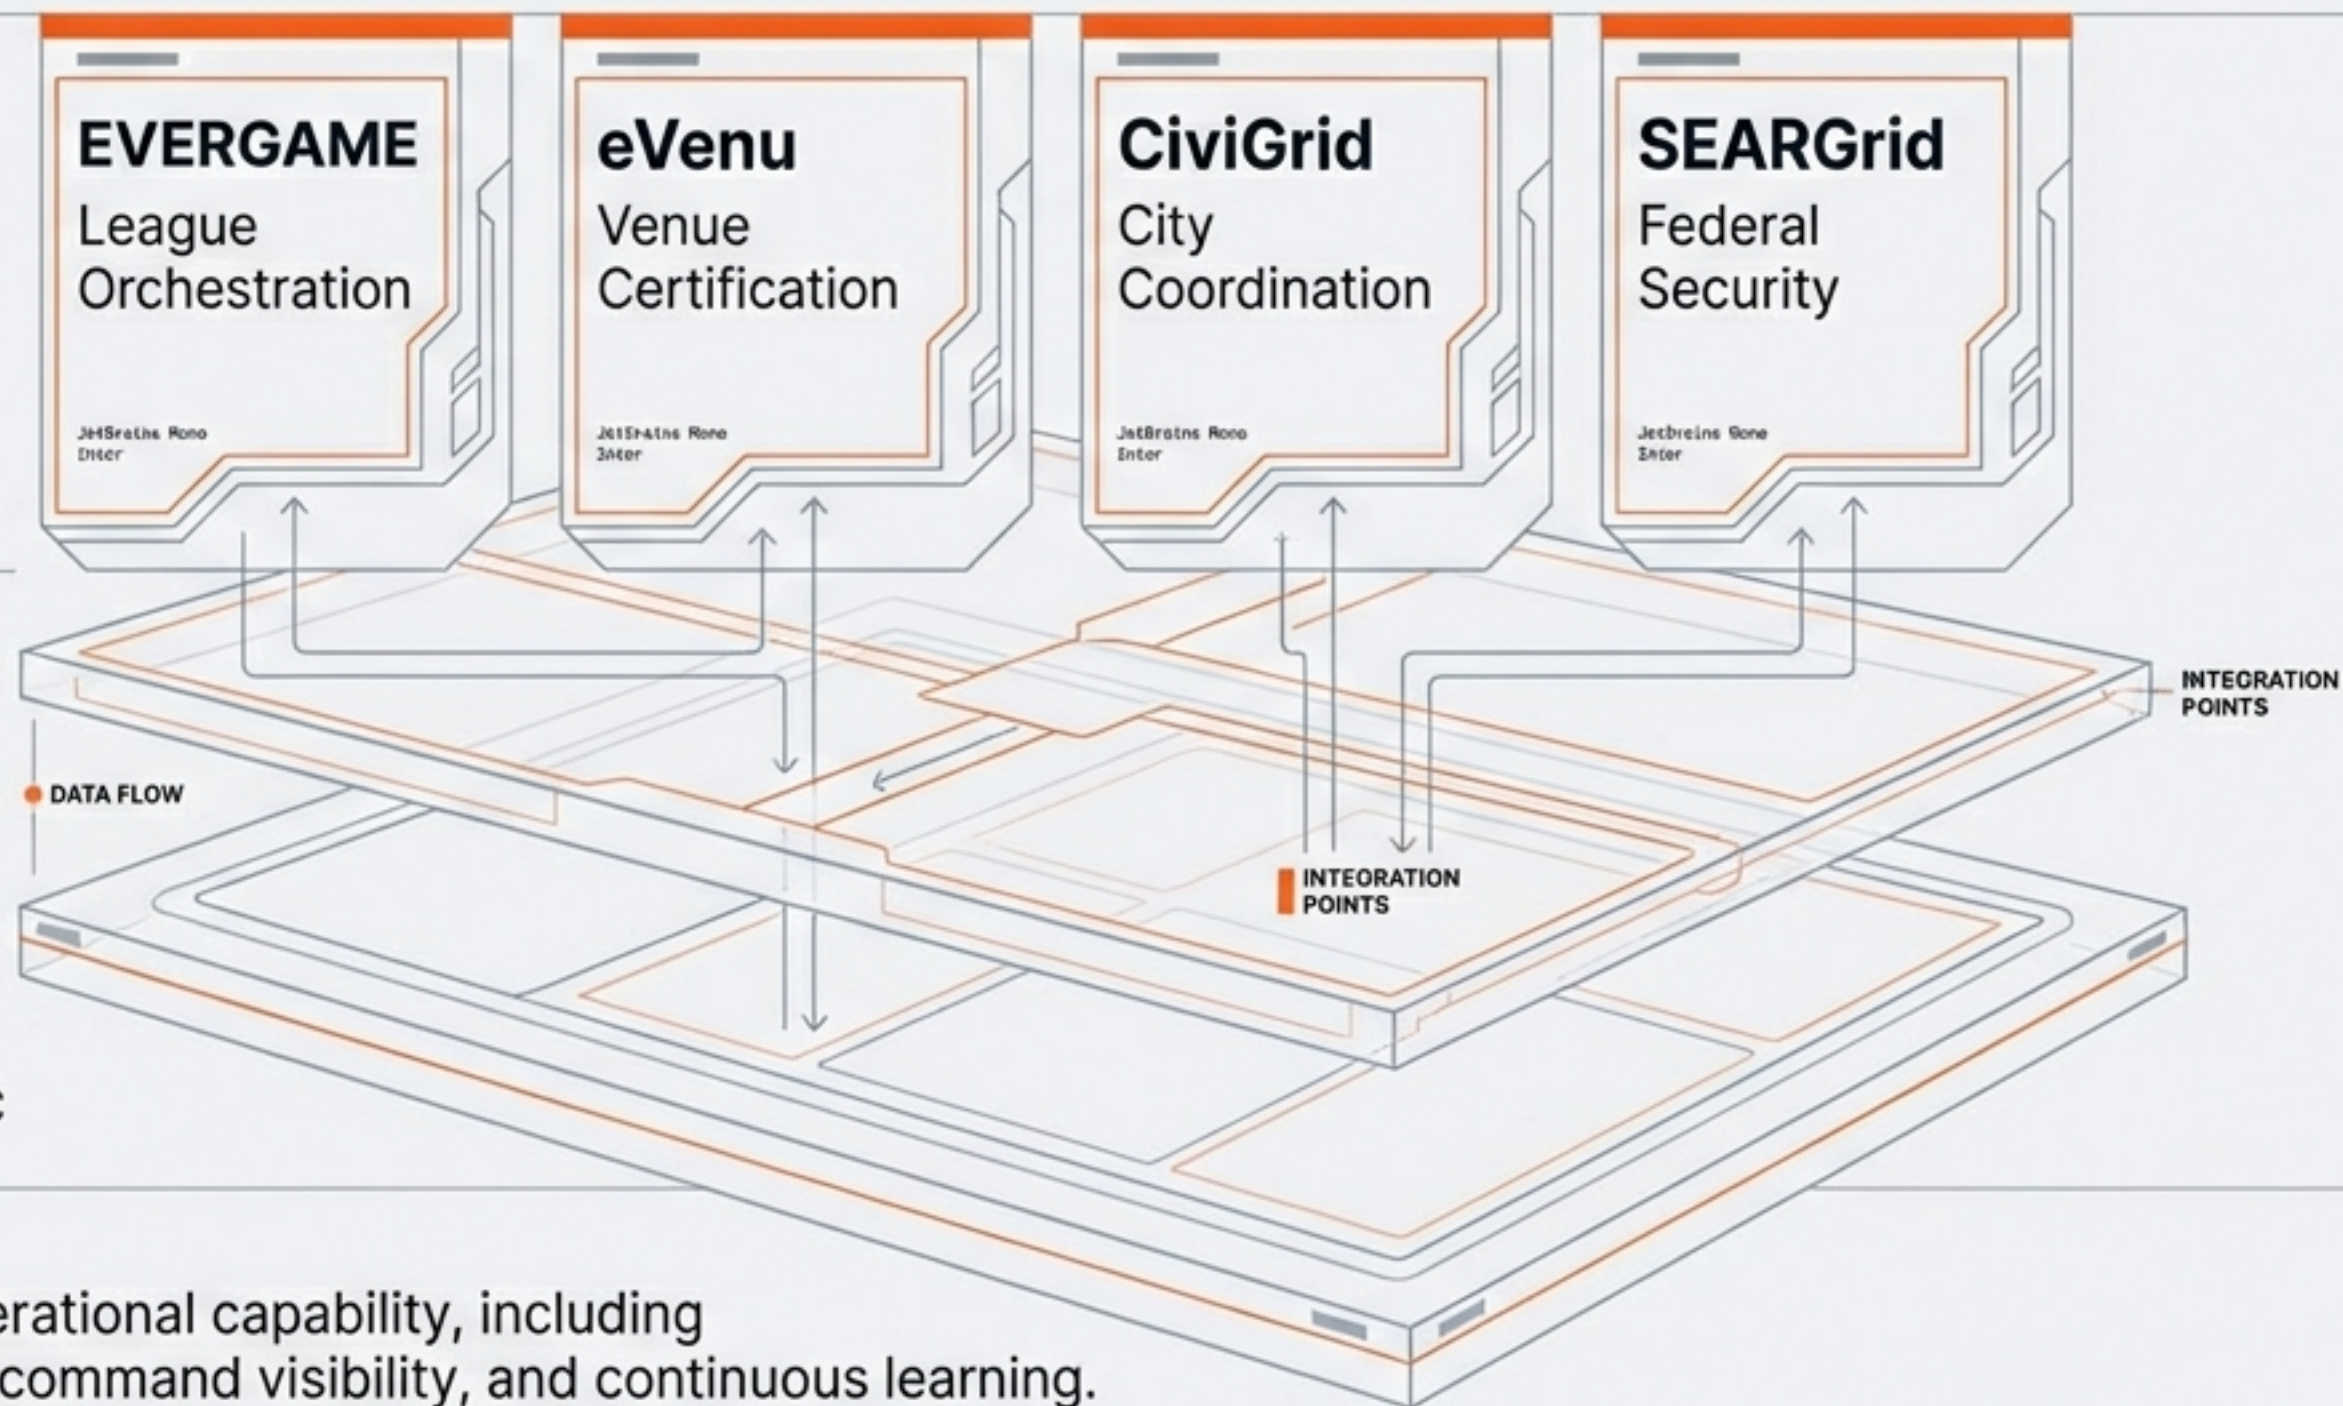

The Architecture: Powered by Sentrais + Blueprint360

Sentrais Intelligence OS

Models, Evidence Ledger, Learning Engine, Command Live

Blueprint360 Framework

Planning, Readiness & Governance Logic

Pricing reflects licensing of a complete operational capability, including embedded intelligence, orchestration, live command visibility, and continuous learning.

EVERGAME: League & Major Venue Orchestration

POWERED BY SENTRAIS + BLUEPRINT360

THE NEED

Orchestration platform for leagues and major venues. Coordinates season planning, game-day execution, and post-event learning.

VALUE DELIVERED

- **Single Operational Truth:** Aligns all partners on one platform.
- **Improved Readiness:** Drives consistency and accountability across the season.
- **Risk Reduction:** Reduced execution risk during live events.

