

CONVERGE 2026

Applied Resilience in SEAR-Level Environments

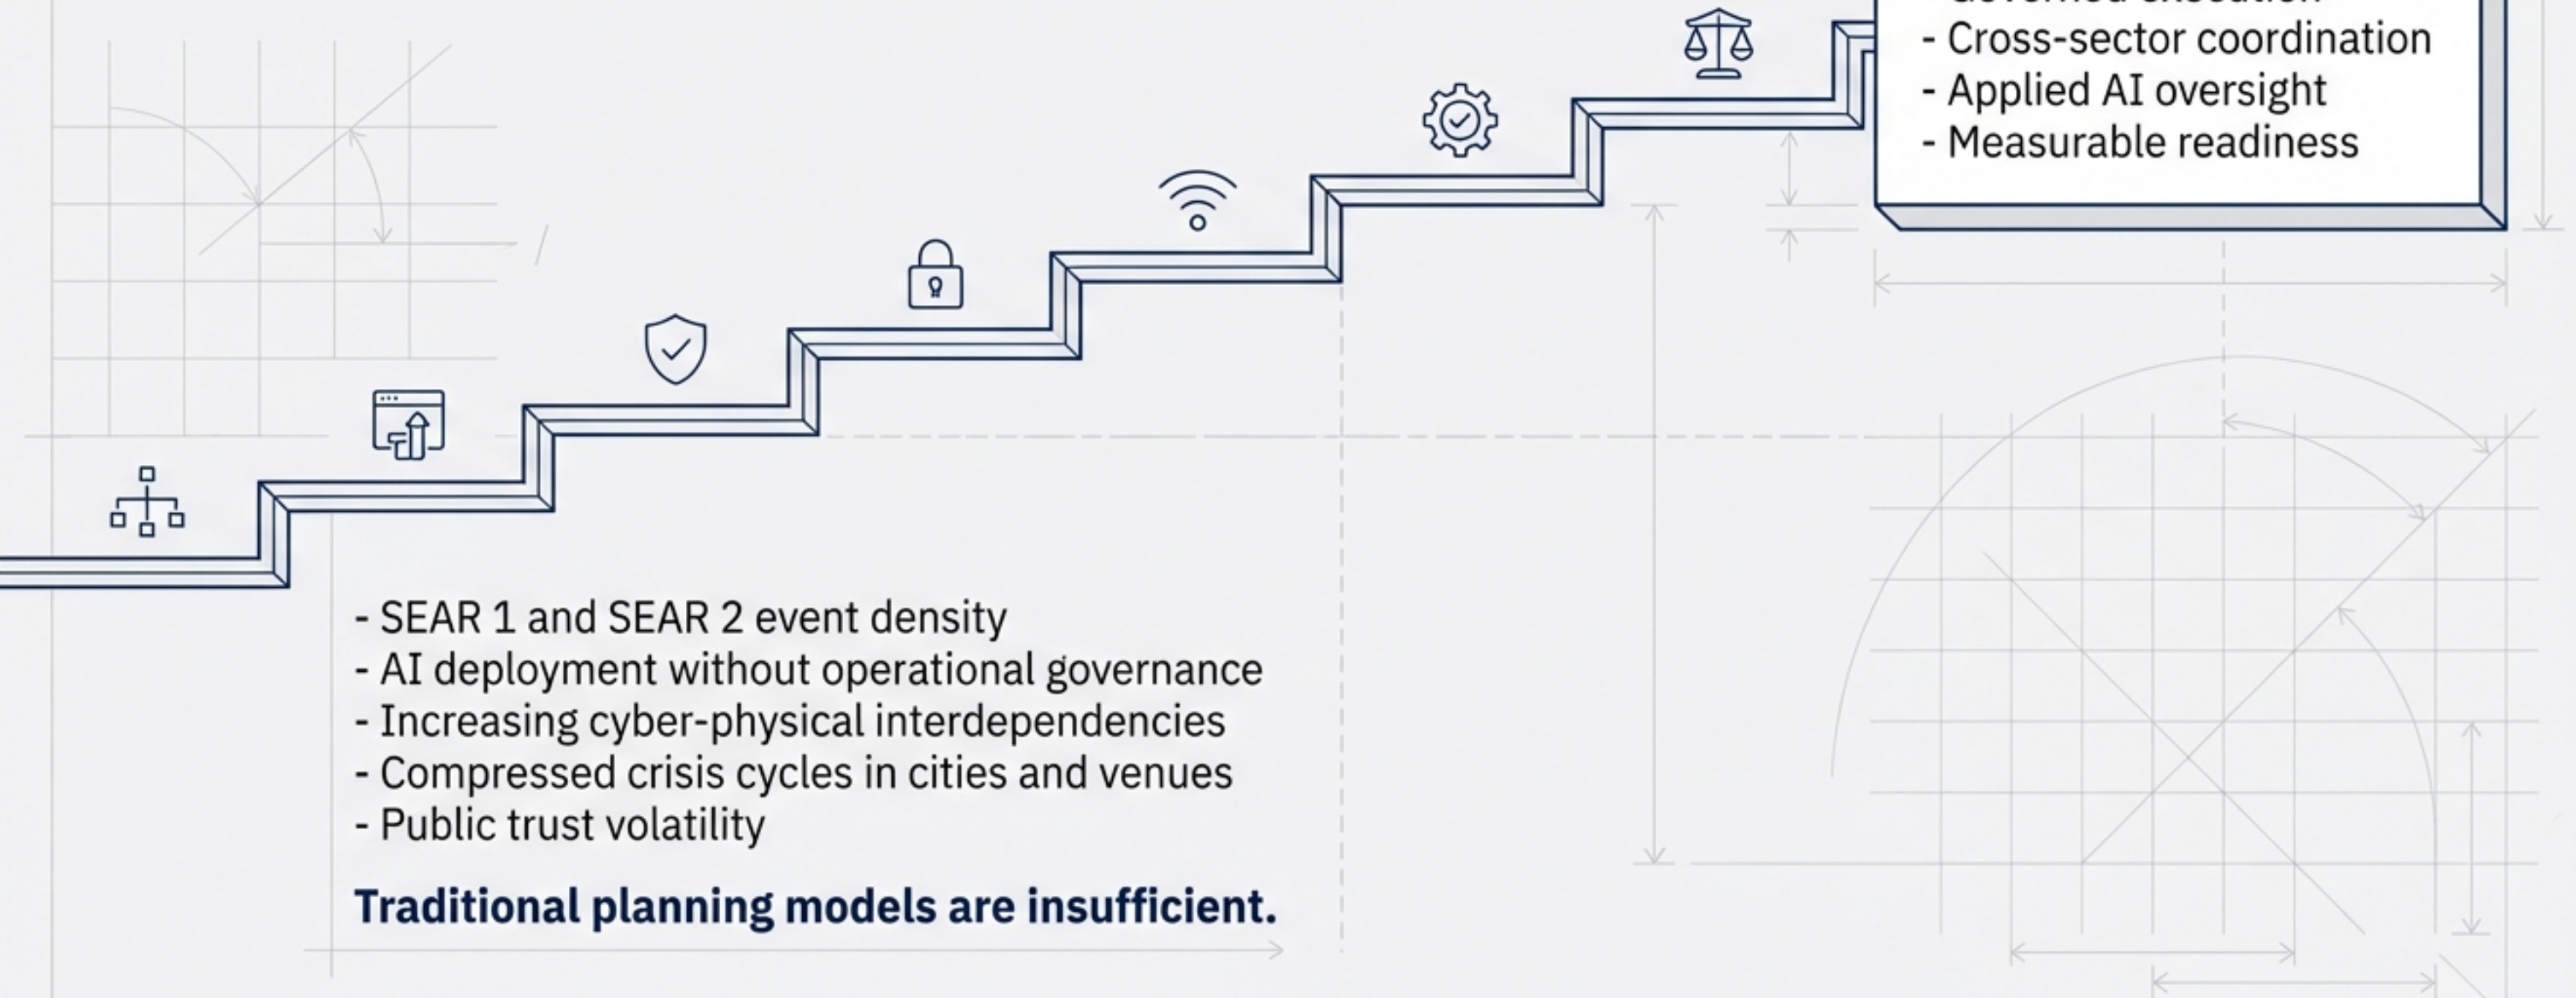

A bi-coastal Living Lab convening public, private, and community systems to design and deploy operational intelligence under real-world conditions.

Converge is not a conference. It is a systems execution platform.

Why Converge | Why Now

We are entering a structural shift defined by:

Sponsors align with infrastructure modernization, not event branding.

The Converge Model

Four Integrated Pillars

Host cities may activate one or more tracks:

Beyond the Game

Future of the Game

MEIX Innovation Exchange

The Core Engine (Integrated Pillars)

1. Operational Resilience

Readiness, interoperability, escalation governance

2. Responsible AI & Intelligence

Validation, guardrails, evidence continuity

3. Community + Culture Activation

Workforce, innovation access, trusted anchors

4. Public-Private Ecosystem Design

Procurement alignment, scalable deployment frameworks

This is modular, repeatable, and scalable across markets.

