

SENTRAIS: THE AI OPERATING SYSTEM FOR HIGH-STAKES ENVIRONMENTS

Transforming fragmented operations
into predictive, certifiable intelligence.

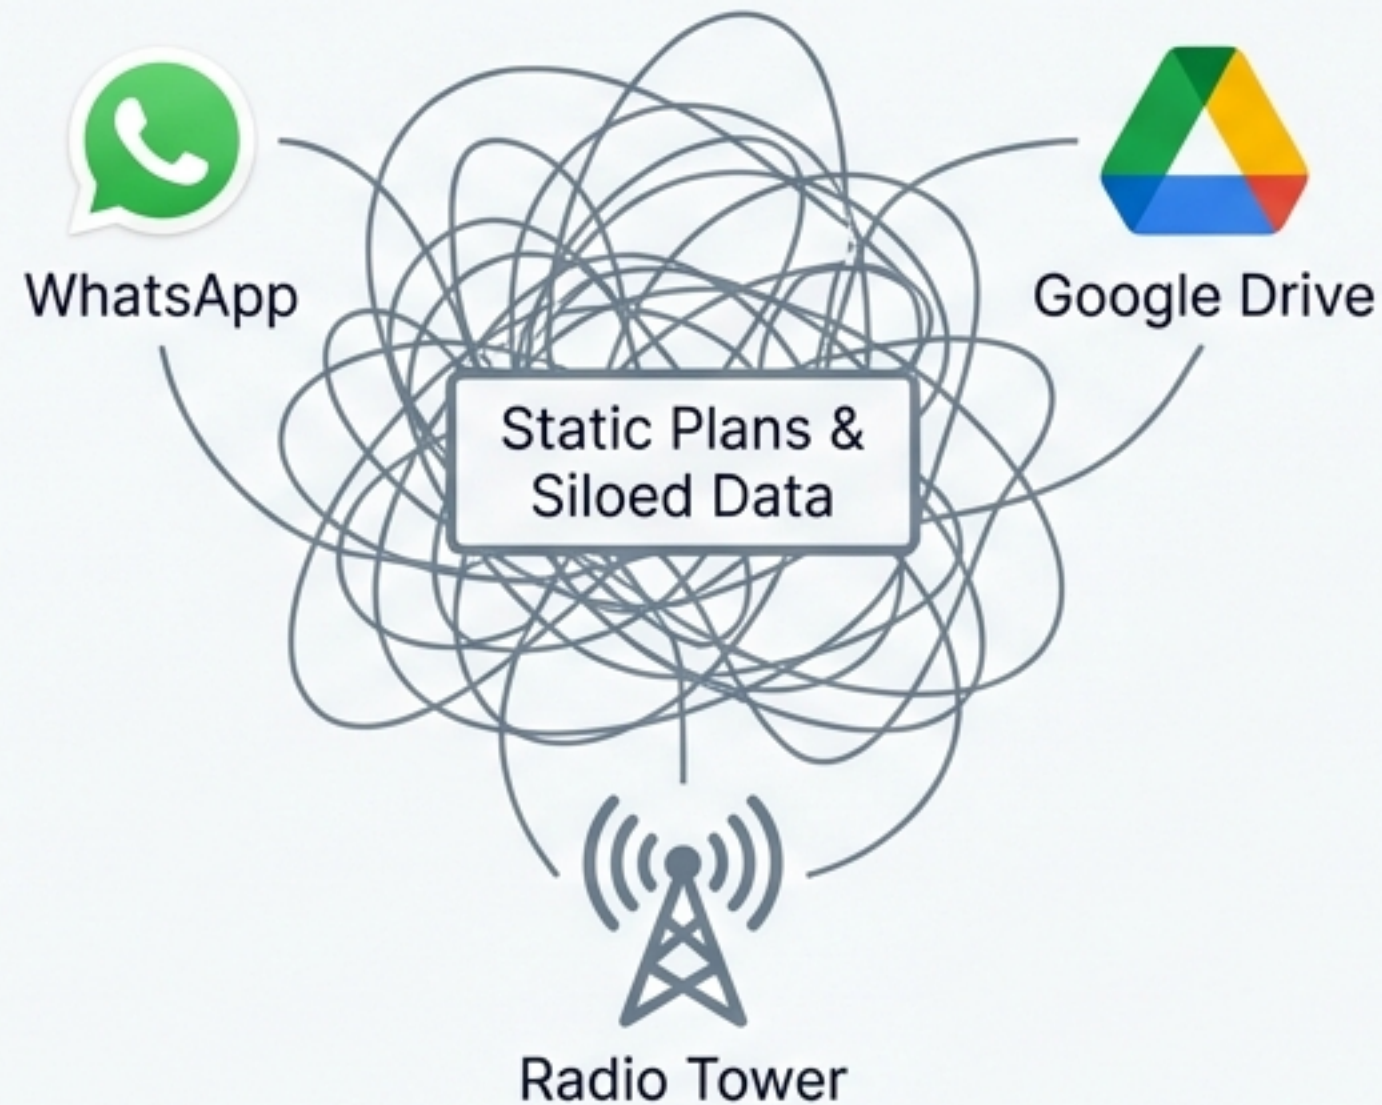

OPERATIONS GENERATE DATA. WE GENERATE INTELLIGENCE.

OPERATIONS GENERATE DATA, NOT INTELLIGENCE

High-stakes environments are failing due to disconnected silos and operational debt.

THE FRAGMENTATION TRAP

THE IMPACT

\$2M-\$4M

ANNUAL REVENUE LEAKAGE PER VENUE

Losses driven by traffic bottlenecks, fan-flow inefficiencies, and coordination failure.

