About SimpliMeta

At SimpliMeta, we recognize that the true power of an enterprise lies at the intersection of its people and its technology. Our mission is **simply** to ensure that your Technology Service Management isn't just a support function, but a strategic driver aligned seamlessly with your broader business goals. We pride ourselves on a philosophy that puts your objectives first—matching the right technology to your vision, rather than forcing your business to adapt to a rigid tool.

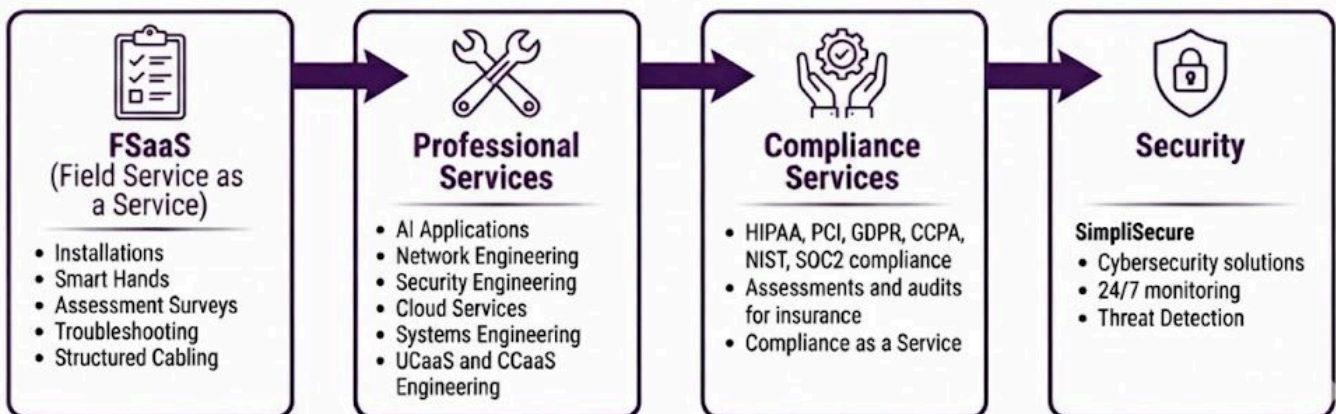

This alignment is achieved through a precision discovery process led exclusively by industry veterans, each bringing over 20 years of specialized experience to your table. We function as a seamless extension of your organization, leveraging a vast network of best-in-breed professionals and partnerships to view your goals from every angle. Partner with SimpliMeta, and let's make achieving your strategic vision **simply** inevitable.

Who is SimpliMeta/Metadata Engineering

We are a Technology Services Enabler

- Field services available for entire U.S and territories
- Roster of architect level solution engineers

Proposal Overview

NOVATELabs.ai has selected SimpliMeta as their definitive strategic partner for the end-to-end development of their groundbreaking proprietary application, EverGame. This collaboration represents more than a traditional vendor agreement; it is a foundational commitment to excellence. Recognizing the complexities of the market and the critical necessity of a seamless launch, NOVATELabs.ai has engaged SimpliMeta to fully lead and execute the application development lifecycle. By entrusting this mission-critical build to SimpliMeta, NOVATELabs.ai ensures the project is driven by a partner deeply invested in the product's long-term commercial success.

