

SIPE TEAM ROLLOUT COMMUNICATION PLAN

How to Announce and Implement SIPE Successfully

Version: 1.0 | **Date:** November 23, 2025

Purpose: Give Tye ready-to-use communication templates for team rollout

COMMUNICATION STRATEGY OVERVIEW

Goal: Get team excited and aligned, not anxious and resistant

Key Principles:

1. **Vision First:** Start with "why" before "what" or "how"
2. **Benefits Clear:** Emphasize time savings and better work, not just "efficiency"
3. **Safety Nets:** Address fears directly and honestly
4. **Quick Wins:** Show value fast (Week 1-2) to build momentum

5. **Two-Way:** Listen to concerns, adjust based on feedback

Timeline:

- **Today:** Leadership alignment
- **Monday:** Team announcement
- **Tuesday:** Kickoff and Q&A
- **Week 1:** Core team pilot with champions
- **Week 2-4:** Full team rollout

COMMUNICATION 1: LEADERSHIP PRE-BRIEF (EMAIL)

When: Before team announcement

To: CTO, Program Director, Senior Engagement Leads

From: Tye (CEO)

Email Template:

Subject: SIPE Launch - Leadership Alignment Needed

Hi team,

We're launching SIPE (Sentrais Innovation Playbook Engine) this week - our transformation from project delivery firm into an intelligence-driven company. This is the

biggest operational initiative we've undertaken, and I need your alignment and support.

What is SIPE?

Our intelligence operating system that automates routine work, applies NIN methodology consistently, predicts project risks, and scales our capacity without hiring. Think: AI + automation + proven playbooks = 2x productivity.

Why Now?

We're at capacity. We can't take on more clients without compromising quality or burning out the team. SIPE lets us scale smartly - same team, 50-100% more capacity, better client experience.

The Business Case:

- Investment: \$6-8K one-time + \$200/month
- Return: \$500K+ first year (time savings + new revenue)
- ROI: 2,400% annually
- Payback: <1 month

What I Need From You:

1. **Monday 9am:** Leadership alignment meeting (1 hour)
2. Review vision presentation (attached)
3. Address your concerns
4. Align on messaging
5. **Monday 2pm:** Team announcement (you attend)
6. Show unified leadership support
7. Help answer questions
8. Be visible champions

9. **This Week:** Active support
10. Talk up SIPE to your teams
11. Address concerns you hear
12. Report blockers to me immediately

Your Concerns Matter:

I know this is a big change. If you have reservations, let's discuss Monday morning before the team announcement. I'd rather address leadership concerns privately than surprise you publicly.

Materials Attached:

- Vision & Strategy Presentation (22 slides)
- Week 1 Implementation Guide
- Tech Stack Architecture
- Systems Architecture Quick Reference

Questions? My door/calendar is open. Let's make this a team win.

– Tye

COMMUNICATION 2: TEAM ANNOUNCEMENT (ALL-HANDS EMAIL)

When: Monday morning (after leadership alignment)

To: All NOVATE team members

From: Tye (CEO)

Email Template:

Subject: Exciting News: SIPE Launch This Week 🚀

Team,

I'm excited to announce SIPE - our Sentrais Innovation Playbook Engine - launching this week. This is the single biggest transformation in how NOVATE operates, and it's going to make your work better, easier, and more impactful.

What is SIPE?

SIPE is our intelligence operating system. It automates the boring parts of your job (status reports, folder creation, template hunting) so you can focus on the interesting parts (strategy, innovation, client relationships).

Think of it as having an AI-powered assistant that:

- Knows our NIN methodology perfectly
- Never forgets a step or misses a deadline
- Works 24/7 creating documents and reports
- Predicts problems before they become crises
- Frees you up for high-value work

What This Means For You:

Engagement Leads:

- Spend 15 hours/week less on status reports and admin
- Get ML alerts when projects need attention
- Focus on client strategy instead of documentation

Project Managers:

- Handle 2x more projects with same effort

- No more manual folder creation or email tennis
- Automated stage gates with clear criteria

Delivery Team:

- Stop hunting for templates - they come to you
- Less meetings about "where's that document?"
- More time for actual innovation work

Everyone:

- Better work-life balance (automation works weekends)
- Clearer processes (playbooks for everything)
- Premium tools (Framer, Plus AI, Claude Projects)
- Client delight (faster, more transparent service)

What's Happening This Week:

- **Today:** This announcement
- **Monday 2pm:** All-hands kickoff meeting (1 hour, required attendance)
- **Tuesday-Friday:** Core team pilot with SIPE Champions
- **Next Week:** Full team training and rollout

What We're NOT Doing:

- ✗ Replacing anyone (AI handles tasks, not people)
- ✗ Adding to your workload (net time savings from Week 2)
- ✗ Forcing adoption overnight (phased rollout with support)
- ✗ Ignoring your concerns (we want honest feedback)

Your Input Matters:

This is a team transformation, not a top-down mandate. At Monday's kickoff, we'll have extended Q&A. Ask anything. Push back if you disagree. Your concerns are valid and will be addressed.

If you can't wait until Monday, my calendar is open for 1:1s today.

Why This Matters:

We're not just improving efficiency. We're building a competitive moat. While other consultancies still deliver projects manually, we'll operate an intelligence system that learns and improves. That's how we win clients, command premium pricing, and build a company that lasts.

Your work becomes more interesting. Our clients get better service. Our company grows without growing pains. Everyone wins.

See you Monday at 2pm. Let's build the future together.

– Tye

P.S. If you want a preview, the full vision presentation is in Nextcloud: /NOVATE/SIPE/Documentation/SIPE_Vision_Strategy_Presentation_v1.0.md

COMMUNICATION 3: ALL-HANDS KICKOFF AGENDA

When: Monday 2pm

Duration: 1 hour

Format: In-person or Zoom (record for absent team)

Required: All team members

Meeting Agenda:

PART 1: VISION (15 minutes) - Tye presents

- Show slides 1-5 from Vision & Strategy Presentation
- Focus on:
- The problem we're solving (churn, capacity limits, manual work)
- The vision (intelligence company, not consulting firm)
- What SIPE is (three-layer architecture, simple terms)

Key Message: "We're not just improving operations. We're transforming what NOVATE is and can become."

PART 2: WHAT'S IN IT FOR YOU (15 minutes) - Role-based breakdowns

Engagement Leads (1 minute each):

- Before SIPE: 20 hours/week on admin
- After SIPE: 3.5 hours/week on admin
- Result: 16.5 hours back for strategy and client work

Project Managers (1 minute):

- Before SIPE: Max 2-3 concurrent projects
- After SIPE: Handle 4-6 concurrent projects
- Result: More interesting work, less repetitive tasks

Delivery Team (1 minute):

- Before SIPE: Searching for templates, recreating deliverables
- After SIPE: Claude Projects generates content in minutes

- Result: Focus on innovation, not documentation

Leadership (1 minute):

- Before SIPE: Gut-feel decisions, firefighting
- After SIPE: Data-driven decisions, predictive insights
- Result: Run the business proactively

PART 3: HOW IT WORKS (10 minutes) - CTO or Program Director

- Show Diagram 1 (Three-Layer Architecture)
- Walk through one automation example (client onboarding)
- Demo: "Deal closes in HubSpot → 45 seconds later, client has portal access"
- Show the tools: Nextcloud, Framer, Plus AI, Canva, n8n, Claude

Key Message: "This isn't theoretical. These are real tools, working automations, proven ROI."

PART 4: ROLLOUT PLAN (5 minutes) - Program Director

Week 1 (This week):

- Core team pilot (5 SIPE Champions identified)
- Basic infrastructure deployed
- First automations tested

Week 2-4:

- Full team training (2-day workshop)

- All tools rolled out
- First client pilots

Month 2-3:

- Scale to all projects
- Advanced automations
- ML models in production

Support:

- Daily stand-ups (Week 1-4)
- Slack #sipe-help channel (always)
- 1:1 training available
- Fallback processes (if something breaks)

Key Message: "Phased, measured, safe. No one gets left behind."

PART 5: Q&A (15 minutes) - Tye + Leadership

Expected Questions (prepare answers):

1. "This sounds complicated. Will it actually work?"

- Proven tools (Nextcloud used by 400K organizations, etc.)
- We have complete implementation guide, not winging it
- Phased approach with pilot first

2. "I'm overwhelmed. Now I need to learn new systems?"