THE ENGINE

- Sentrais Intelligence OS (models, evidence, learning).
- Blueprint360 planning and readiness framework.
- Sentrais Command live operational intelligence.

eVenu: Stadium Certification & Revenue Enablement

POWERED BY SENTRAIS + BLUEPRINT360

THE NEED

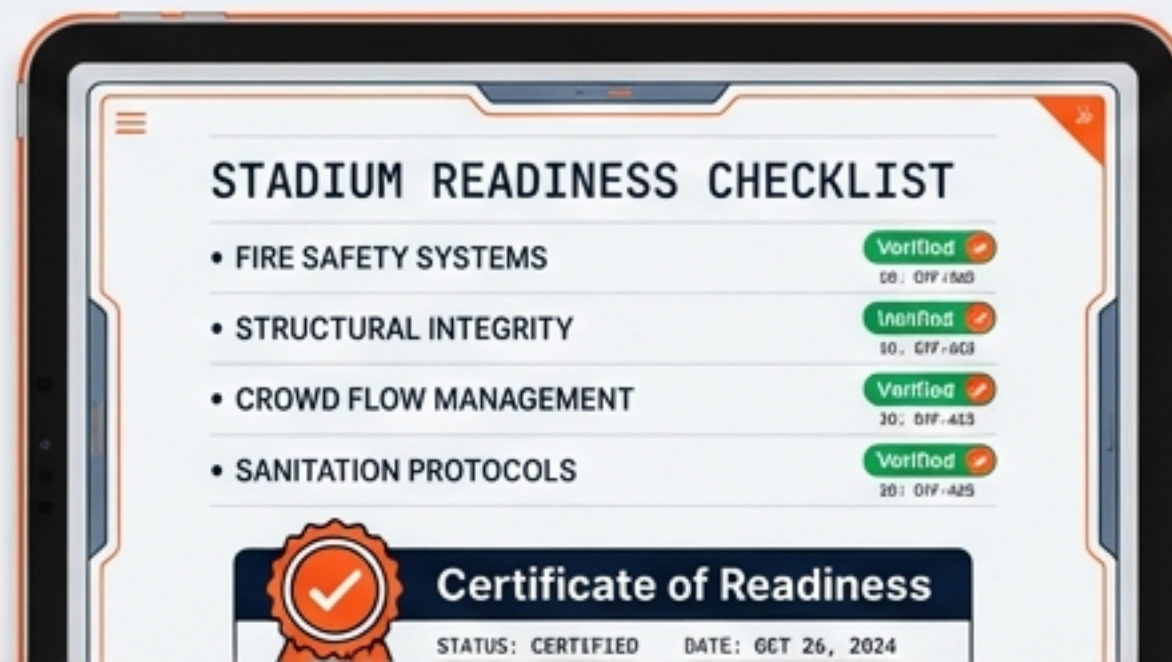

Digital certification and compliance platform for stadiums. Transforms readiness into auditable and monetizable programs.

VALUE DELIVERED

- **Standardization:** Standardized inspections and certification protocols.
- **Risk Mitigation:** Reduced compliance risk through digital trails.
- **Monetization:** Unlock new recurring revenue streams through certification tiers.

THE ENGINE

- Evidence ledger and compliance intelligence.
- Certification planning and validation gates.
- Live inspection visibility.

CiviGrid: Host City Orchestration

POWERED BY SENTRAIS + BLUEPRINT360

THE NEED

Operational coordination platform for host cities. Supports major events and emergency operations.

VALUE DELIVERED

- **Coordination:** Seamless multi-agency coordination (Police, Fire, City, Event).
- **Visibility:** Executive-level visibility into city-wide status.
- **Accountability:** Post-event accountability and data retention.

THE ENGINE

- Cross-agency intelligence models.
- Event planning and escalation mapping.
- City-wide command dashboards.

SEARGrid: High-Risk & National Security Event Orchestration

POWERED BY SENTRAIS + BLUEPRINT360

THE NEED

National-security-grade orchestration for SEAR-level events. Delivers readiness, escalation, and assurance.

