

SENTRAIS: THE AI OPERATING SYSTEM FOR HIGH-STAKES ENVIRONMENTS

Transforming fragmented operations
into predictive, certifiable intelligence.

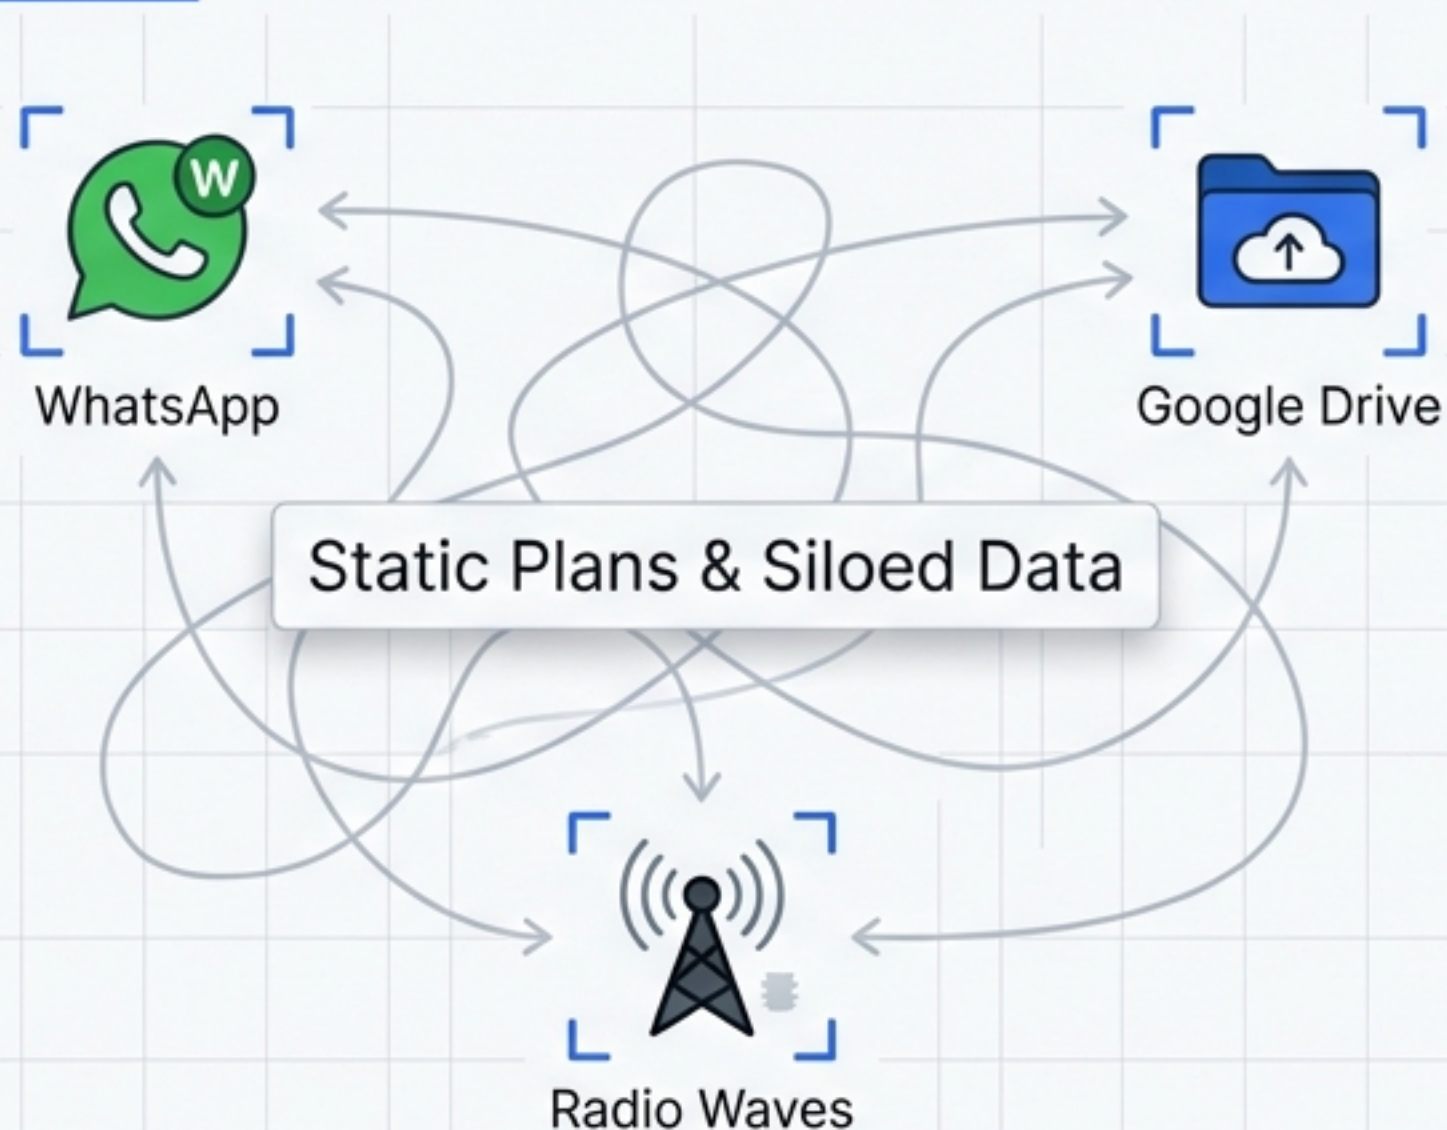

OPERATIONS GENERATE DATA. WE GENERATE INTELLIGENCE.