- 2-day training investment

- Net time savings from Week 2 onward
- Champions available to help

3. **"What if clients don't like it?"**

- Clients love transparency and speed
 - Early feedback: "This is the most professional onboarding we've seen"
 - Invisible to them - they just see excellence

4. **"Will AI replace my job?"**

- Absolutely not. AI handles repetitive tasks.
 - Your job becomes more strategic, not obsolete.
 - We're hiring for roles, not cutting.

5. **"What if I have trouble adopting?"**

- 1:1 support available
 - SIPE Champions help teammates
 - No penalty for asking questions
 - We adjust pace based on feedback

6. **"How much extra work during implementation?"**

- Week 1: 5-10 hours beyond normal (core team only)
 - Week 2-3: 2-day training, then minimal
 - Week 4+: Net time savings, not spending

7. **"What's the risk if this doesn't work?"**

- Fallback processes for everything

- Can revert at any phase
- Budget is <1 month of value generated
- 90-day checkpoint: assess and adjust

Facilitation Tips:

- Don't get defensive on tough questions
- Thank people for pushback ("Great question, I'm glad you asked")
- If you don't know, say so ("Let me research that and follow up")
- Take note of repeated concerns (address in follow-up email)

PART 6: NEXT STEPS (5 minutes) - Tye

Immediate:

- [] SIPE Champions: Meet me right after this (identify volunteers)
- [] Everyone: Access SIPE documentation in Nextcloud tonight
- [] Everyone: Block calendar for training next week

This Week:

- Core team pilot begins Tuesday
- Daily 15-min stand-ups (9am) to track progress
- Open office hours (Tye, 4-5pm daily)

Commitment:

"I commit to you: if SIPE isn't delivering value by end of Month 1, we'll reassess. If it's not working by end of Quarter 1, we'll be honest about it. This is a measured bet with clear success criteria. We're in this together."

Closing:

"You're the best team I've ever worked with. This is how we take NOVATE to the next level while making your jobs better. Let's do this."

COMMUNICATION 4: POST-KICKOFF FOLLOW-UP (EMAIL)

When: Monday evening (after kickoff)

To: All team members

From: Tye

Email Template:

Subject: Thank You + SIPE Kickoff Recap & Resources

Team,

Thank you for your engagement in today's SIPE kickoff. Your questions were excellent, your concerns were valid, and your energy was encouraging.

Key Takeaways from Today:

1. **SIPE Goal:** Free you up from admin work so you can focus on strategy, innovation, and clients
2. **Implementation:** Phased over 8 weeks, starting with small pilot
3. **Support:** Daily stand-ups, Slack channel, 1:1 help available
4. **Commitment:** 90-day checkpoint to assess results

SIPE Champions Identified:

Big thanks to our volunteer champions who'll pilot SIPE this week:

- [Name] - Engagement Lead
- [Name] - Project Manager
- [Name] - Delivery Team
- [Name] - Delivery Team
- [Name] - Program Director (lead)

These folks will test everything first and help the rest of you when we roll out next week.

Resources Available:

All documentation is in Nextcloud: /NOVATE/SIPE/Documentation/

Key docs to read this week:

1. **SIPE_Delivery_Summary_v1.0.md** (15 min read - overview for your role)
2. **Systems_Architecture_Quick_Reference_v1.0.md** (5 min read - tech stack)
3. **Week1_Implementation_Guide_v1.0.md** (optional - if you're curious about details)

Addressing Your Questions:

Several people asked about [specific concern from kickoff]. Here's more detail:

[Address the top 2-3 concerns that came up, with honest, detailed answers]

What's Happening Tomorrow (Tuesday):

- **9am:** Daily SIPE stand-up (15 min, Champions only this week)
- **10am-5pm:** Infrastructure setup (Champions + CTO)
- **4pm:** Open office hours with me (anyone welcome)

One More Thing:

A few of you approached me after the meeting with specific concerns. Thank you for being direct. I've scheduled 1:1s with each of you this week to discuss in depth.

If I missed you, my calendar is open. Book time whenever.

Let's make this happen. See you Tuesday.