THE COST OF CHAOS: ECONOMIC EROSION & LIABILITY RISK

THE LIABILITY GAP

No defensible record of readiness or response creates escalating insurance and compliance exposure. Inability to prove compliance leads to rising risk premiums.

**UNDOCUMENTED
COMPLIANCE**

THE SYSTEMIC FAILURE OF FRAGMENTATION

THE 'ONE-TIME FAN' PROBLEM

Poor operational experiences (lines, friction, delays) kill loyalty and LTV.

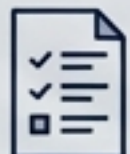

60% OF FANS ENGAGE ONCE

**\$200M MONTHLY GLOBAL
OPPORTUNITY COST**

MOVING FROM LEGACY NOTIFICATION TO OPERATIONAL ORCHESTRATION

Replacing reactive chaos with predictive intelligence.

LEGACY EMNS (Everbridge/AlertMedia)

-  **ALERT & NOTIFY** (Post-Incident)
-  **ISOLATED SILOS**
-  **STATIC PLANS**
-  **REACTIVE RESPONSE**

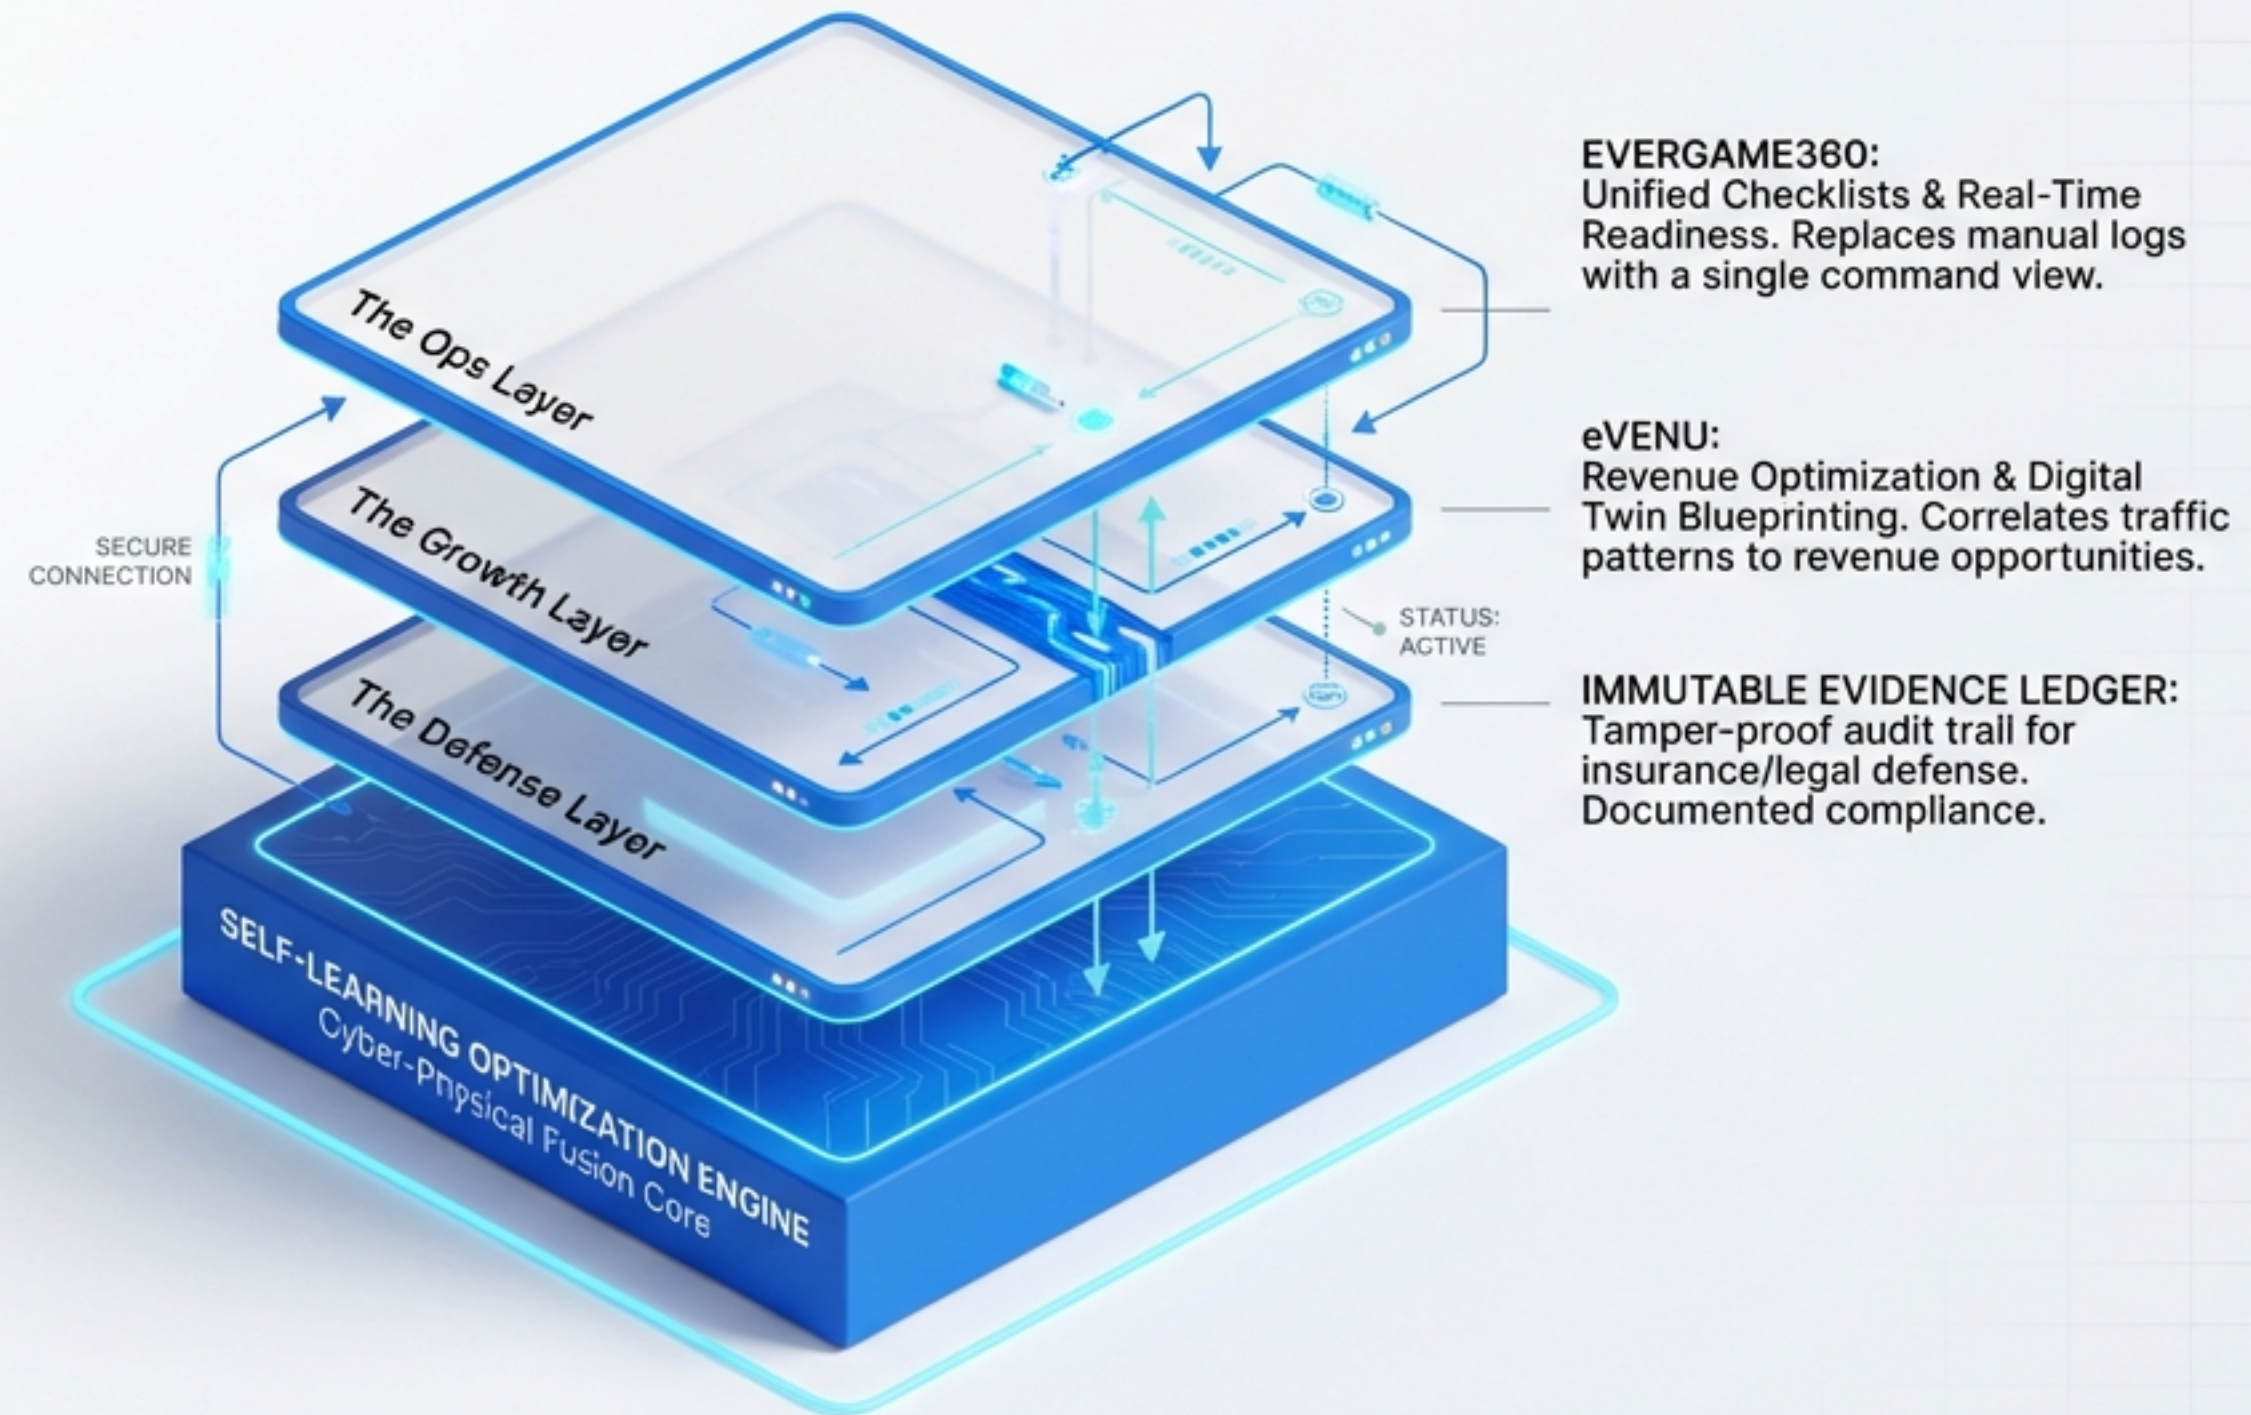

SENTRAIS INTELLIGENCE OS

-  **PREDICTIVE EARLY WARNING**
-  **UNIFIED COMMAND HUB**
-  **CONTINUOUS LEARNING LOOP**
-  **ORCHESTRATION & CERTIFIABLE READINESS**

SENTRAIS INTRODUCES 'RESILIENCE MANAGEMENT': WHERE READINESS, EXECUTION, AND RESPONSE ARE CONTINUOUSLY MODELED.