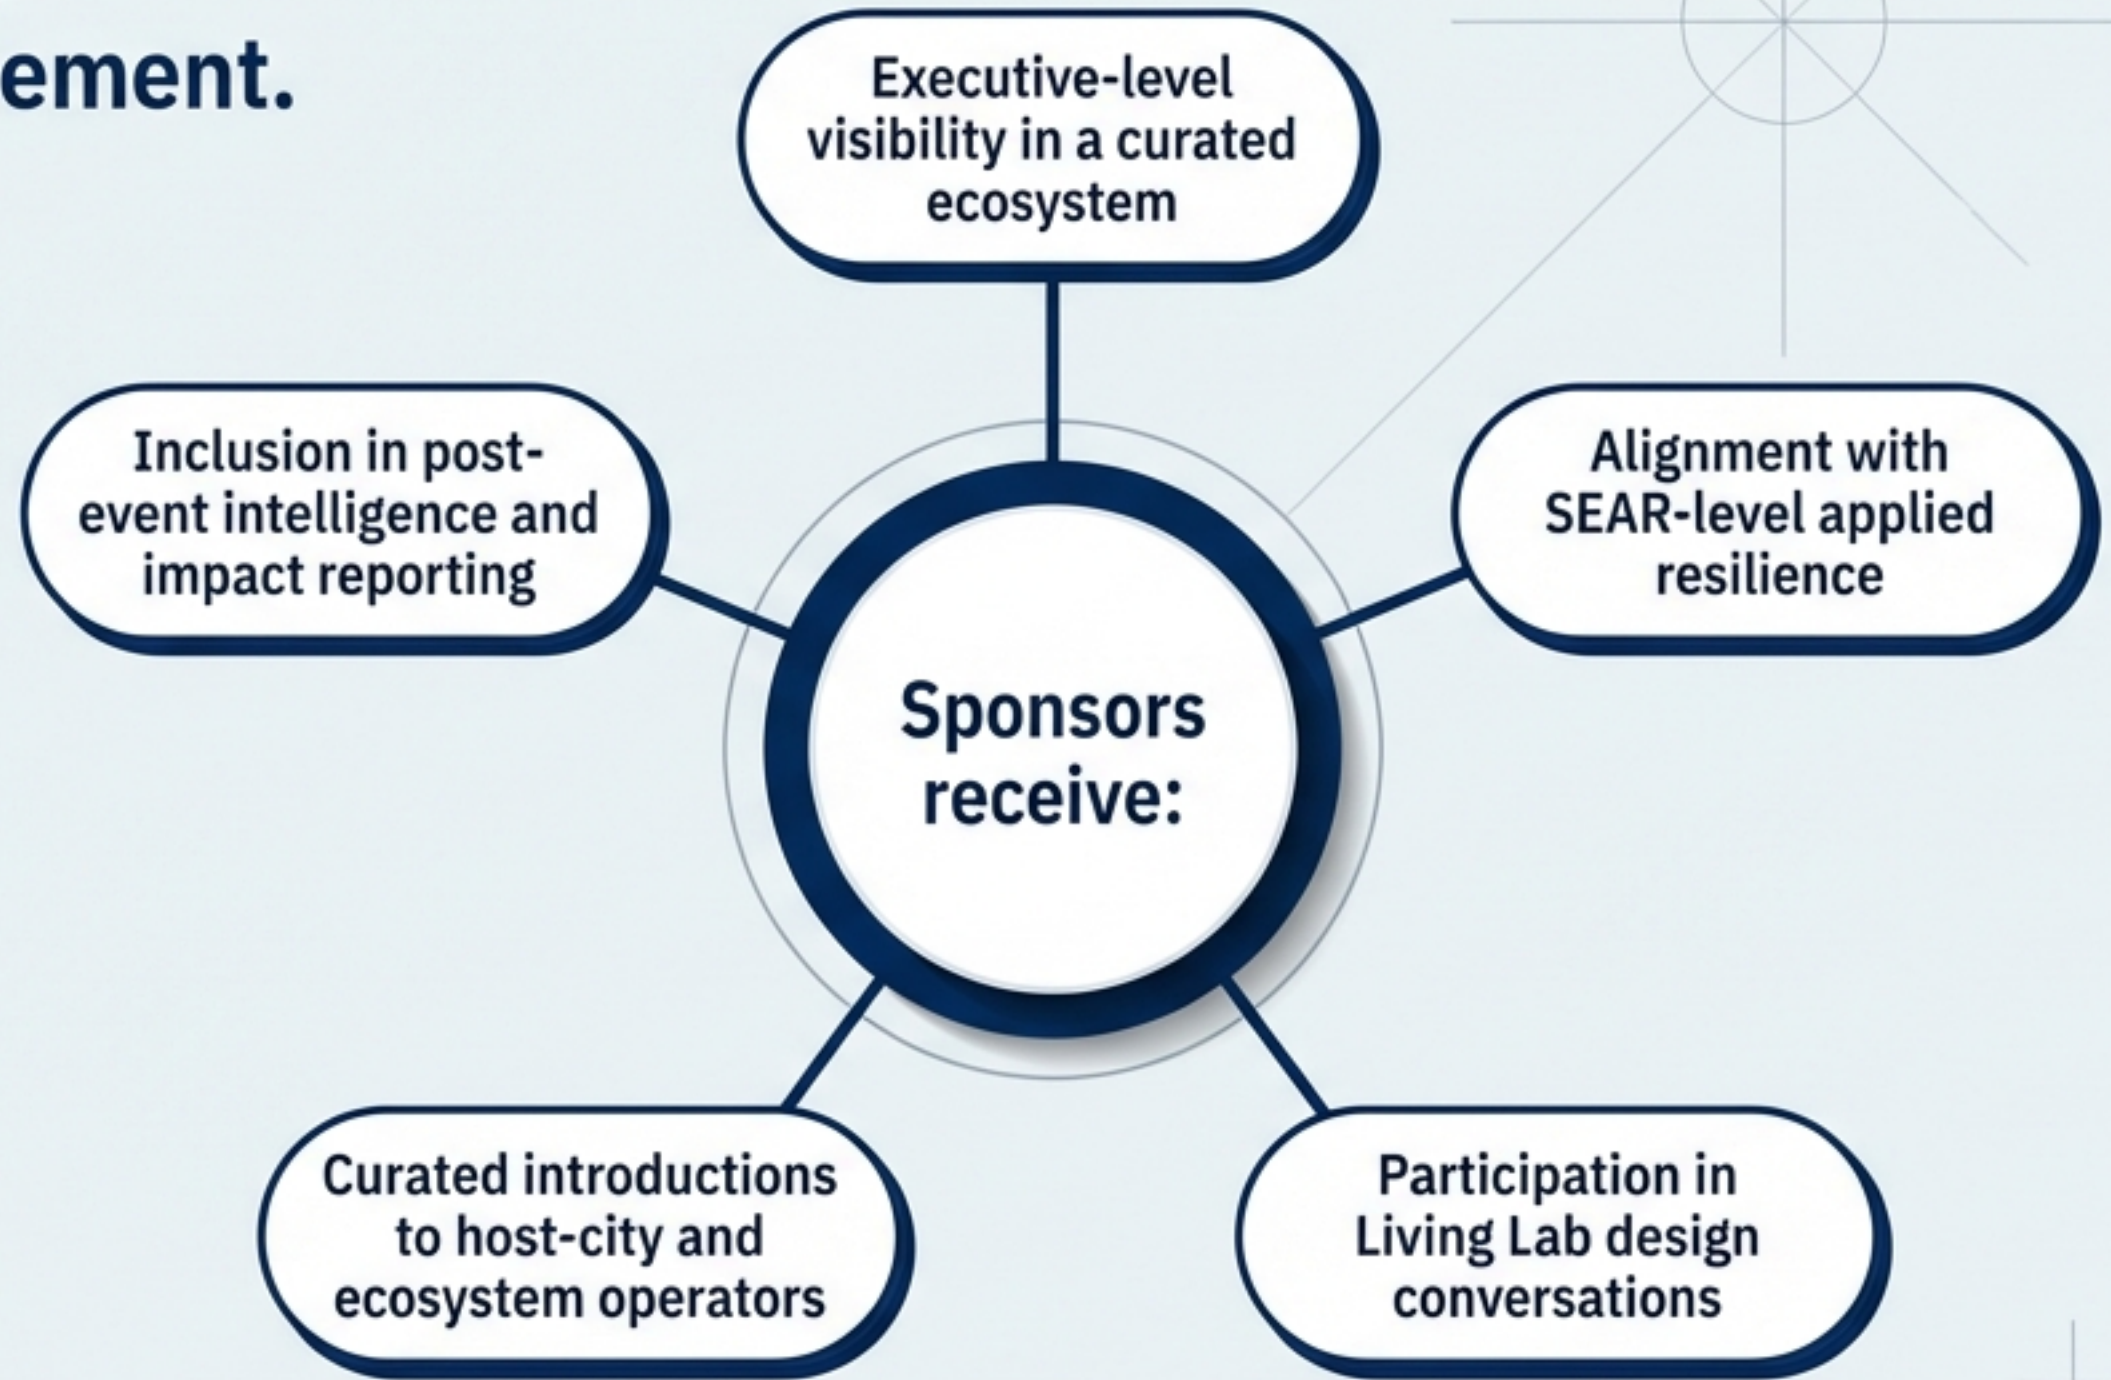

Sponsor Value | Strategic Participation

This is proximity to decision environments, not logo placement.

Bi-Coastal Footprint:
- Atlanta
- West Coast Host City

National relevance.
Replicable model.

Sponsorship Structure

Execution Pathways for Converge 2026

Presenting Partner | \$50,000

- Featured recognition
- Executive speaking role
- Activation presence
- 8 curated introductions
- 10 seats

Strategic Partner | \$25,000

- Recognition across materials
- Roundtable participation
- 5 curated introductions
- 6 seats

Ecosystem Partner | \$15,000

- Program recognition
- 3 curated introductions
- 4 seats

Community Impact Partner | \$10,000

- Activation recognition
- 2 seats

Commitment Deadline: October 31, 2025

Converge 2026 is where operational intelligence moves from concept to coordinated execution.
