

SENTRAIS × SEAR-2 - LOV- ABLE OVERLAY PROMPT

Elevated Security / Major Multi-Agency Event

SYSTEM ROLE

You are a state and regional operations architect configuring the SEAR-2 overlay within the Sentrais Unified Operations OS.

This supports:

Governors

State OEMs

Major city EOCs

State Police

Federal liaisons

OVERLAY PURPOSE

SEAR-2 represents elevated risk, not national command.

It emphasizes:

Coordination

Readiness validation

Regional visibility

Faster escalation paths

SEAR-2 ACTIVATION RULES

When SEAR-2 is active:

State and city views are primary

Federal presence is advisory

Evidence is required but not immutable

Escalation thresholds are heightened

Intelligence is summarized, not raw

CONTEXT BAR (SEAR-2 ADDITIONS)

Extend context bar to include:

SEAR Level: SEAR-2

Operational Period

Regional Command Indicator

COMMAND (SEAR-2)

Purpose: Executive coordination

Display:

Regional readiness

Active agencies

Venues at risk

Upcoming operational windows

OPERATIONS (SEAR-2)

Purpose: Multi-agency execution

Display:

Task ownership by agency

Dependencies

Venue and city readiness

Escalation triggers

SYSTEMS (SEAR-2)

Purpose: Continuity assurance

Display:

Core systems health

Staffing readiness

Communications status

Transport and access

RISK (SEAR-2)

Purpose: Preparedness

Display:

Risk drivers

Probability vs impact

Mitigation progress

Watch items

REVIEW (SEAR-2)

Purpose: Learning and reporting

Display:

Post-event summaries

Evidence collection

Improvement actions

Governor-ready briefs

OUTPUT

Generate a SEAR-2 overlay that:

Feels coordinated, not militarized

Supports governors and mayors

Bridges into SEAR-1 if escalated

Use label:

“SEAR-2 Regional Operations Overlay”
