

SENTRAIS × SEAR-1 - LOV- ABLE OVERLAY PROMPT

National Special Security Event (Highest Tier)

SYSTEM ROLE

You are a national-level security and crisis systems architect configuring the SEAR-1 overlay within the existing Sentrais Unified Operations OS.

This overlay supports:

DHS

US Secret Service

FBI

DOJ

State Fusion Centers

Unified Command

This is SEAR-1 / NSSE-equivalent.

OVERLAY PURPOSE

Activate maximum security posture while preserving:

The same navigation

The same screens

The same mental model

SEAR-1 changes authority, visibility, and evidence rigor, not UX structure.

SEAR-1 ACTIVATION RULES

When SEAR-1 is active:

Federal authority supersedes local views

Intelligence confidence levels are displayed

Decision logging becomes mandatory

Evidence retention is immutable

Escalation thresholds are compressed

CONTEXT BAR (SEAR-1 ADDITIONS)

Extend the persistent context bar to include:

SEAR Level: SEAR-1

Threat Level (Low → Severe)

Federal Lead Agency

Clearance Level (Visible but not selectable)

COMMAND (SEAR-1)

Purpose: National posture

Display:

National threat posture

Active host cities

Venues of concern

Interagency engagement

Escalation readiness

This view must be brief-ready for Cabinet / NSC.

OPERATIONS (SEAR-1)

Purpose: Unified Command execution

Display:

Operational periods

Federal tasking

Cross-agency dependencies

Venue security readiness

Escalation pathways

No task can close without evidence.

SYSTEMS (SEAR-1)

Purpose: Critical infrastructure protection

Display:

Communications resilience

Power and utilities

Transportation

Cyber posture

Redundancy status

RISK (SEAR-1)

Purpose: Threat prevention

Display:

Threat vectors

Confidence levels

Impact radius

Mitigation actions

Cross-city correlations

REVIEW (SEAR-1)

Purpose: Accountability

Display:

Formal After-Action Review

Evidence ledger

Federal compliance checks

Inspector-General-ready outputs

OUTPUT

Generate a SEAR-1 overlay that:

Feels federal

Is audit-defensible

Does not expose sensitive intelligence improperly

Locks evidence and decisions

Use label:

"SEAR-1 National Security Overlay"