VALUE DELIVERED

- **Certification:** Standardized SEAR (Special Event Assessment Rating) certification.
- **Visibility:** Live escalation visibility for command centers.
- **Assurance:** Audit-ready operational assurance for federal oversight.

THE ENGINE

- Threat and risk intelligence.
- SEAR-aligned validation logic.
- National command dashboards.

Unified Commercial Model

Investment based on scope, complexity, and risk profile.

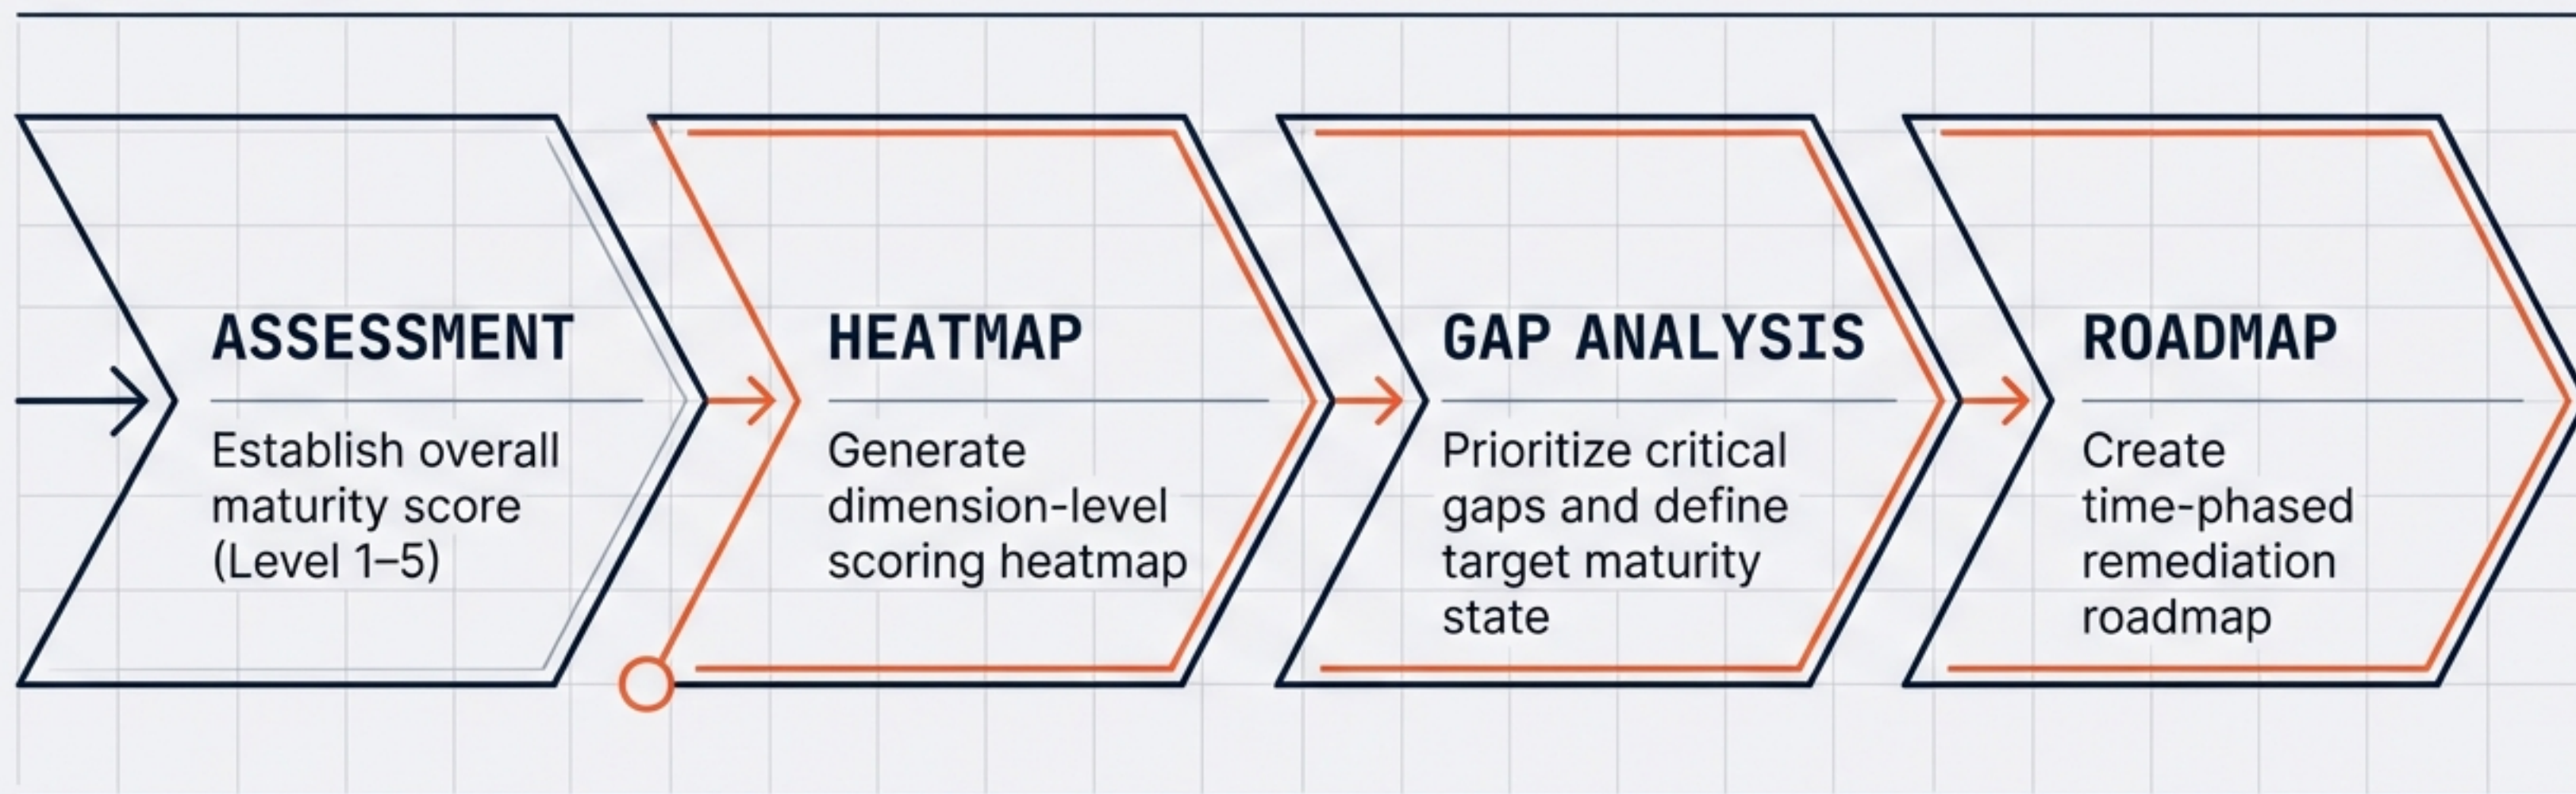

SOLUTION	TARGET	PRICE	NOTE
eVenu	Stadiums/Venues	\$150K–\$350K per venue	Plus \$25K–\$100K certification tiers
CiviGrid	Host Cities	\$500K–\$2.5M Annual	\$500K–\$1.25M for Single Event
EVERGAME	Leagues/Major Venues	\$750K–\$1.5M per season	Optional Managed Services available
SEARGrid	Federal/State Authorities	\$1.5M–\$7.5M Programmatic	\$1.5M–\$3.5M for Single Event

Pricing reflects a complete operational capability. Optional Managed Orchestration Services available for EVERGAME (\$250K–\$750K).
