

Technology Innovation HUB

Prepared by **N-OVATE**
BUSINESS SOLUTIONS

Why an Innovation Framework?

Having an innovation framework is crucial in the digital transformation process as it allows organizations to discover, cultivate, and execute innovative and inventive concepts that can drive their success in the modern era.

- **Benefits the discovery of new and imaginative approaches**
- **Reviews the positive and negative aspects of each option**
- **Makes decisions based on accurate and reliable information**
- **Develops strategies to translate ideas into business opportunities**

Why is a framework needed at the NFL?

- To address the lack of monitoring and measuring of technology innovation projects and ideas
- Eliminate siloed pockets of innovation and redundant projects
- Leverage ideas from all levels of the organization
- Strengthen brain power through increased collaboration
- Foster creativity by working as a connected NFL (networked, flexible, and learning) organization
- Solve complex business problems collectively to enhance the game.

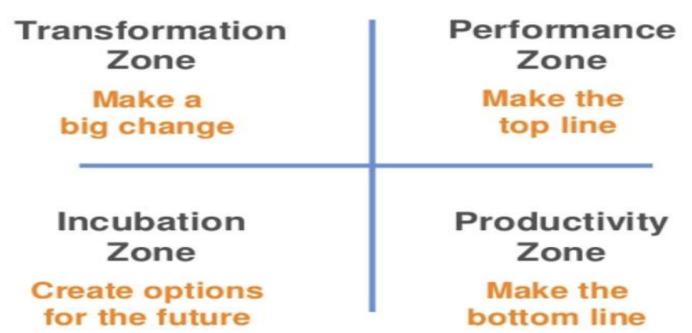

Zone to Win: The Four Zones

Zone management

Transformation Zone Make a big change	Performance Zone Make the top line
Incubation Zone Create options for the future	Productivity Zone Make the bottom line

INNOVATION CATEGORIES

Disruptive Innovation Characteristics –

- Opportunity Not Clearly Understood
- New Market Opportunity
- Disruptive Impact to Existing Models
- Requires Change Management and Governance Models to Implement

Sustaining Innovation Characteristics

- Existing Market
- Innovation Improves Performance
- Lower Cost
- Incremental Changes
- Market is Predictable