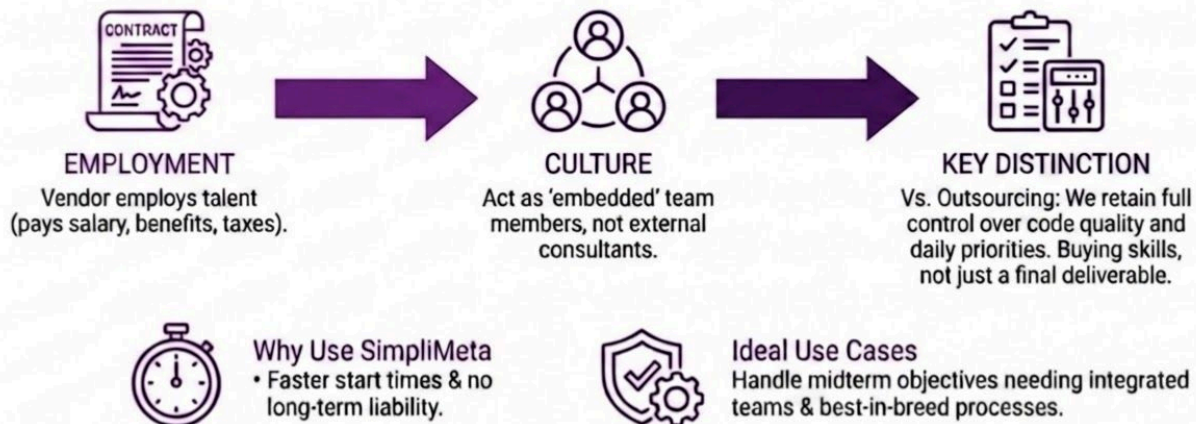

SimpliMeta provides a powerful, tailored ecosystem of services designed to accelerate EverGame's time-to-market, ensure robust scalability, and provide unparalleled strategic oversight:

- **SimpliMeta Managed Delivery Teams (Dedicated Resources):** A high-performance, focused development squad seamlessly integrated into the project. Functioning as the core engine of the EverGame initiative, these teams operate with a sense of ownership equal to that of internal stakeholders. This structure guarantees distinct domain expertise, minimizes ramping time, and maintains rigorous development velocity, ensuring that code quality never falters even as timelines accelerate.
- **SimpliMeta Flex Capacity (On-Demand Agility):** Access to specialized skills and surge resources exactly when required. Whether injecting niche expertise for a specific feature or scaling up to meet a critical deadline, this elasticity ensures NOVATELabs.ai remains nimble. It allows the project to pivot instantly in response to market feedback and tackle unexpected challenges without the rigidity or overhead of long-term commitments.
- **SimpliMeta Fractional C-Suite (Strategic Leadership):** The project is guided by executive-level strategy and technical foresight. Beyond immediate technical execution, this leadership layer provides a governance framework that future-proofs the application. Seasoned industry leaders work alongside NOVATELabs.ai to establish best practices, mitigate architectural risks, and ensure that EverGame's development remains strictly aligned with NOVATELabs.ai's long-term business objectives.

Proposed Service Features and Benefits

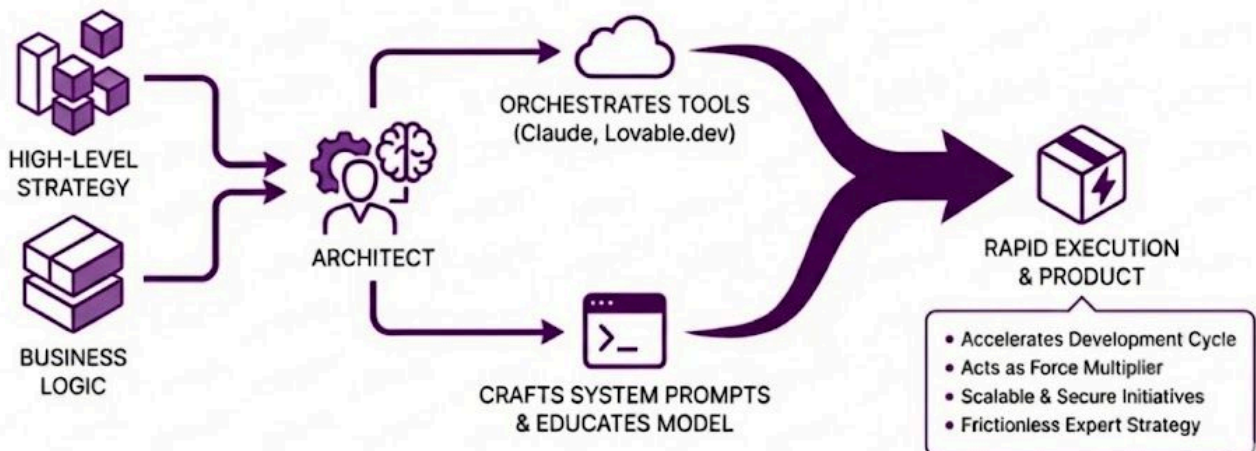

MANAGED DELIVERY TEAMS

Extending Capacity Without Increasing Overhead. A flexible model bridging the gap between internal hiring and project outsourcing.