OPERATIONS GENERATE DATA, NOT INTELLIGENCE

High-stakes environments are failing due to disconnected silos and operational debt.

THE FRAGMENTATION TRAP

THE IMPACT

\$2M-\$4M

ANNUAL REVENUE LEAKAGE PER VENUE

Losses driven by traffic bottlenecks, fan-flow inefficiencies, and coordination failure

67% OF INCIDENTS DRIVEN BY COORDINATION FAILURE

ZERO DEFENSIBLE RECORD OF READINESS

THE COST OF CHAOS: ECONOMIC EROSION & LIABILITY RISK

OPERATIONAL RISK (SAFETY)

THE LIABILITY GAP

No defensible record of readiness or response creates escalating insurance and compliance exposure. Inability to prove compliance leads to rising risk premiums.

UNDOCUMENTED COMPLIANCE

THE SYSTEMIC FAILURE OF FRAGMENTATION

FINANCIAL RISK (REVENUE)

THE "ONE-TIME FAN" PROBLEM

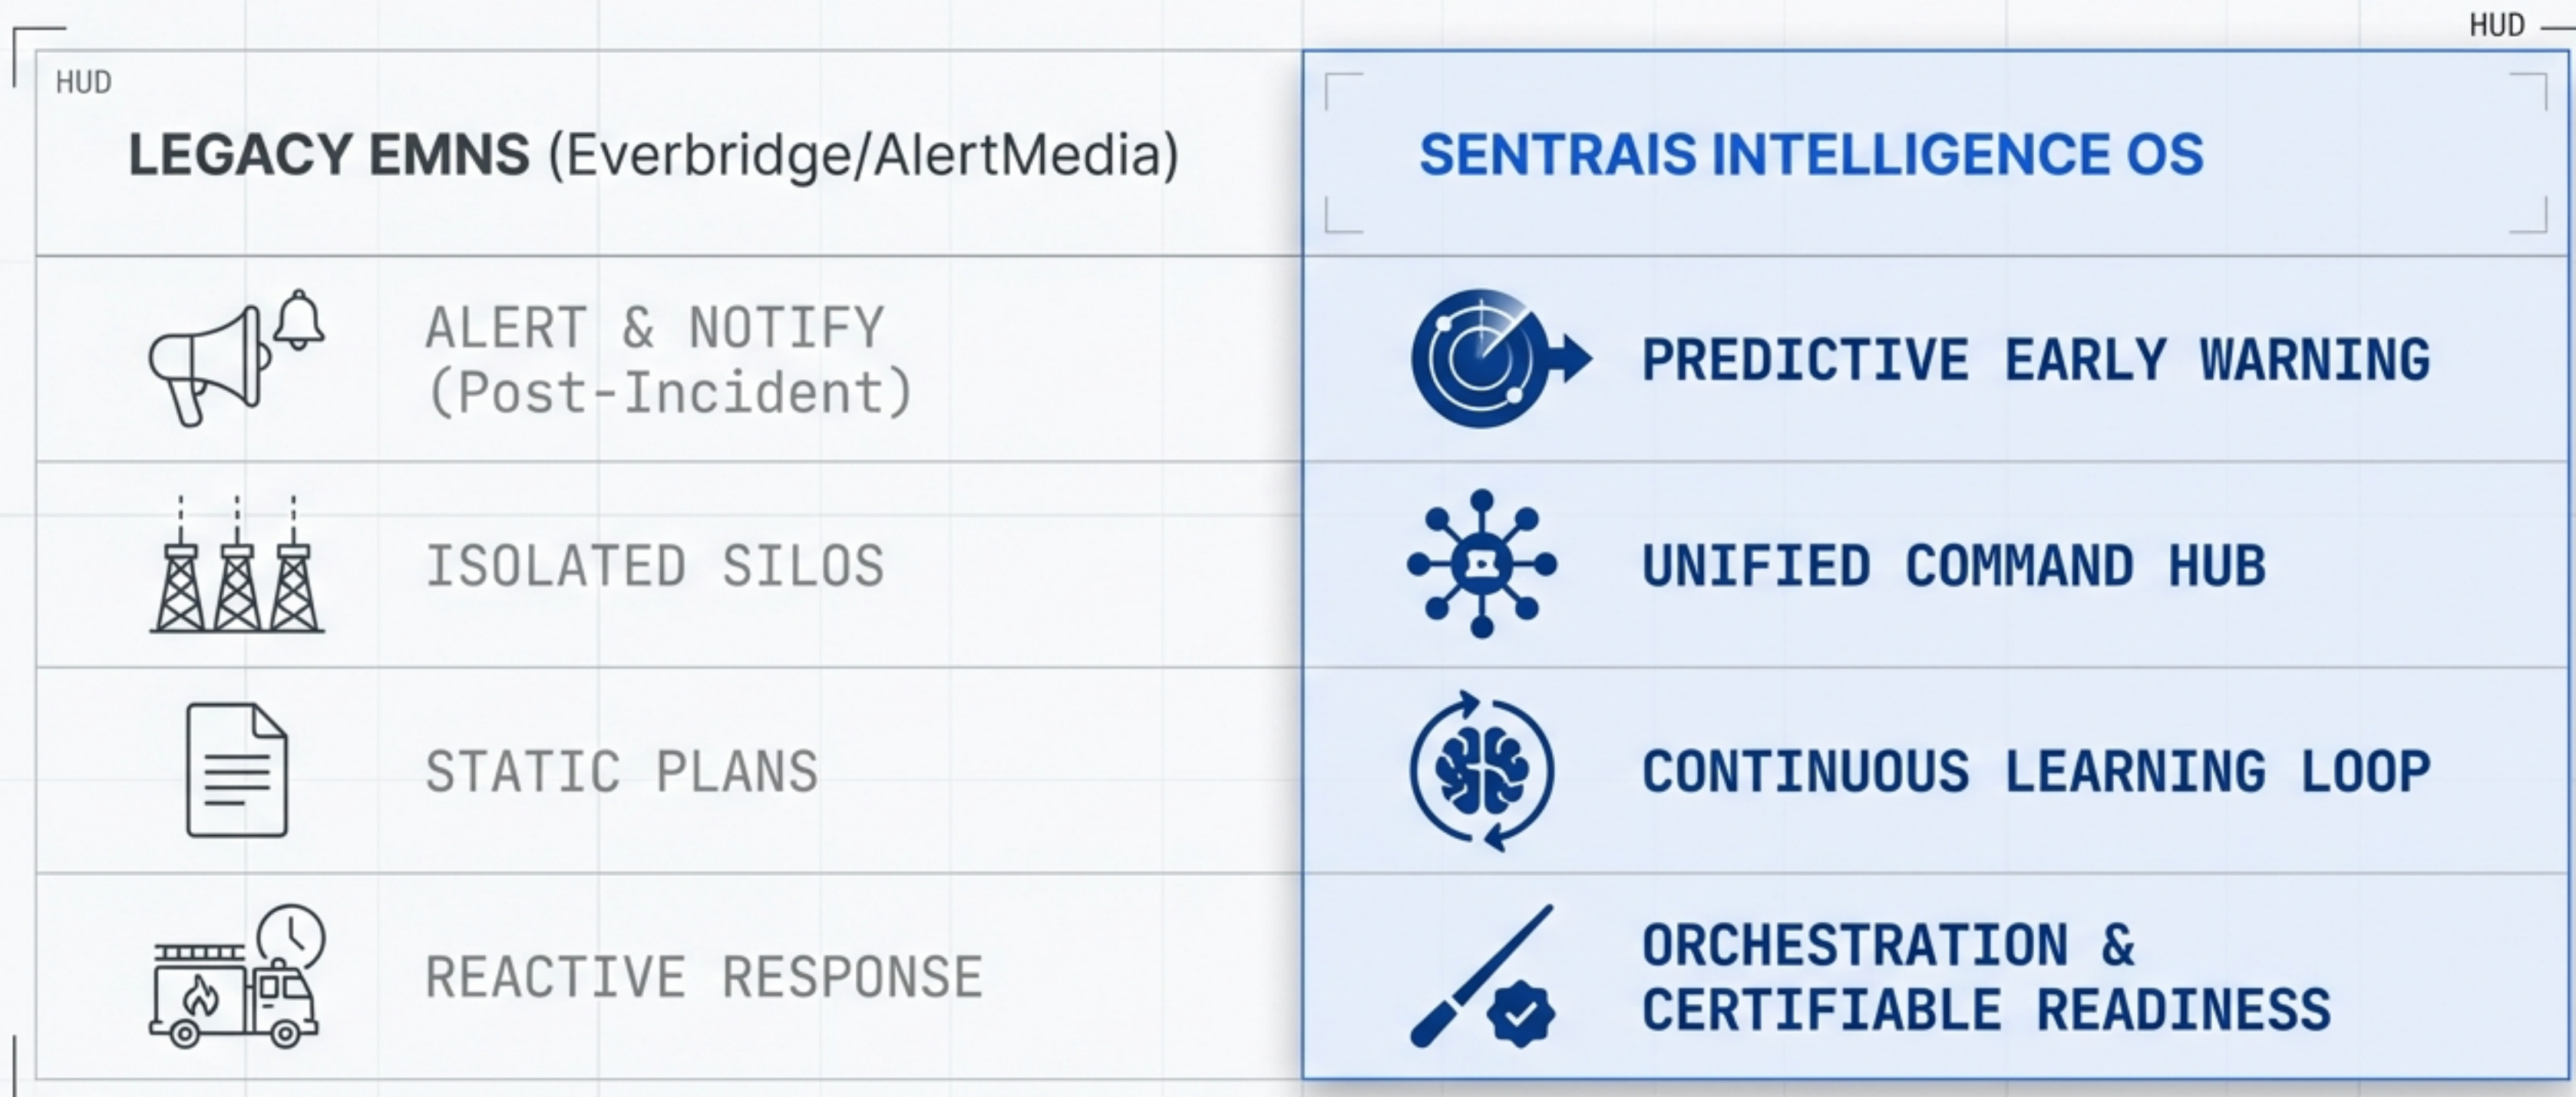

Poor operational experiences (lines, friction, delays) kill loyalty and LTV.