SENTRAIS OS ARCHITECTURE

A Unified Platform for Resilience & Revenue.

THE NIN METHODOLOGY: DIGITIZING ORGANIZATIONAL DNA

Compressing 18–24 month rollouts into 3–5 months.

IMMEDIATE VALUE:

We bridge the gap between strategy and execution, delivering Phase 1 value while AI models learn.

PROOF AT SCALE: THE NFL STANDARD

Validated in the most demanding live environment on earth.

DIFFERENTIATION

We do not just send alerts.
We optimize revenue.

While legacy providers focus on the tactical act of notification, Sentrais focuses on the strategic mandate of Revenue Optimization.

GARTNER RECOGNIZED

BUSINESS MODEL: HIGH-MARGIN SAAS + SUCCESS-BASED UPSIDE

CORE AI OS SUBSCRIPTION

Base SaaS fee structure for platform access.

10%

10% SUCCESS FEE

On Recovered Revenue. We capture a share of the \$2M–\$4M annual leakage per venue.

NON-LINEAR UPSIDE

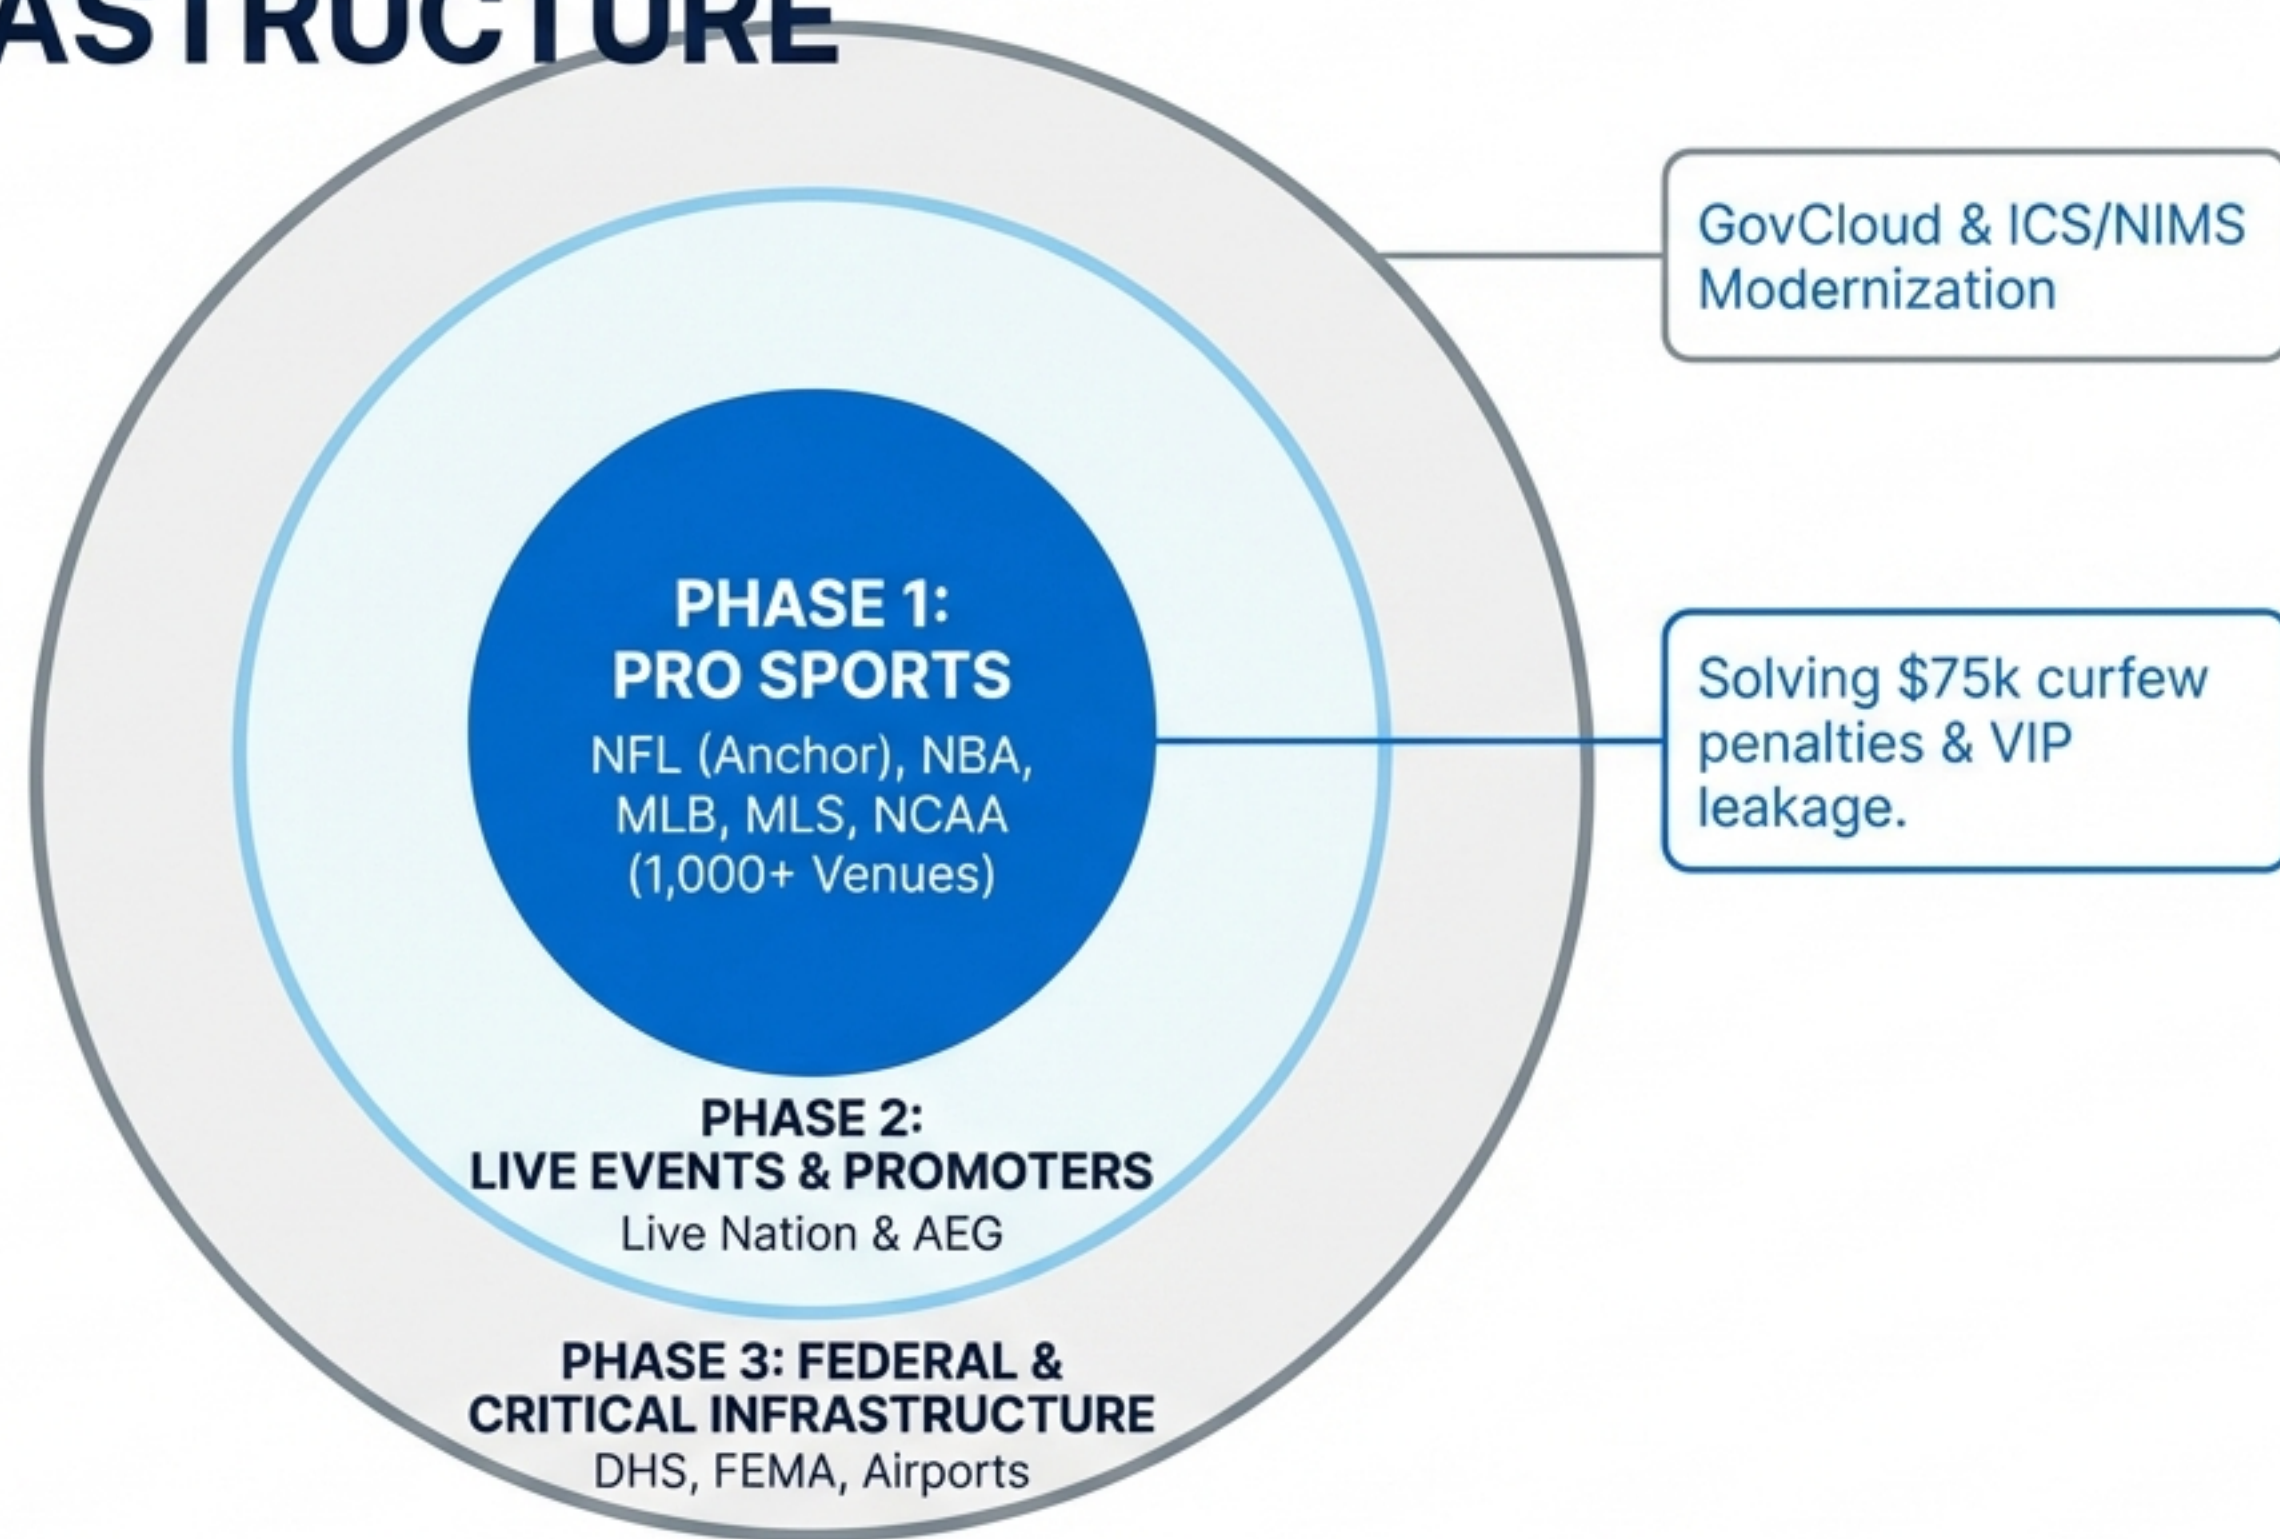

USAGE-BASED EXPANSION

Per-capita usage logic across assets and venues.

WINNING LOGIC: Frictionless adoption (<24 hour install) + **Self-funding ROI** within **90 days**.

MARKET EXPANSION: FROM THE NFL TO GLOBAL INFRASTRUCTURE

INVESTMENT CASE: AI INFRASTRUCTURE WITH STRUCTURAL LOCK-IN

DEFENSIBLE MOAT:

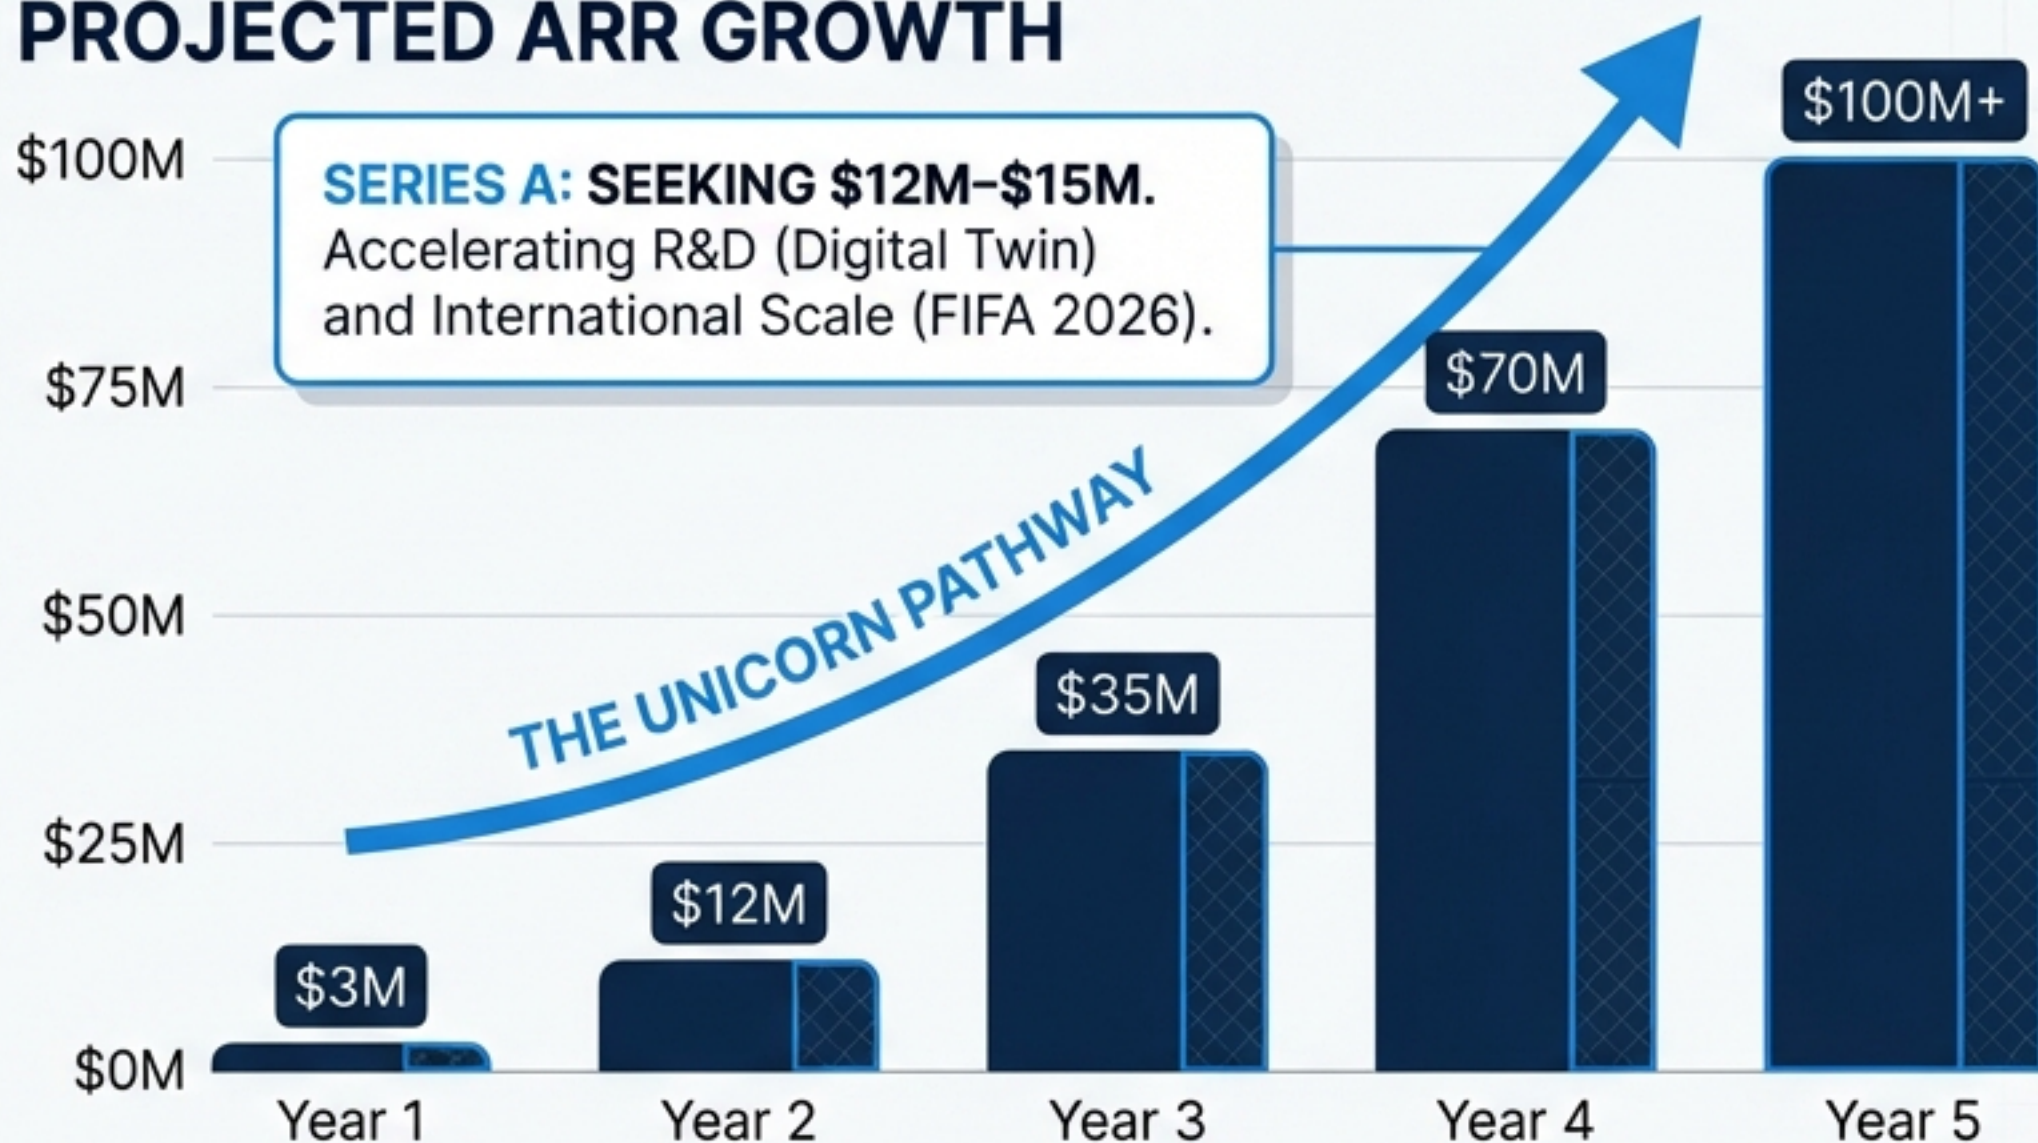

The Immutable Evidence Ledger creates high switching costs.

CRISIS-TESTED LEADERSHIP:

Led by Tye Hayes (US Navy Veteran / Super Bowl Commander). Built by commanders, not consultants.

