Operational Orchestration

Transforming the \$1.16T Live Event Economy.
Calm during chaos. Making the complex simple.

\$1.9M

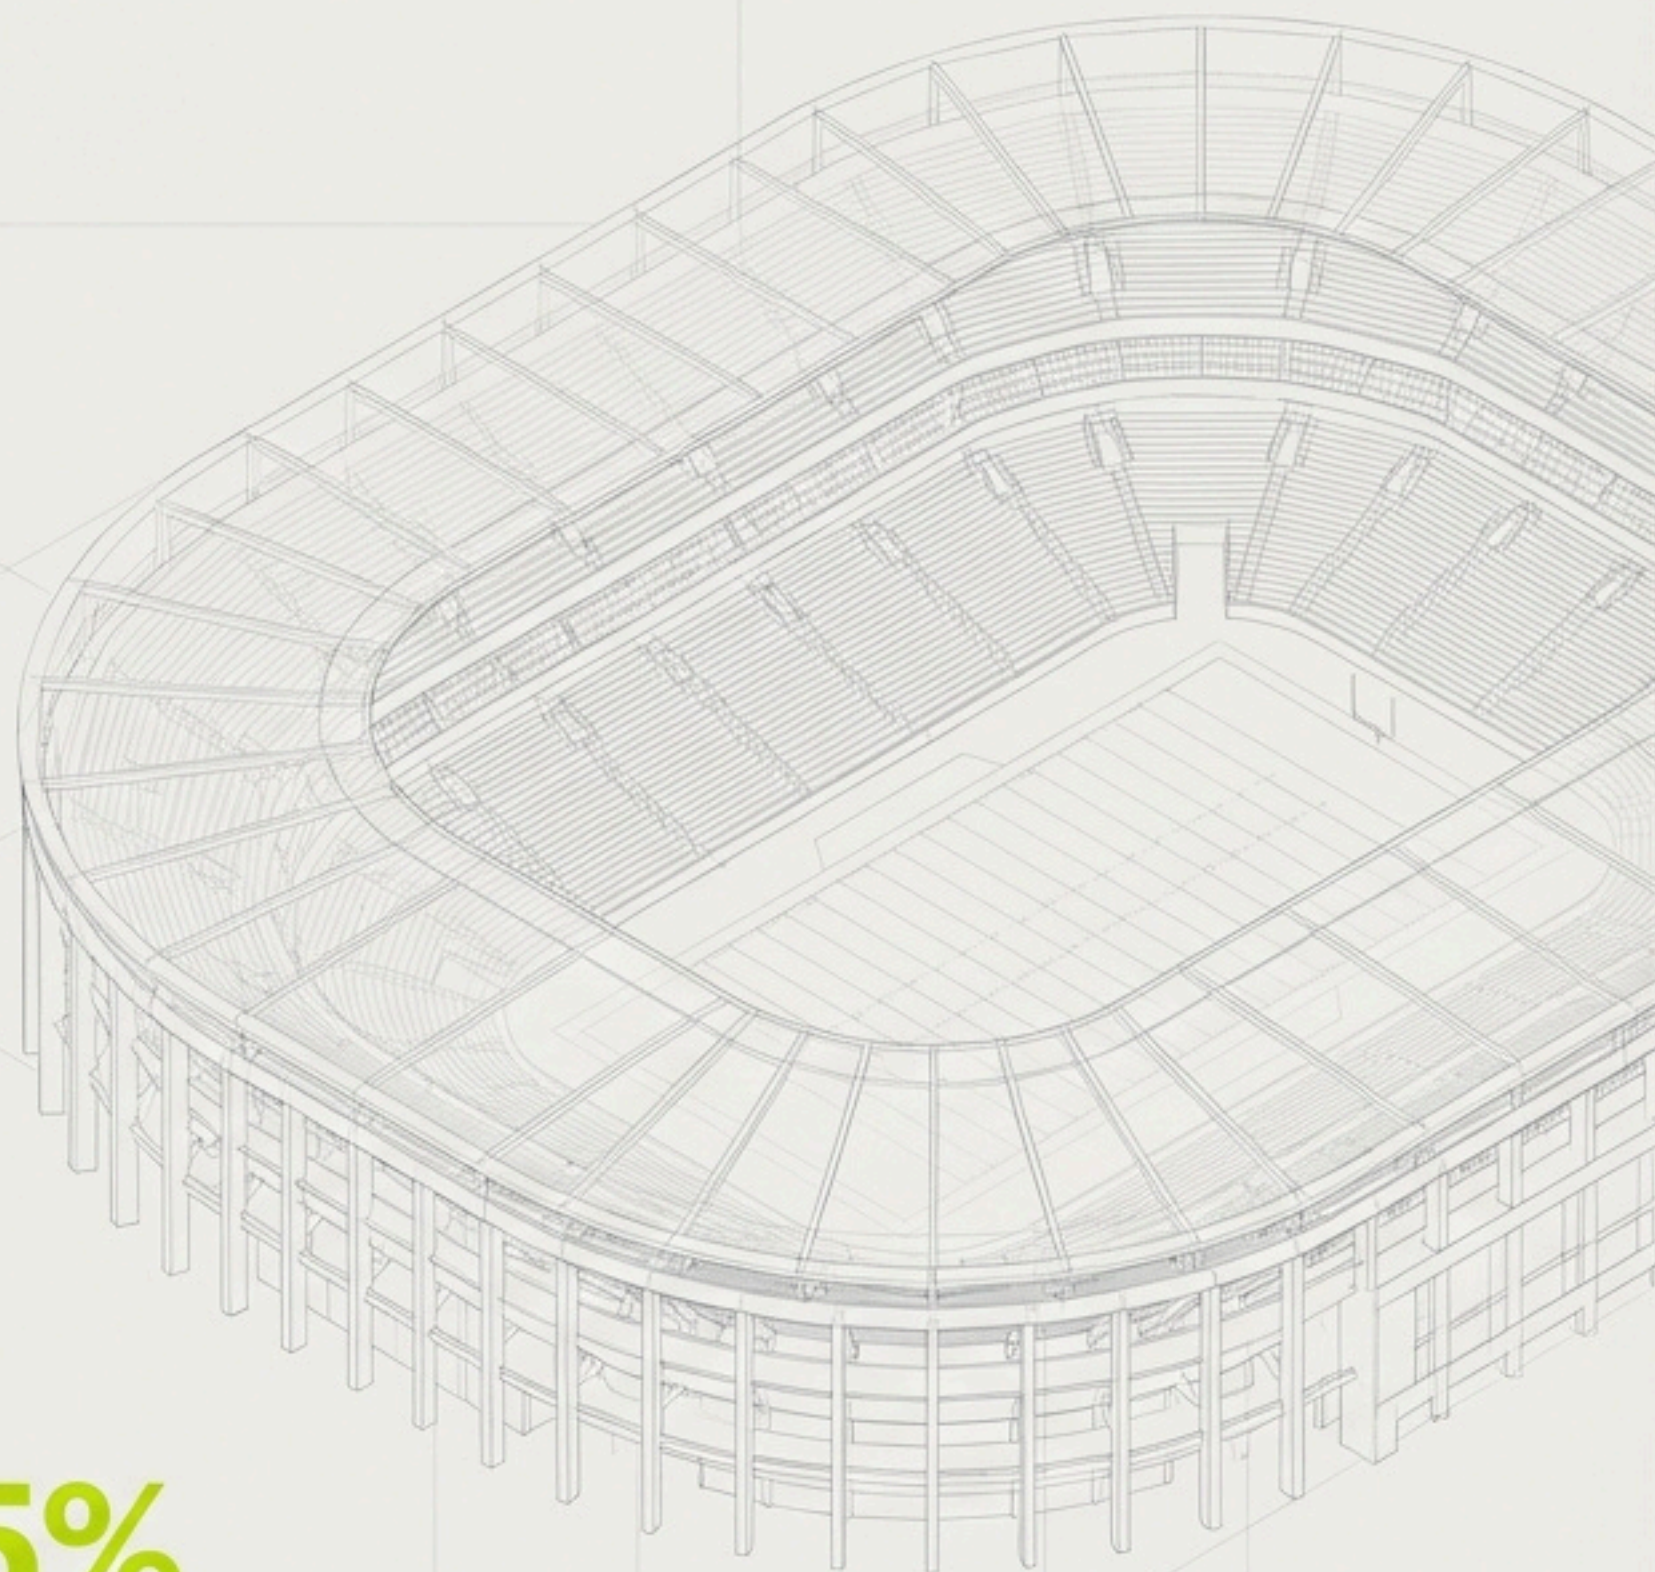

Committed ARR

\$6.3M

NFL Contract Value

725%

First-Year ROI

Executive Snapshot: Validated in the S-NFL, Scaling to the World

THE CRISIS

The live event industry loses \$2-4M per venue annually due to coordination failures and "Revenue Leakage".

THE PROOF

Sentra is battle-tested across 32 NFL clubs with a \$6.3M contract value and a zero-downtime performance record during the Super Bowl.

THE OPPORTUNITY

Moving from sports to an \$85B+ Total Addressable Market, including Live Nation, FIFA, and Federal Critical Infrastructure.

THE ASK

Raising \$2M SAFE on a path to Series A and \$100M+ ARR (Unicorn status).

The Coordination Crisis: Fragmentation at the Point of Performance

The industry accepts chaos as normal. It's **not**. It's solvable.

Separate Clocks.

Agencies operate on different temporal frameworks (minutes vs. hours vs. days).

PDF Graveyard.

Static plans are abandoned under the pressure of real-time decision-making.

Compliance Paradox.

Perfect compliance scores hide fundamental unpreparedness.

The Financial Cost

- \$2-4M Revenue leakage per venue annually.
- 67% of incidents stem from coordination failures.
- \$75K Cost per single 15-minute curfew overrun.

Sentra's Operational Orchestration

The discipline of synchronizing readiness, live operations, and learning into a unified, certifiable capability.

READINESS

- Living blueprints
- Certification pre-checks
- Digital simulations

RUN

- Digital playbooks
- Real-time response tracking
- Common Operating Picture

RENEWAL

- Auto-analytics
- Benchmarking
- Continuous updates

RESPONSE

- Evidence capture
- Multi-agency coordination
- Adaptive protocols

We don't notify. We orchestrate.

SentraiOS – The Intelligence Operating System

Orchestrating the fragmented layers of venue infrastructure.

