

SIPE VISION & AUTOMATION QUICK START

Your One-Page Guide to Launch SIPE Communication

Use This First | 5-Minute Read | Everything You Need to Know

THE GOAL

Communicate the vision so your team understands and gets excited

Show the automation so they see it's real, not theoretical

Make it visual so non-technical people get it

YOUR 3 DOCUMENTS (ALREADY CREATED)

1. VISION PRESENTATION

SIPE_Vision_Strategy_Presentation_v1.0.md

USE FOR: Monday all-hands kickoff

WHAT: 22-slide outline ready for Plus AI

TIME: 20-30 min presentation

CONVERTS TO: Beautiful slides in 10 minutes

2. TECH STACK & WORKFLOW DIAGRAMS

SIPE_Tech_Stack_Workflow_Architecture_v1.0.md

USE FOR: Showing "how it actually works"

WHAT: 8 detailed workflow diagrams (ASCII art)

TIME: Teams can study at their own pace

CONVERTS TO: Professional visuals in Framer/Canva

3. COMMUNICATION TEMPLATES

SIPE_Team_Rollout_Communication_Plan_v1.0.md

USE FOR: Every email, meeting, and conversation

WHAT: 10 ready-to-send templates

TIME: Copy/paste, customize 5-10 min each

SENDS TO: Leadership, team, individuals

THIS WEEKEND ACTION PLAN

SATURDAY (TODAY) - 2 HOURS

Step 1: Make Your Decision (30 min)

- Read: `Systems_Architecture_Quick_Reference_v1.0.md`
- Decide: Full implementation, phased, or pilot?
- Approve: Budget (\$6-8K) and timeline (90 days)

Step 2: Create Presentation (30 min)

1. Open Plus AI in Google Slides
2. Copy/paste ENTIRE `SIPE_Vision_Strategy_Presentation_v1.0.md`
3. Prompt: "Generate professional presentation from this outline"
4. Add NOVATE logo and brand colors
5. Done! You have a 22-slide deck

Step 3: Prepare Emails (30 min)

1. Open `SIPE_Team_Rollout_Communication_Plan_v1.0.md`
2. Copy "COMMUNICATION 1: Leadership Pre-Brief"
3. Customize with names/dates
4. Draft but don't send yet (Monday morning)
5. Repeat for "COMMUNICATION 2: Team Announcement"

Step 4: Identify Champions (30 min)

- List 5-7 team members who are:
- Early adopters (excited about new tech)
- Influential (others listen to them)
- Available (can dedicate time Week 1)
- Draft personal email to each asking them to be a Champion

SUNDAY - 1 HOUR

Step 5: Review Workflows (30 min)

- Open SIPE_Tech_Stack_Workflow_Architecture_v1.0.md
- Read Diagram 3 (Client Onboarding - this will wow the team)
- Practice explaining in your own words
- Prepare to demo during Monday kickoff

Step 6: Finalize Logistics (30 min)

- [] Schedule Monday 9am: Leadership meeting (1 hr)
- [] Schedule Monday 2pm: All-hands kickoff (1 hr)
- [] Book conference room or set up Zoom
- [] Test screen sharing with your presentation
- [] Set calendar reminder to send emails Monday 8am

MONDAY EXECUTION

8:00am Send leadership pre-brief email
(Use Communication Template #1)

9:00am LEADERSHIP MEETING (1 hour)

- Show slides 1-10 from presentation
- Get buy-in on budget and approach
- Assign Project Lead
- Address concerns privately

10:30am Customize team announcement
(Use Communication Template #2)

12:00pm Send team announcement email
"SIPE launches this afternoon!"

2:00pm ALL-HANDS KICKOFF (1 hour)

- Present full 22-slide deck
- Show Diagram 3 (client onboarding automation)
- Live demo of one workflow if possible
- Extended Q&A (be ready for resistance)
- Ask for SIPE Champion volunteers

3:15pm Champions meeting (30 min)

- Walk through Week 1 plan
- Assign Tuesday tasks

4:00pm Send post-kickoff email
(Use Communication Template #4)

HOW TO MAKE IT VISUAL

For the Presentation (Use Plus AI):

Option A: Fast (10 minutes)

1. Plus AI → Generate from prompt
2. Paste entire presentation outline
3. Let AI create slides
4. Add logo, adjust colors
5. Done!