– Tye

COMMUNICATION 5: WEEK 1 DAILY STAND-UP FORMAT

When: Every morning, 9am

Duration: 15 minutes max

Attendees: SIPE Champions + Project Lead + Tye

Format: Quick status, no deep discussions

Stand-Up Template:

Round-Robin (2 min each person):

1. **What did you accomplish yesterday?**
2. Specific: "Set up Nextcloud folders" (not "worked on SIPE")
3. Blockers: "Couldn't complete X because Y"
4. **What are you working on today?**
5. Specific goals: "Import n8n workflow and test"

6. Ask for help: "Need CTO to provision API key"
7. **Any blockers or concerns?**
8. Technical: "Nextcloud setup failing at step 3"
9. Process: "Unclear on how to test automation"
10. Team: "Sarah's concerned about learning curve"

Project Lead Wrap-Up (2 min):

- Celebrate wins: "Great job getting Nextcloud live yesterday!"
- Assign blockers: "CTO, can you help [Name] with API keys today?"
- Adjust plan: "Let's push n8n testing to tomorrow, focus on training today"

Tye Close (1 min):

- Check team sentiment: "How's everyone feeling? Overwhelmed? Excited?"
- Provide encouragement: "We're on track, this is exactly where we should be"
- Remind support: "Open office hours 4pm if anyone needs 1:1 help"

COMMUNICATION 6: END OF WEEK 1 RECAP (EMAIL)

When: Friday evening

To: All team members

From: Tye

Email Template:

Subject: SIPE Week 1: We Did It! 🎉

Team,

Week 1 of SIPE is complete. And I'm proud to report: **we crushed it.**

What We Accomplished:

- ✅ Nextcloud operational (100% team access)
- ✅ First n8n automation working (client onboarding)
- ✅ Claude Projects set up (SIPE Master + Content Generator)
- ✅ Core team trained and confident
- ✅ First test client onboarded in <2 minutes (vs 2-5 days before)

By The Numbers:

- Infrastructure deployed: 1 day ahead of schedule
- Automations tested: 3 (planned: 1, exceeded goal!)
- Team hours saved this week: 12 hours (and we're just starting!)
- Issues encountered: 2 (both resolved same day)
- Team sentiment: 8.5/10 (measured via quick survey)

Hero of the Week:

Shoutout to [Champion Name] who debugged the Nextcloud setup issue at 7pm Tuesday and got us back on track. That's the kind of commitment that makes this work.

What Your SIPE Champions Are Saying:

"I was skeptical Monday. By Friday, I'm a believer. Generated a client status report in 3 minutes that would've taken me 45 minutes. This is real." – [Name], Engagement Lead

"Once I saw the n8n workflow run end-to-end, I got it. This isn't hype - this is the future of how we operate." – [Name], PM

Next Week:

- **Monday 1pm:** Full team training begins (2-day workshop)
- **Wednesday:** You'll create your first automated deliverable
- **Friday:** First client pilot starts

Weekend Homework (Optional):

If you want to get ahead:

- Read: SIPE_Delivery_Summary_v1.0.md (your role-specific guide)
- Watch: Training video from Week 1 (Nextcloud: /SIPE/Training/Week1_Recording.mp4)
- Play: Log into Nextcloud and explore the interface

No pressure - we'll cover everything Monday.

A Personal Note:

I asked a lot of you this week. Long days, new systems, uncertainty. You showed up, leaned in, and made it work. That's the NOVATE I know and love.

Next week, it's not just the Champions - it's everyone. And I know you'll bring that same energy.

Enjoy your weekend. You earned it.

– Tye

P.S. Special thanks to [Project Lead Name] who organized daily stand-ups, managed the schedule, and kept us on track. Couldn't have done it without you.

COMMUNICATION 7: ADDRESSING RESISTANCE (1:1 TEMPLATE)

When: When you hear concern/resistance

Format: Private 1:1 conversation

Duration: 15-30 minutes

Conversation Framework:

1. Listen First (5 min)

"Tell me what's on your mind about SIPE. I want to understand your concerns."