60% OF FANS ENGAGE ONCE

\$200M MONTHLY GLOBAL OPPORTUNITY COST

MOVING FROM LEGACY NOTIFICATION TO OPERATIONAL ORCHESTRATION

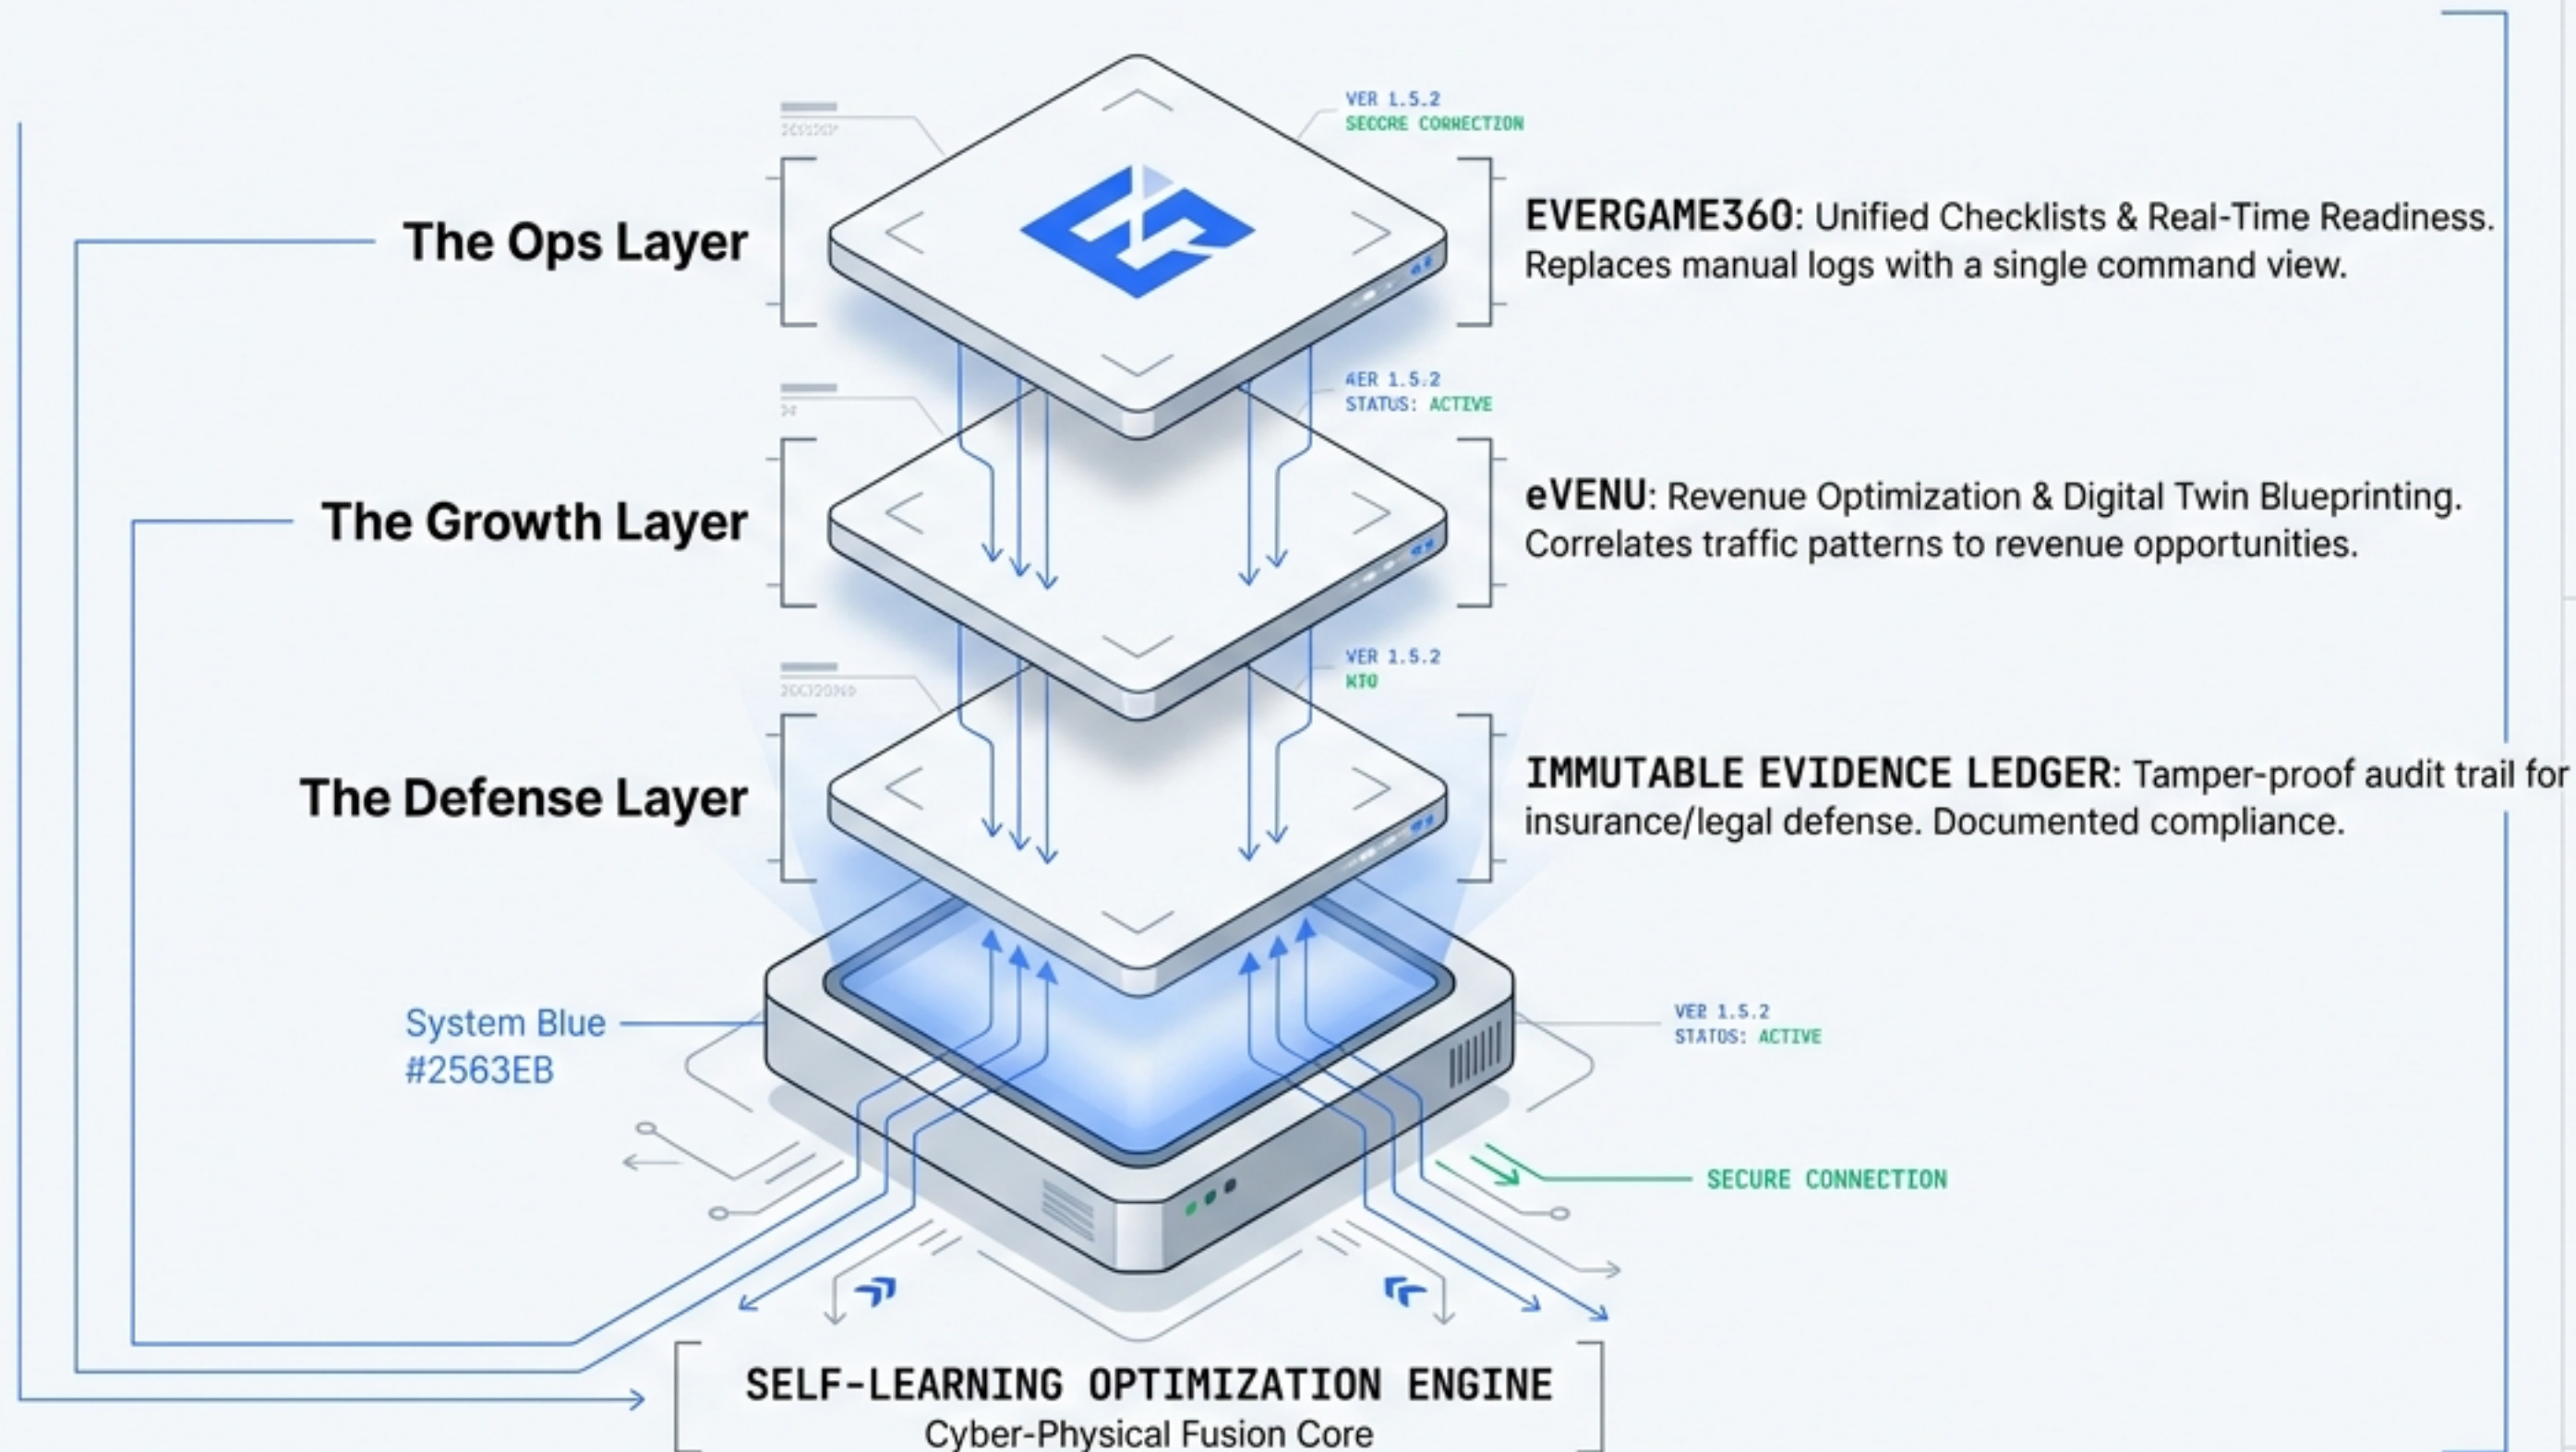

Replacing reactive chaos with predictive intelligence.

SENTRAIS INTRODUCES "RESILIENCE MANAGEMENT": WHERE READINESS, EXECUTION, AND RESPONSE ARE CONTINUOUSLY MODELED.