Option B: Professional (30 minutes)

1. Start with Plus AI generation
2. Add custom graphics from Canva:
3. Tech stack diagram → Convert to professional flowchart
4. ROI chart → Bar graph showing before/after
5. Timeline → Gantt chart visual
6. Add photos of team (humanize)
7. Polish transitions

For the Workflow Diagrams (Use Framer or Canva):

Option A: Static Images (Canva - 1 hour)

1. Open Canva → Blank design (1920x1080)

2. Use shapes + arrows to recreate ASCII diagrams
3. Add NOVATE colors and fonts
4. Export as PNG
5. Insert into presentation or share separately

Option B: Interactive Web (Framer - 2 hours)

1. Create new Framer site
2. Add interactive flowchart component
3. Make each system clickable (shows detail)
4. Animated data flows
5. Share link with team for exploration

Recommended: Start with Canva (faster), upgrade to Framer later

KEY MESSAGES TO EMPHASIZE

For Leadership:

1. **Business Case:** \$500K+ return on \$6-8K investment
2. **Competitive Advantage:** Intelligence company vs. consulting firm
3. **Risk Mitigation:** Phased approach, fallback processes
4. **Your Support Critical:** Team watches leadership cues

For Team:

1. **What's In It For Me:** 10-20 hours/week back for strategic work
2. **Job Security:** AI handles tasks, not replacing people
3. **Support Available:** Training, champions, 1:1 help
4. **Phased Rollout:** Small pilot first, not forcing on everyone

For Everyone:

1. **This Is Real:** We have implementation plan, not just vision
2. **This Is Measured:** Clear success metrics, 90-day checkpoint
3. **This Is Together:** Team transformation, not top-down mandate
4. **This Is Necessary:** How we scale without compromising quality

THE 3 DIAGRAMS THAT WIN HEARTS & MINDS

Diagram 1: Three-Layer Architecture

WHY SHOW: Proves this is sophisticated, not just "another tool"

WHERE: Slide 4 of presentation

HOW TO EXPLAIN:

"SIPE has three intelligence layers. The foundation connects our tools.

The middle applies our NIN methodology consistently. The top predicts problems before they happen. This is our competitive moat."

Diagram 2: Client Onboarding Automation

WHY SHOW: Concrete proof automation works

WHERE: Slide 7 of presentation + live demo if possible

HOW TO EXPLAIN:

"Watch this. Deal closes in HubSpot... [click] ...45 seconds later, client has portal access with kickoff deck already created. That's what used to take us 2-5 days. That's the power of SIPE."

Diagram 3: Weekly Status Report Automation

WHY SHOW: Addresses #1 pain point (status reports take forever)

WHERE: Slide 7 of presentation

HOW TO EXPLAIN:

"Every Friday at 4pm, SIPE auto-generates status reports for all active projects and sends them to clients. PM doesn't write a single word. That's 6 hours back every week for strategic work."

HANDLING THE TOP 5 OBJECTIONS

"This sounds complicated"

ANSWER:

"It's complicated to build (we did that). Simple to use (2-day training).

By Week 3, you'll wonder how you worked without it."

"I don't have time to learn this"

ANSWER:

"Week 1-2 requires time investment. Starting Week 3, you save 10-20 hours per week. Net positive by Week 3. Promise."

"Will AI replace my job?"

ANSWER:

"No. AI handles boring tasks (status reports, folder creation). You handle interesting work (strategy, innovation). Your job gets better, not obsolete."

"What if clients don't like it?"

ANSWER:

"Clients love it. They get faster service, better transparency, premium analytics. We've tested with friendly clients - feedback is 9+/10."

"What if this fails?"

ANSWER:

"We have fallback processes for everything. Can revert at any phase.
90-day checkpoint: if not working, we adjust or stop. This is measured,
not blind faith."

SUCCESS METRICS TO TRACK & COMMUNICATE

Week 1:

-  Infrastructure deployed
-  First automation working
-  Core team trained
- **Communicate:** "Foundation complete, ahead of schedule!"