Listen without defending:

- Let them talk uninterrupted
- Ask clarifying questions
- Take notes
- Validate their feelings: "I hear you, that's a legitimate concern"

2. Understand the Root Cause (3 min)

Common root causes:

- **Fear of change:** "I'm comfortable with current process"

- **Competence concerns:** "I'm not technical, this seems hard"
- **Job security:** "Will AI replace me?"
- **Workload anxiety:** "I'm already overwhelmed"
- **Trust issues:** "Leadership initiatives usually fail"

Probe gently:

- "What specifically worries you most?"
- "What would need to be true for you to feel comfortable?"
- "Have you had a bad experience with similar changes before?"

3. Address Directly (10 min)

If fear of change:

→ "Change is hard. But staying stuck is harder. Our clients expect more, competition is fierce. This is how we stay relevant."

→ "We're doing this together. Phased rollout. Support every step."

If competence concerns:

→ "You don't need to be technical. We've designed SIPE to be user-friendly."

→ "2-day training, hands-on practice, Champions to help. You'll be confident by end of Week 2."

→ "What if we pair you with [Champion] as your personal coach?"

If job security:

→ "AI doesn't replace you. It handles boring tasks so you can do interesting work."

→ "We're growing, not cutting. SIPE lets us take on more clients without burning you out."

→ "Your role evolves - more strategy, less admin. That's a promotion, not a threat."

If workload anxiety:

- "Week 1-2 is intensive, yes. But starting Week 3, you save 10-20 hours/week."
- "What if we lighten your project load for 2 weeks during training?"
- "Net result is less work, not more. I promise."

If trust issues:

- "I hear you. Past initiatives have failed. This is different because:"
- "1. We have a complete implementation plan, not just a vision"
- "2. We're testing with Champions first, not forcing on everyone"
- "3. We have fallback processes if something fails"
- "What would you need to see in 30 days to believe this is real?"

4. Commit to Action (5 min)

"Here's what I'm committing to you:"

- [Specific support you'll provide]
- [Checkpoints to assess their comfort level]
- [Permission to opt out if truly unbearable]

"What do you need from me to make this work?"

5. Follow Up (after meeting)

Send email within 24 hours:

- Recap the concerns discussed
- Restate the commitments you made
- Provide specific resources or support
- Schedule 1-week check-in

COMMUNICATION 8: CELEBRATING WINS (ONGOING)

Purpose: Build momentum through visible success

Quick Win Examples:

Week 1:

🎉 SIPE WIN: [Name] onboarded a client in 47 seconds today (vs 2-3 days manual). Client's response: 'Wow, that was fast!' This is the future."

Week 2:

🎉 SIPE WIN: [Name] generated 3 client status reports using Claude Projects in 8 minutes total. Used to take 2+ hours. She left work at 4pm today for the first time in months."

Week 4:

🎉 SIPE WIN: ML model predicted NFL HUB stakeholder issue 5 days before it became a problem. [Eng. Lead] intervened early. Engagement stayed on track. Churn prevention WORKS."

Month 3:

🎉 SIPE MILESTONE: We're handling 14 concurrent engagements (vs 8 pre-SIPE) with same team. Client NPS: 9.2 (up from 7.5). Revenue up 35%. This is working."

Where to Celebrate:

- Slack #sipe-wins channel (public)

- Weekly all-hands shoutouts
- 1:1 recognition ("You nailed that automation")
- Team lunch/happy hour (monthly SIPE celebration)

What to Celebrate:

- Individual wins (person used SIPE successfully)
- Team milestones (X workflows automated)
- Client feedback (testimonials)
- Business results (time saved, revenue up)
- Learning moments (someone figured out a better way)

Remember: Early wins build belief. Celebrate frequently and publicly.

COMMUNICATION 9: MONTHLY SIPE UPDATE (EMAIL)

When: End of each month

To: All team members

From: Tye

Template:

Subject: SIPE Month [X] Update: [Key Headline]

Team,

Month [X] of SIPE is complete. Here's how we're doing.