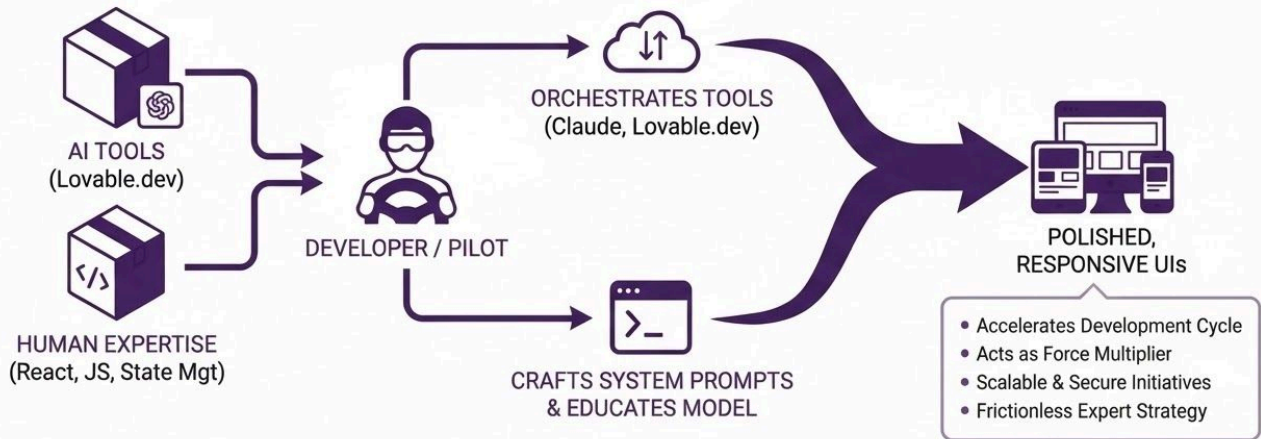

Senior AI Architect

Your Bridge from High-Level Strategy to Rapid Execution

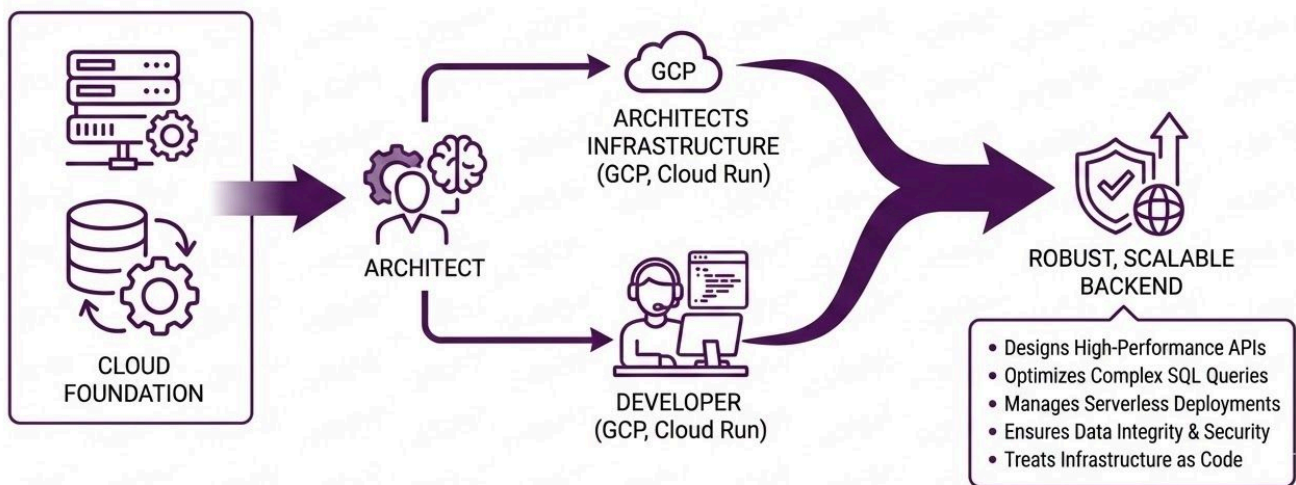

Front End Developer

Your 'Product Pilot' for Rapid, Polished UI Assembly.

