

Sentraais Corporation: Strategic Architecture & Operating Model

Board-Level Organization, Governance, and Commercial Strategy

The Core Mandate: Separation of Authority and Execution

Sentrais governs. Novatelabs executes. This separation ensures scalability and IP protection.

The Three-Entity System Architecture

Entity A: Sentrais Corporation (The Parent)

Governance, Strategy, and Commercial Ownership

Board Accountabilities

- Strategy
- Revenue
- Risk & Resilience
- Platform Governance

Executive Roles Housed Here

Chief Executive Officer & President
Chief Revenue Officer, Venture Scale
Chief Technology Officer
Chief Resilience & Security Officer (CISO)
Solution Architecture & Governance Lead
Head of Channels & Govt Affairs
Head of Partnerships

FUNCTION: Owns the brand, commercial contracts, and enterprise relationships. It does NOT execute engineering directly.

Entity B: Novatelabs.ai (The Execution Arm)

Technical Delivery and Operational Scale

OPERATIONAL SCOPE

- Platform Engineering & Infrastructure
- AI Operations & Security Implementation
- Managed Services
- NFL Technical Delivery

CRUCIAL NOTE: NFL Delivery is executed here via a "Sentrais + NOVATELabs + Meta" blended team.

CONTROL PRINCIPLE: All technology flows through NOVATELabs.ai.
Sentrais retains architectural authority, but Labs executes.

Entity C: Novatelabs.org (The Innovation Engine)

Research, R&D, and Strategic Defense

Operational Scope

- Blueprint360 POC Execution (The Proof Layer)
- SEAR Research & Readiness Models
- Workforce & Fellowship Programs
- Academic & Federal Research Interface

STRATEGIC GOAL: De-risks innovation and generates the 'Evidence Ledger' to support valuation.

Executive Leadership & Reporting Lines

Functional Authority Matrix

FUNCTION	RESPONSIBILITY	OWNER
Strategy & Advisory	SEAR Advisory, Federal Strategy, NFL Innovation Hub	TYE HAYES / MIKALINA
Revenue & Scale	Venture-scale revenue, Block sales, Live Intelligence	KNOX PHILLIPS / FREE
Technology & Delivery	Platform architecture, Engineering delivery, AI scale	RYAN / NOVATELABS.AI
Governance & Risk	Enterprise architecture, Cyber resilience, Change mgmt	CODY WINTERS (CISO) / ERIN GREEN

Commercial Model: The ‘Locked’ Philosophy

**“Clients do not buy features.
They license operational capability.”**

Verbatim Policy:
You never line-item
the intelligence. You
anchor value, then
explain what is
embedded.

SUMMARY CONTROL PRINCIPLES

- 
- 1. SENTRAIS GOVERNS. NOVATELABS EXECUTES.**
 - 2. BLUEPRINT360 IS THE ONLY ENTRY POINT.**
 - 3. THE EVIDENCE LEDGER IS THE MOAT.**
 - 4. BLOCK DEALS BEAT BESPOKE DEALS.**

Pressure is applied where intelligence compounds.