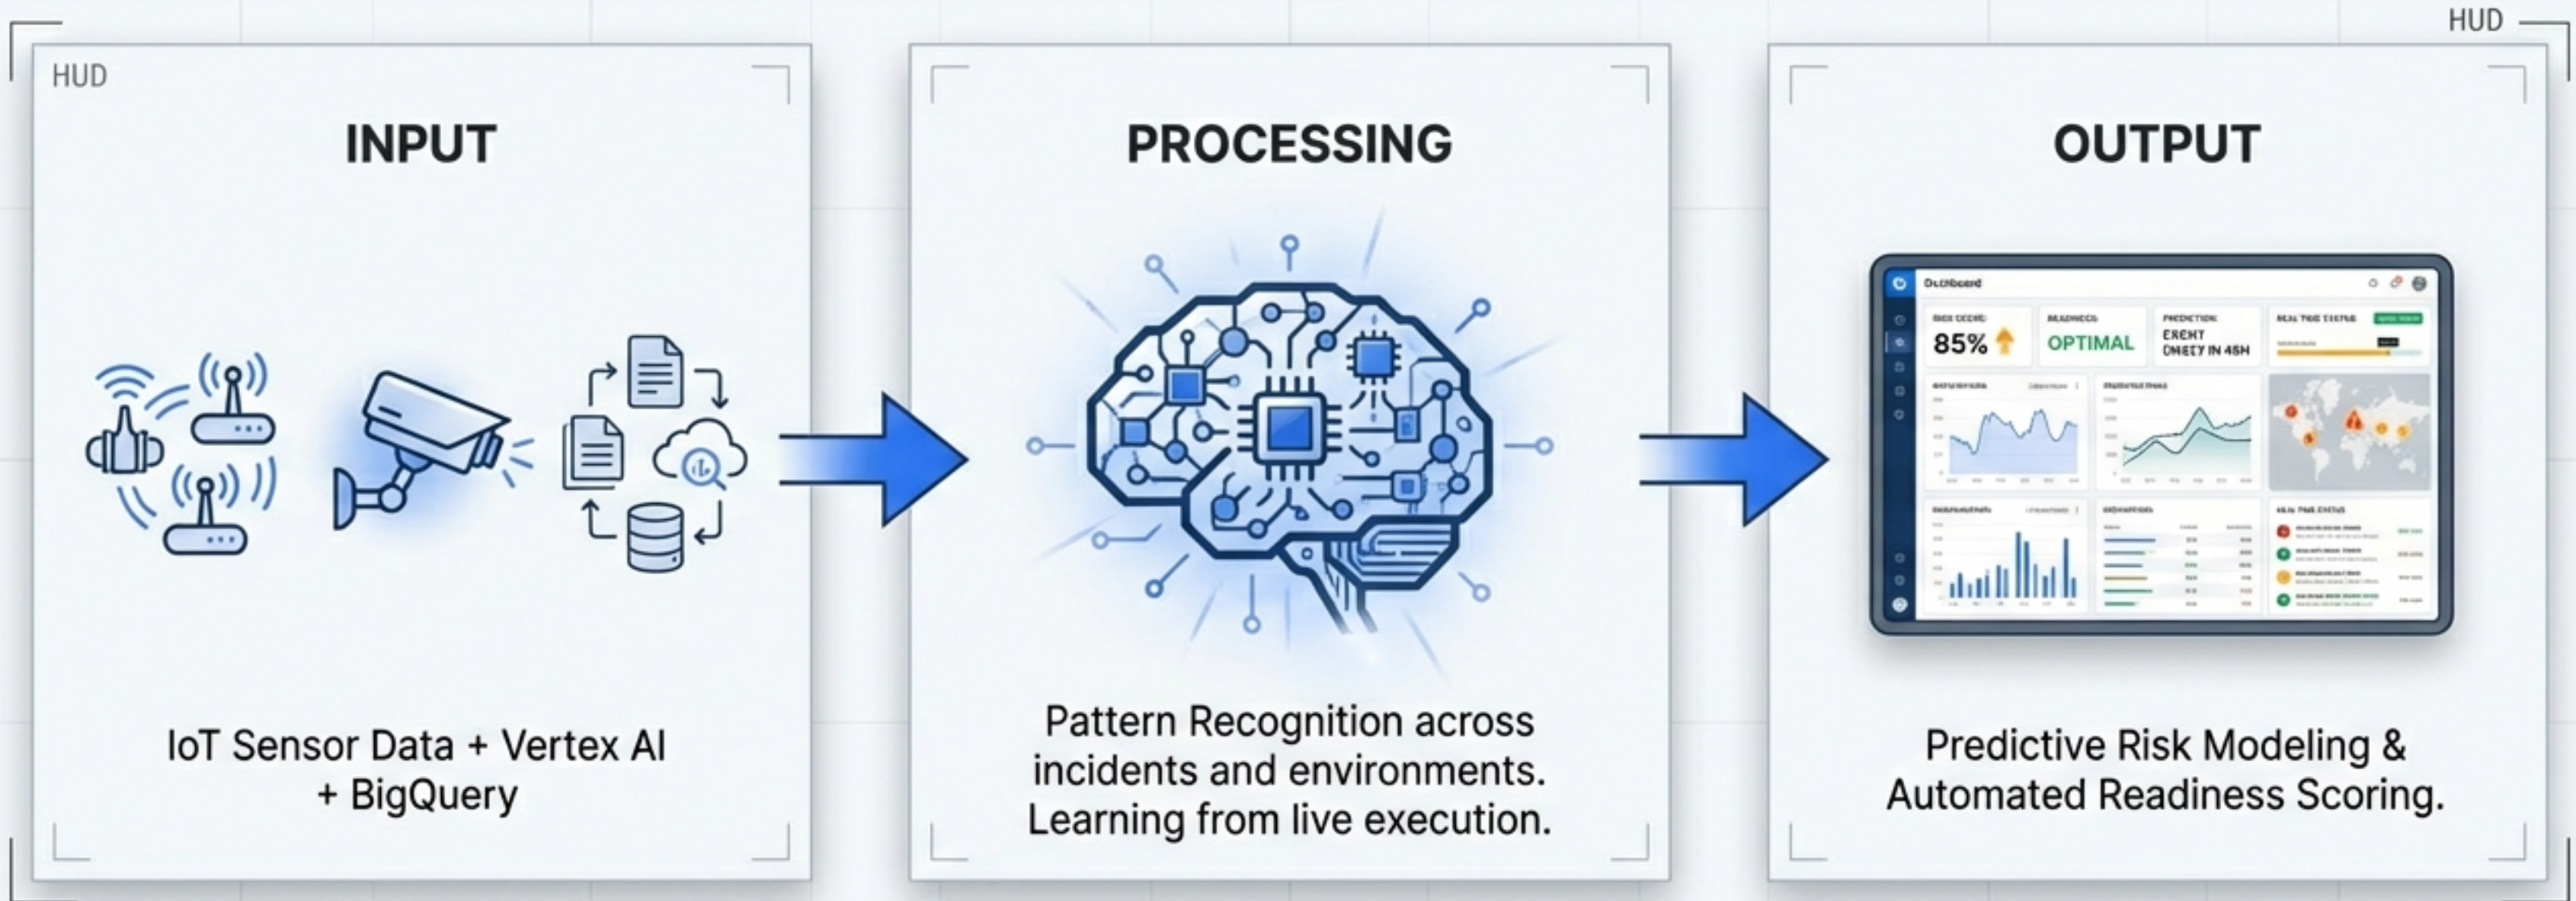

SENTRAIS OS ARCHITECTURE

A Unified Platform for Resilience & Revenue

CYBER-PHYSICAL FUSION: DOMAIN-TRAINED INTELLIGENCE

