Module Labels
16px

Architecture Structure

The visual is built as **four horizontal system bands**.

None

Fan Intelligence Layer

Operational Experience Layers

Dashboard Modules

Sentra's Core Intelligence Services

External Systems

Data flows vertically through the system.

Layer 1 — Fan Intelligence Layer

Label

The Franchise

Purpose

Unified fan engagement system.

Frame Width

Full width

Modules

None

Fan Identity

Franchise Pass

Loyalty Engine

Personalized Content

Sponsor Engagement

Fan Journey Tracking

Interaction arrows

Downward arrows into:

- Marketing Intelligence
 - Event Operations
 - Venue Intelligence
-

Layer 2 — Operational Experience Layers

This is the **10 Experience Layers** zone.

Create **10 vertical panels** arranged left to right.

Each panel contains its dashboard modules.

Experience Layer 1

League Command Intelligence

Modules

None

League Readiness Score

Compliance Heatmap

Active Investigations

Season Timeline

Executive Risk Monitor

Evidence Ledger Viewer

Primary Users

Commissioner

League leadership

Experience Layer 2

Club Operations Intelligence

Modules

None

Club Compliance Score

Peer Benchmarking

Role Designation Matrix

Policy Compliance Engine

Operational Benchmarking

Certification Tracker

Users

Club GMs

Operations

Experience Layer 3

Game Operations Control Room

Modules

None

Pregame Protocol Tracker

Technology System Monitor

Emergency Readiness Checklist

Game Compliance Status

Live Operations Log

Game Evidence Capture

Users

Game Day Designees

League observers

Experience Layer 4

Venue & Stadium Intelligence

Modules

None

Venue Compliance Dashboard

Stadium Inspection Tracker

Emergency Management Plans

Infrastructure Monitoring

Crowd Flow Modeling

Facility Readiness Score

Users

Venue operations

League facilities

Experience Layer 5

Medical & Injury Integrity

Modules

None

Injury Reporting Engine

Disclosure Compliance Score

Medical Governance Dashboard

Risk Flags

Player Safety Tracker

Medical Audit Trail

Users
Medical teams
Integrity teams

Experience Layer 6

Technology Operations Intelligence

Modules

None

Technology Compliance Dashboard
System Health Monitor
Equipment Equity Engine
Incident Reporting
Network Performance Monitor
Infrastructure Readiness

Users
Football Technology
Club IT

Experience Layer 7

Broadcast & Media Operations

Modules

None

Broadcast Coordination Dashboard
Production Scheduling
Signal Reliability Monitor
Content Distribution Tracker

Partner Coordination Panel
Media Compliance

Users
Broadcast partners
Media operations

Experience Layer 8

Security & Emergency Coordination

Modules

None
Security Readiness Dashboard
Credential Validation
Threat Monitoring
Emergency Coordination
Incident Command Interface
Venue Security Intelligence

Users
Security teams
Law enforcement

Experience Layer 9

Competition & Integrity Intelligence

Modules

None

Playoff Qualification Engine
Sanction Consistency Analysis
Competitive Impact Assessment
Betting Integrity Monitor
Policy Enforcement Dashboard
Integrity Case Management

Users

Commissioner's Office

Integrity teams

Experience Layer 10

Marketing & Fan Intelligence

Modules

None

Fan Identity Graph
Engagement Scoring
Loyalty Tier Analytics
Sponsor Activation Metrics
Fan Behavior Modeling
Personalization Engine

Users

Marketing

Sponsors

Layer 3 — Dashboard Modules

Below the experience layers add a horizontal band.

Label

Unified Dashboard Modules

Modules

None

Executive Command Center
Club Readiness Profile
Game Control Room
Competition Integrity Dashboard
Fan Intelligence Console
Sponsor Intelligence Console
Venue Intelligence Dashboard
Technology Operations Center
Security Operations Center

These dashboards pull data from multiple experience layers.

Layer 4 — Sentrais Core Intelligence Services

This is the **system backbone**.

Create a full width frame labeled:

Sentrais Core OS

Modules

None

Identity Graph
Evidence Ledger
Rules Engine
Workflow Engine

Pattern Recognition Engine
Alert & Notification Engine
Integration Fabric
Data Normalization Layer
Governance Controls
Security & Access Management

Every experience layer connects here.

Layer 5 — External Systems

Add bottom row.

Label

External Systems

Modules

None
GSIS League Database
Club Management Systems
Venue Operations Systems
Ticketing Systems
Fantasy Platforms
Broadcast Systems
Technology Infrastructure
Security Systems

These connect upward into Sentrais.

Data Flow

Represent with **red directional arrows**.

Ingestion

External Systems

→ Sentrais Integration Fabric

Processing

Sentrais Engines

→ Experience Layers

Intelligence Output

Experience Layers

→ Dashboard Modules

Fan Engagement

Experience Layers

→ The Franchise Layer

Key Visual Elements

Add three callouts.

Unified Evidence Chain

Label near Sentrais

None

All events recorded in immutable evidence ledger

Real-Time Intelligence

Label near dashboards

None

Operational intelligence updated continuously

Full League Visibility

Label near experience layers

None

32 clubs | 272+ games | 12-month league calendar

Final Diagram Structure

The finished architecture will visually read as:

None

The Franchise

Fan Engagement Layer

10 Experience Layers

League Operations + Intelligence

Unified Dashboard Modules

Command Center Interfaces

Sentraais Core Intelligence OS

Rules | Evidence | Identity | Workflows

External Systems
NFL Infrastructure + Partner Systems

What This Diagram Communicates

This architecture instantly shows:

- Sentra is as the **core intelligence engine**
- NFL360 as the **operational intelligence platform**
- EVERGAME capabilities embedded in experience layers
- Franchise fan layer sitting above operations
- Data flowing across the entire ecosystem

This becomes the **single diagram explaining the whole platform**.

If helpful, I can also produce a **second diagram executives love even more**:

The NFL Intelligence Stack

A cleaner **Apple-style visual showing the entire system in five layers**, which is ideal for board decks and investor presentations.