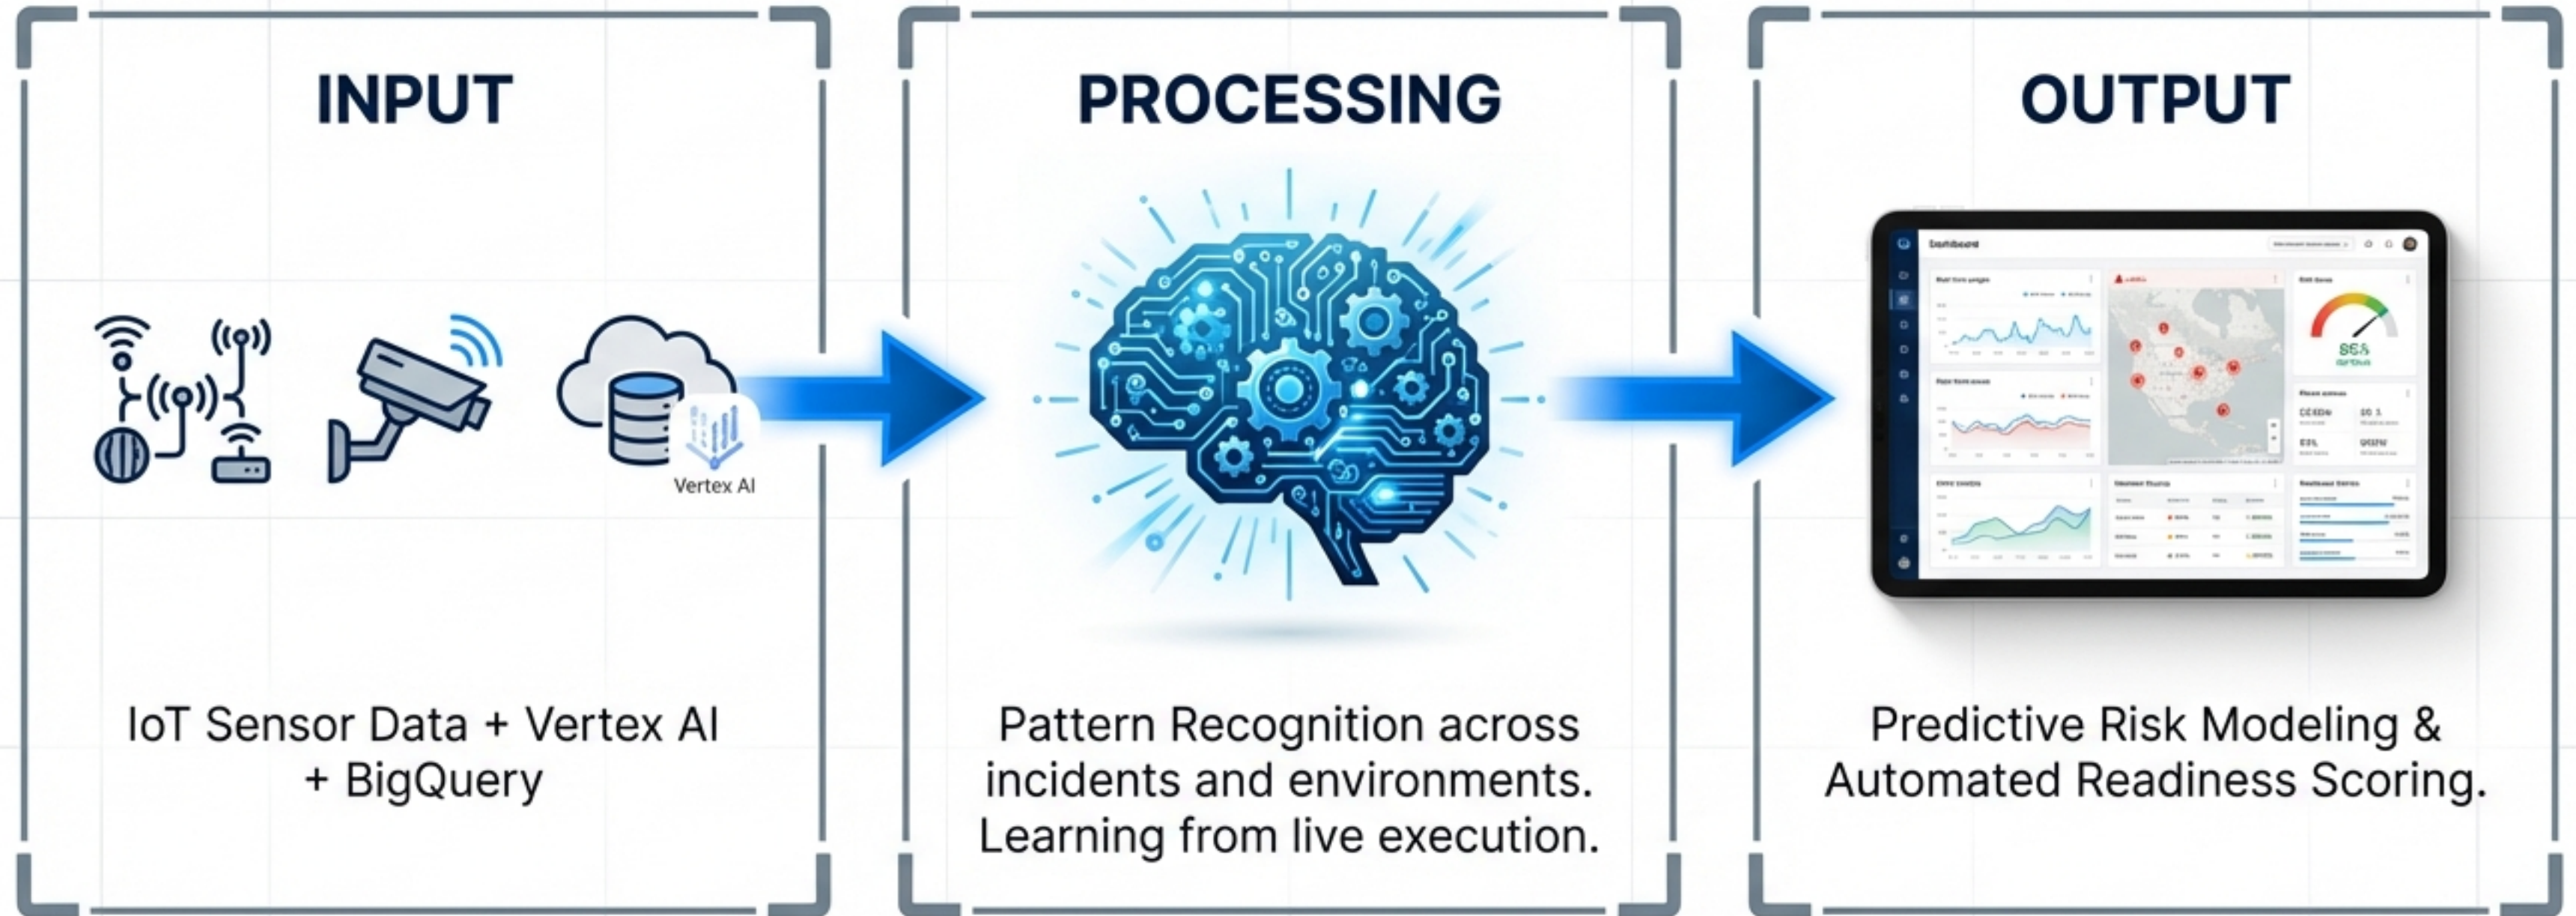

PROJECTED ARR GROWTH

SENTRAIS IS THE INEVITABLE STANDARD FOR THE \$1.16T LIVE EVENT ECONOMY.

APPENDIX: CYBER-PHYSICAL FUSION MECHANICS

Not generic AI. Systemic intelligence embedded across the operational lifecycle.

THE SELF-LEARNING LOOP: THE SYSTEM IMPROVES WITH EVERY GAME MANAGED, REFINING CONFIDENCE THRESHOLDS.