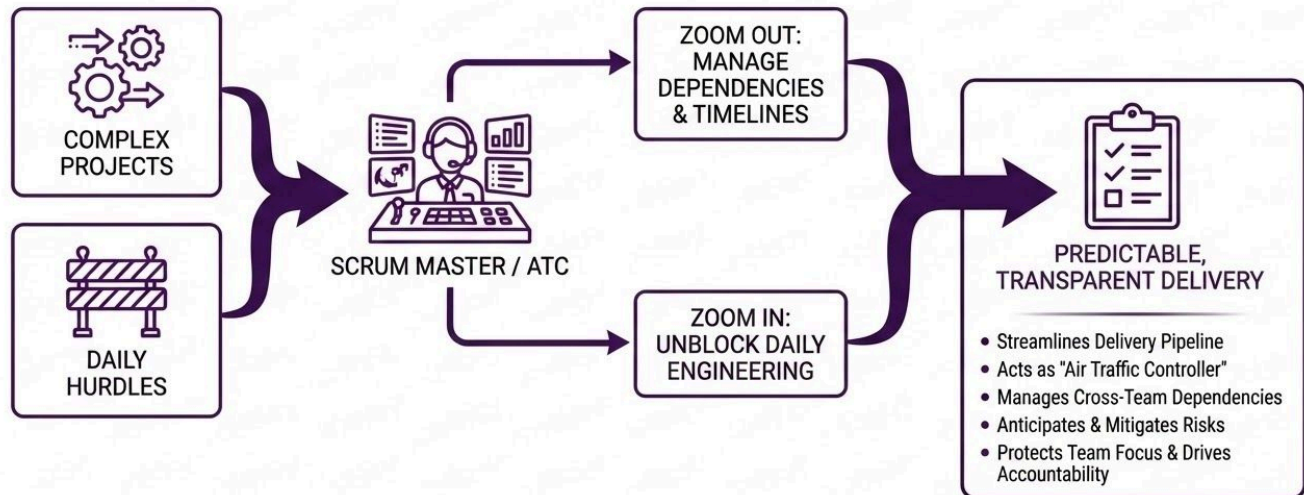

Back End Developer

Your 'Engine Room' for Reliable Cloud-Native Architecture.

Scrum Master

Your 'Air Traffic Controller' for Streamlined Delivery & Order.

Professional Services

Network Engineering

- WAN/LAN Architecture Design
- SDWAN/SASE implementations

Security Engineering

- Firewall Configuration

Cloud Services

- Hyperscaler Architecture
- Hyperscaler spend optimization

Systems Engineering

- Business productivity suite
- M365 and Google workspace migrations
- Identity access management solutions

UCaaS and CCaaS Engineering

- Design services
- Implementation services

Technology Services, Simply Enabled.

Includes: Initiate, Plan, Execute

Includes: Measure, Improve

Includes: Framework, Feedback

Device Configuration Benchmarking

One Time Services

Sr Engineering and Project Management Block of Hours (BOH)

\$185.00

Metadata Engineering Sr. Engineering and Project Management Block of Hours (BOH)* are provided to our customers to be used on any varying tasks that may be required. We have provided this estimated hours for the defined deliverables above, however, these hours maybe consumed on any tasks assigned by an approved customer contact.