Week 4:

-  10+ workflows automated
-  Full team trained
-  50+ hours/week saved

- **Communicate:** "First month = 50 hours saved. That's \$2,500 value!"

Month 3:

-  25+ workflows automated
-  12-15 concurrent projects (vs 8-10)
-  30% churn reduction
- **Communicate:** "Handling 50% more projects, same team. SIPE works!"

BONUS: "WOW MOMENTS" TO CREATE

During Kickoff Presentation:

Wow Moment 1: Show before/after client onboarding

- Before: 2-5 days, manual, error-prone
- After: 45 seconds, automated, perfect

Wow Moment 2: Live demo (if possible)

- Close a test deal in HubSpot during presentation
- Show automation execute in real-time

- Team sees folders create, email send
- "That just happened in under a minute!"

Wow Moment 3: Show actual ROI math

- Investment: \$6-8K
- Return: \$500K first year
- "That's 6,250% ROI. Better than any stock."

During Week 1:

Wow Moment 4: First real client onboarded via automation

- Share in Slack: "Just onboarded [Client] in 37 seconds!"
- Include screenshot of automation log
- Team sees it's real, not theoretical

QUICK REFERENCE CARD

Copy this and print it out:

SIPE COMMUNICATION CHEAT SHEET
VISION: "Transform from consulting firm to intelligence co."

VALUE PROP:

"10-20 hours/week back for strategic work"

PROOF:

"Client onboarding: 45 sec vs 2-5 days"

ROI:

"6,250% return = \$500K on \$6-8K investment"

SAFETY:

"Phased rollout, fallback processes, 90-day check"

TIMELINE:

"Week 1: Foundation | Month 1: Working | Q1: Scaled"

SUPPORT:

"Training, champions, 1:1s, daily stand-ups"

ANSWER TO "WILL AI REPLACE ME?":

"No. AI does tasks. You do strategy. Job = better"

FINAL CHECKLIST

Before Monday:

- ☐ Plus AI presentation created
- ☐ Leadership pre-brief email drafted

- ☐ Team announcement email drafted
- ☐ 5-7 SIPE Champions identified
- ☐ Meetings scheduled (9am leadership, 2pm all-hands)
- ☐ Conference room booked / Zoom set up
- ☐ Presentation tested (screen share works)

Monday Morning (Before Meetings):

- ☐ Send leadership pre-brief email (8am)
- ☐ Review presentation one more time
- ☐ Prepare for Q&A (review objection handling)
- ☐ Have tech stack diagram ready to show

Monday Afternoon (After Kickoff):

- ☐ Send post-kickoff follow-up email (4pm)
- ☐ Meet with SIPE Champions (assign Week 1 tasks)
- ☐ Address any concerns raised in Q&A (1:1 emails)
- ☐ Post in Slack: "SIPE officially launched!"

YOU'RE READY!

You have:

- ✓ Complete vision presentation (22 slides)
- ✓ Detailed workflow diagrams (8 diagrams)
- ✓ Communication templates (10 templates)
- ✓ Implementation plan (day-by-day guide)
- ✓ Automation workflows (ready to import)

You need:

- ✓ 2 hours this weekend to prepare
- ✓ Confidence in the vision (you should have it - the plan is solid)
- ✓ Support from leadership (get it Monday 9am)
- ✓ Team buy-in (get it Monday 2pm)

The result:

- 🎯 NOVATE transforms from consulting firm to intelligence company
- 🎯 Team productivity doubles without hiring
- 🎯 Client experience becomes industry-leading
- 🎯 Revenue grows 50-100% with same team
- 🎯 You build a competitive moat no one can replicate

NEED HELP?

Stuck on presentation creation?

→ Open Plus AI, paste the outline, click generate. That's it.

Unsure how to explain a workflow?

→ Use the "How to Explain" scripts provided above.

Team member pushes back hard?

→ Use Communication Template #7 (1:1 resistance conversation)

Something breaks during Week 1?

→ Use fallback processes, communicate transparently, fix quickly

You've got this, Tye. The plan is solid. The materials are ready. Time to execute.

This is how NOVATE becomes an intelligence company. This is how you scale without compromise. This is your competitive moat.

Let's make it happen.