By The Numbers:

Metric	Target	Actual	Status
Automations live	[X]	[Y]	✔/🟡
Team hours saved/week	[X]	[Y]	✔/🟡
Active projects handled	[X]	[Y]	✔/🟡
Client NPS	[X]	[Y]	✔/🟡
Team adoption rate	[X%]	[Y%]	✔/🟡

Wins This Month:

- 1. [Biggest accomplishment]
- 2. [Second biggest]
- 3. [Third biggest]

Challenges We're Working On:

- 1. [Issue] - Owner: [Name] - ETA: [Date]
- 2. [Issue] - Owner: [Name] - ETA: [Date]

What's Next:

Month [X+1] focus:

- [Priority 1]

- [Priority 2]
- [Priority 3]

Your Feedback:

We ran a team survey this month. Key themes:

- [Positive theme 1]
- [Positive theme 2]
- [Concern raised]
- [How we're addressing the concern]

Shoutouts:

- [Name]: [Specific achievement]
- [Name]: [Specific achievement]
- [Name]: [Specific achievement]

Questions or Concerns?

My calendar is open. Let's talk.

– Tye

COMMUNICATION 10: 90-DAY CHECK-POINT (PRESENTATION)

When: End of Month 3

Format: All-hands meeting

Duration: 30 minutes + Q&A

Agenda:

1. Where We Started (5 min)

- Remind team of the problems pre-SIPE
- Review initial goals and commitments

2. What We Promised (3 min)

- Show the success metrics from kickoff
- Remind them of ROI projections

3. What We Delivered (10 min)

- Show actual results vs. targets
- Celebrate wins
- Be honest about shortfalls

4. What We Learned (5 min)

- Things that worked better than expected
- Things that were harder than expected

- Adjustments we made along the way

5. What's Next (5 min)

- Month 4-6 roadmap
- Advanced features coming
- Your role in next phase

6. Q&A (10+ min)

- Open floor for honest questions
- Address any lingering concerns
- Capture feedback for improvements

7. The Decision (2 min)

"Based on these results, here's what we're doing:

- [Continue as planned / Adjust approach / Scale back]
- [Specific changes based on feedback]
- [Renewed commitment or pivot]"

QUICK REFERENCE: COMMUNICATION DO'S & DON'TS

DO:

- ✓ Be honest about challenges
- ✓ Celebrate specific wins publicly
- ✓ Listen to concerns without defending
- ✓ Provide concrete support (not just "figure it out")
- ✓ Show data/results, not just vision
- ✓ Thank people by name for contributions
- ✓ Adjust based on feedback

DON'T:

- ✗ Overpromise on timeline or results
- ✗ Dismiss concerns as "resistance to change"
- ✗ Only communicate when there's a problem
- ✗ Assume adoption without checking in
- ✗ Blame individuals for implementation struggles
- ✗ Use jargon or technical terms excessively
- ✗ Make it a "top-down mandate" vs. "team transformation"

EMERGENCY COMMUNICATION: IF THINGS GO WRONG

Scenario: Major technical issue blocks work

Immediate Action (within 1 hour):

1. **Slack #sipe-help:**

"[ISSUE] We're experiencing [problem]. Impact: [who/what affected]. Team: please use manual process for [task] until fixed. ETA: [timeframe]. Updates every [frequency]."

2. **Email to affected individuals:**

"I know [problem] is blocking your work. Here's the manual fallback process: [steps]. We're working on fix now. Updates in Slack #sipe-help."

3. **Fix-it war room:**

4. Assemble core team
5. Diagnose root cause
6. Implement fix or workaround
7. Test before declaring resolved

Post-Mortem (within 24 hours):

1. **What happened** (facts, no blame)
2. **Why it happened** (root cause)
3. **How we fixed it** (solution)
4. **How we prevent it** (process change)
5. **Apology and gratitude** (acknowledge impact, thank for patience)

Remember: Trust is built on how you handle problems, not absence of problems.

TEMPLATES SUMMARY

You now have 10 ready-to-use communication templates:

1. Leadership pre-brief email
2. Team announcement email
3. All-hands kickoff agenda
4. Post-kickoff follow-up email
5. Week 1 daily stand-up format
6. End of Week 1 recap email
7. 1:1 resistance conversation framework
8. Celebrating wins (ongoing)
9. Monthly SIPE update email
10. 90-day checkpoint presentation

Next Steps:

1. Customize with NOVATE specifics (names, dates, details)
2. Adjust tone to match your voice
3. Use liberally - communication can't be overdone during change

You've got everything you need to launch SIPE successfully. The plan is solid.

The communication is ready. Time to execute.

Let's transform NOVATE together.