Quantity 40

Total **\$7,400.00**

Recurring Services

	Price	Quantity	Billing Frequency	Total
CIO Services (Kirby/Missy)	\$6,000.00 per month	1	24 month	\$6,000.00 per month
Transform your technology strategy with SimpliMeta's Fractional CIO service, where we make executive leadership simply accessible. Instead of relying on a single consultant, you gain the power of a dedicated "Office of the CIO" led by Kirby and Missy. This dual-leadership model ensures you benefit from combined high-level expertise and diverse perspectives, providing the strategic vision of a C-suite executive without the complexity or overhead of a full-time hire. Designed for agility, this engagement provides up to 20 hours of focused leadership per month, allowing us to adapt simply and seamlessly to your business rhythm. While Kirby and Missy lead the charge, the Office of the CIO retains the discretion to layer in additional SimpliMeta resources as needed to support your specific initiatives. With no rigid deliverable constraints, this service offers pure, responsive executive stewardship, ensuring your technology roadmap remains flexible, supported, and aligned with your goals.				
SR AI Architect	\$9,850.00 per month	1	24 month	\$9,850.00 per month

	Price	Quantity	Billing Frequency	Total
Accelerate your development cycle with SimpliMeta's Senior AI Architect, making the adoption of cutting-edge AI simply intuitive. This role moves beyond traditional engineering, acting as a "vibe coder" who orchestrates powerful tools like Anthropic's Claude and Lovable.dev. From crafting complex system prompts to educating the model on your unique business logic, our architect acts as the bridge between high-level strategy and rapid execution, ensuring your AI acts as a force multiplier for your entire product. Provided as a dedicated resource for up to 40 hours per week (excluding holidays), this architect integrates directly into your workflow to drive innovation. Whether implementing Python scripting to glue systems together or refining LLM reasoning for production, they ensure your AI initiatives are scalable and secure. It is simply the most effective way to inject expert-level AI strategy into your build process without the friction of a traditional hire.				
Front End Developer	\$7,850.00 per month	1	24 month	\$7,850.00 per month
Elevate your user experience simply and efficiently with our AI-Native Front End Developer. This expert is not just a coder, but a product "pilot" who leverages the speed of generation tools like Lovable.dev alongside deep expertise in React and JavaScript. They rapidly assemble sophisticated UIs, managing complex JSON data structures and application state to deliver polished, responsive interfaces. By combining AI speed with human engineering rigor, they turn design concepts into working code at a fraction of the usual pace. Committed to up to 40 hours per week (excluding holidays), this developer works as a seamless extension of your team to handle the critical "last mile" of development. They refine AI-generated components, optimize performance, and ensure every interaction is pixel-perfect and bug-free. We simply remove the bottleneck of frontend construction, allowing you to ship feature-rich applications that look and feel professional from day one.				

Initial payment	\$23,700.00
One-time subtotal	\$7,400.00
Recurring subtotal	\$23,700.00 per month
Subtotal	\$31,100.00
Initial payment	\$31,100.00

Terms and Conditions

Unless otherwise agreed to in this documents, the Terms and conditions are governed by MetaData Engineering d/b/a SimpliMeta's Master Services Agreement available for review at <https://simplimeta.io/legal>

Billing account Telephone Number	678-257-7486
Special billing Instructions	n/a

Payment Terms:

This engagement shall commence on the Effective Date and continue for a fixed term of two (2) years.

Services shall be invoiced on a monthly basis, with standard payment terms of Net 30 days.

Notwithstanding the foregoing, and in consideration of the strategic partnership between the parties, SimpliMeta agrees to a 'Pay-when-Paid' arrangement specifically regarding the NOVATELabs.ai Evergame (NFL) engagement.

Under this arrangement, NOVATELabs.ai shall remit payment to SimpliMeta within forty-eight (48) hours of receipt of corresponding funds from the End Client (NFL/Evergame). Additionally, in the event an invoice remains unpaid fourteen (14) days beyond the standard Net 30 term, SimpliMeta reserves the right to request, and NOVATELabs.ai agrees to provide, written documentation confirming non-payment by the End Client.

Acceptance

IN WITNESS WHEREOF, each of the Parties has executed this Sales Contract, both Parties by its duly authorized officer, as of the day and year set forth below.