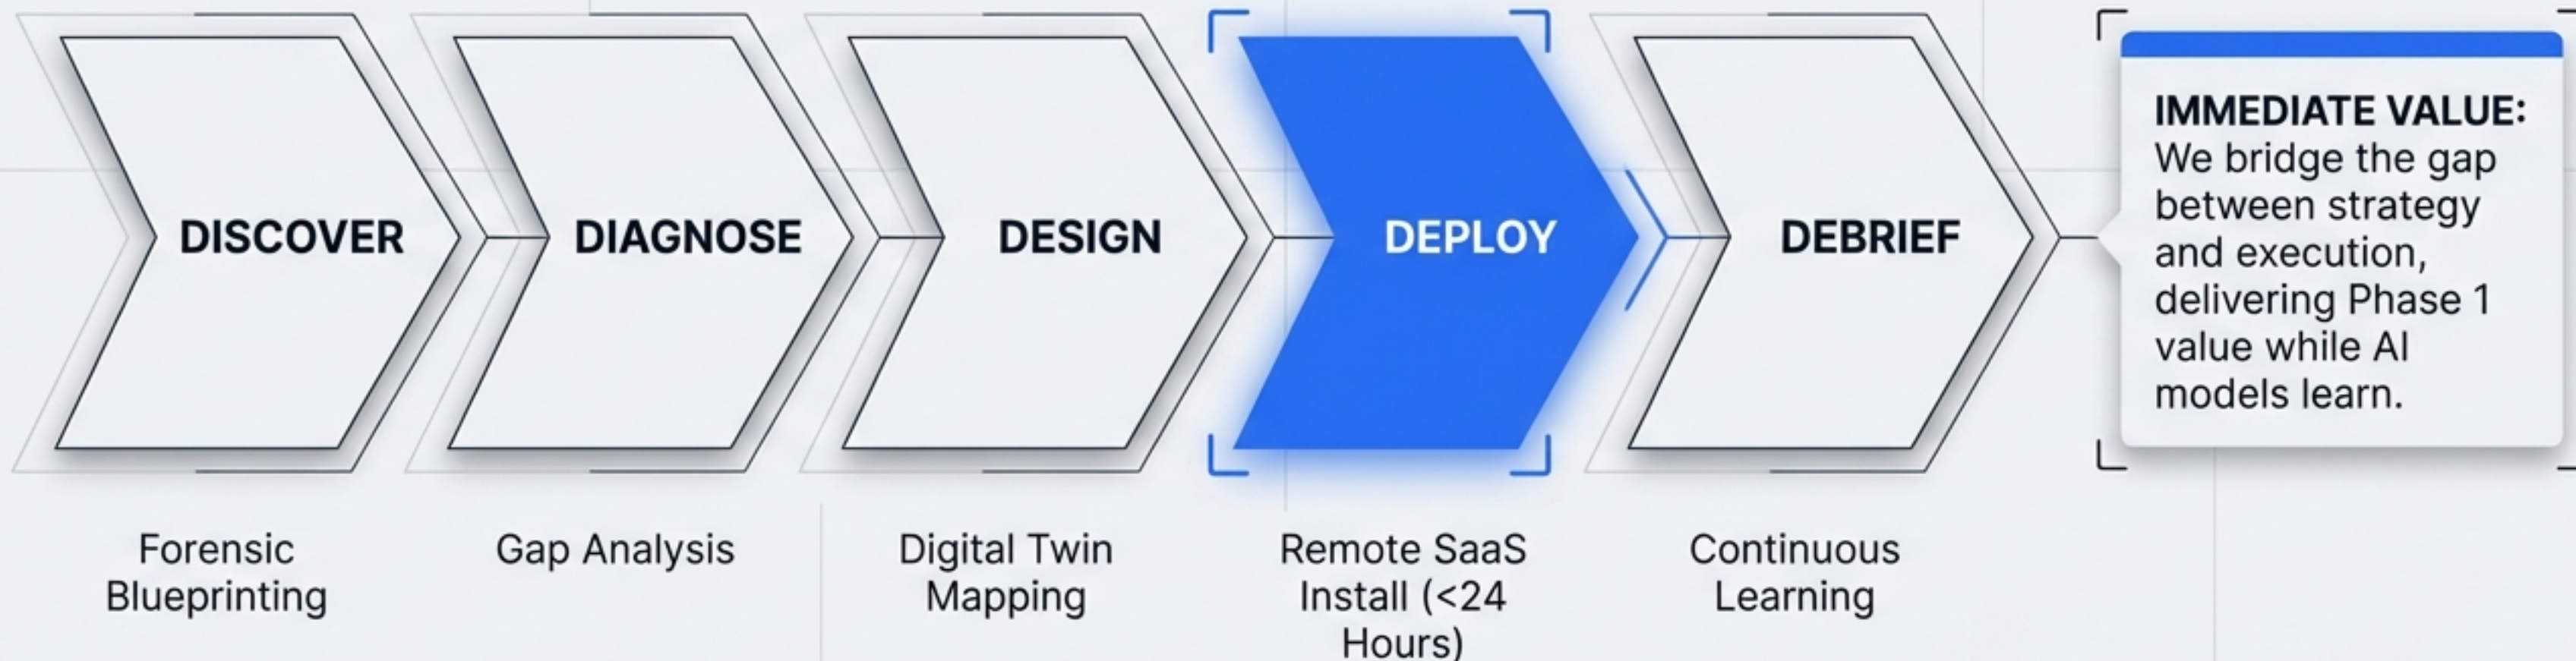

Not generic AI. Systemic intelligence embedded across the operational lifecycle.

DIFFERENTIATION

We do not just send alerts.
We optimize revenue.

While legacy providers focus on the tactical act of notification, Sentrais focuses on the strategic mandate of Revenue Optimization.