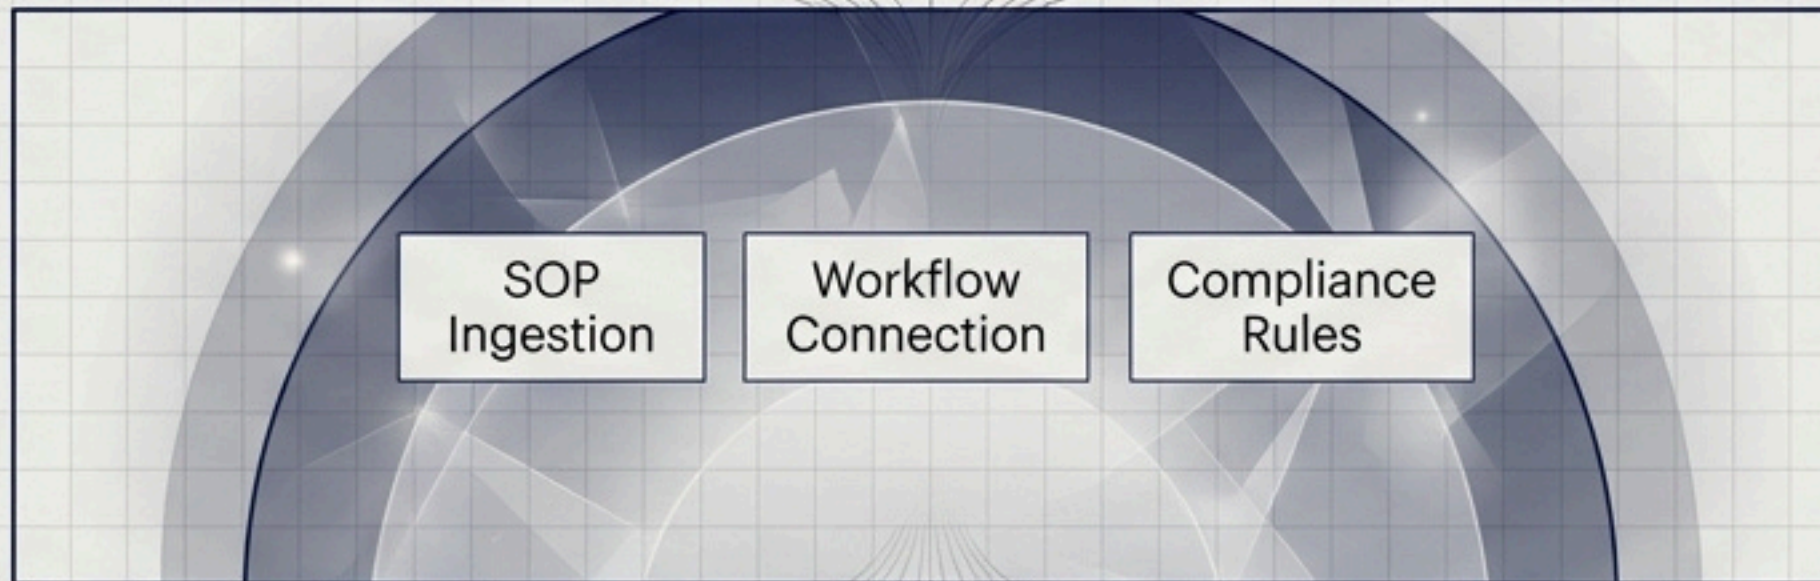

OUTPUT:
INTELLIGENCE

- Real-time Visibility
- Readiness Scoring
- Early Warning

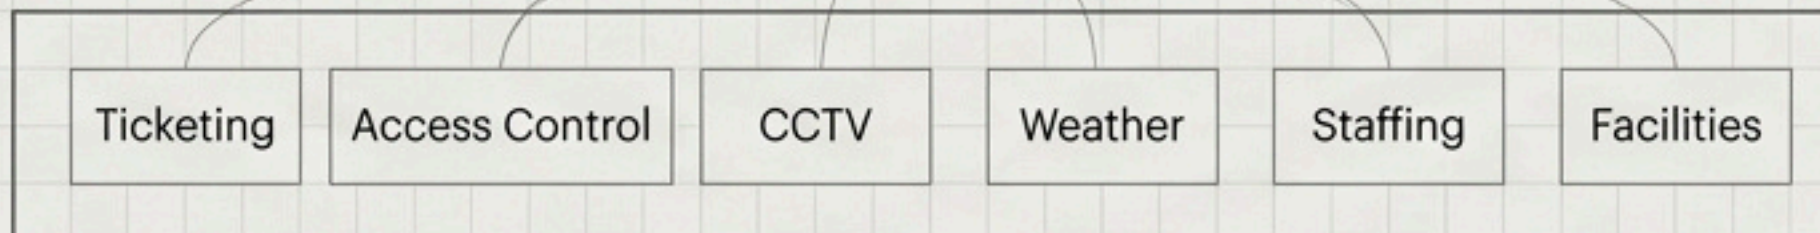

The Strategic Outcome:

Enables certification, auditability, and renewal at scale. Replaces spreadsheet-driven readiness with a living operational system.

REALITY

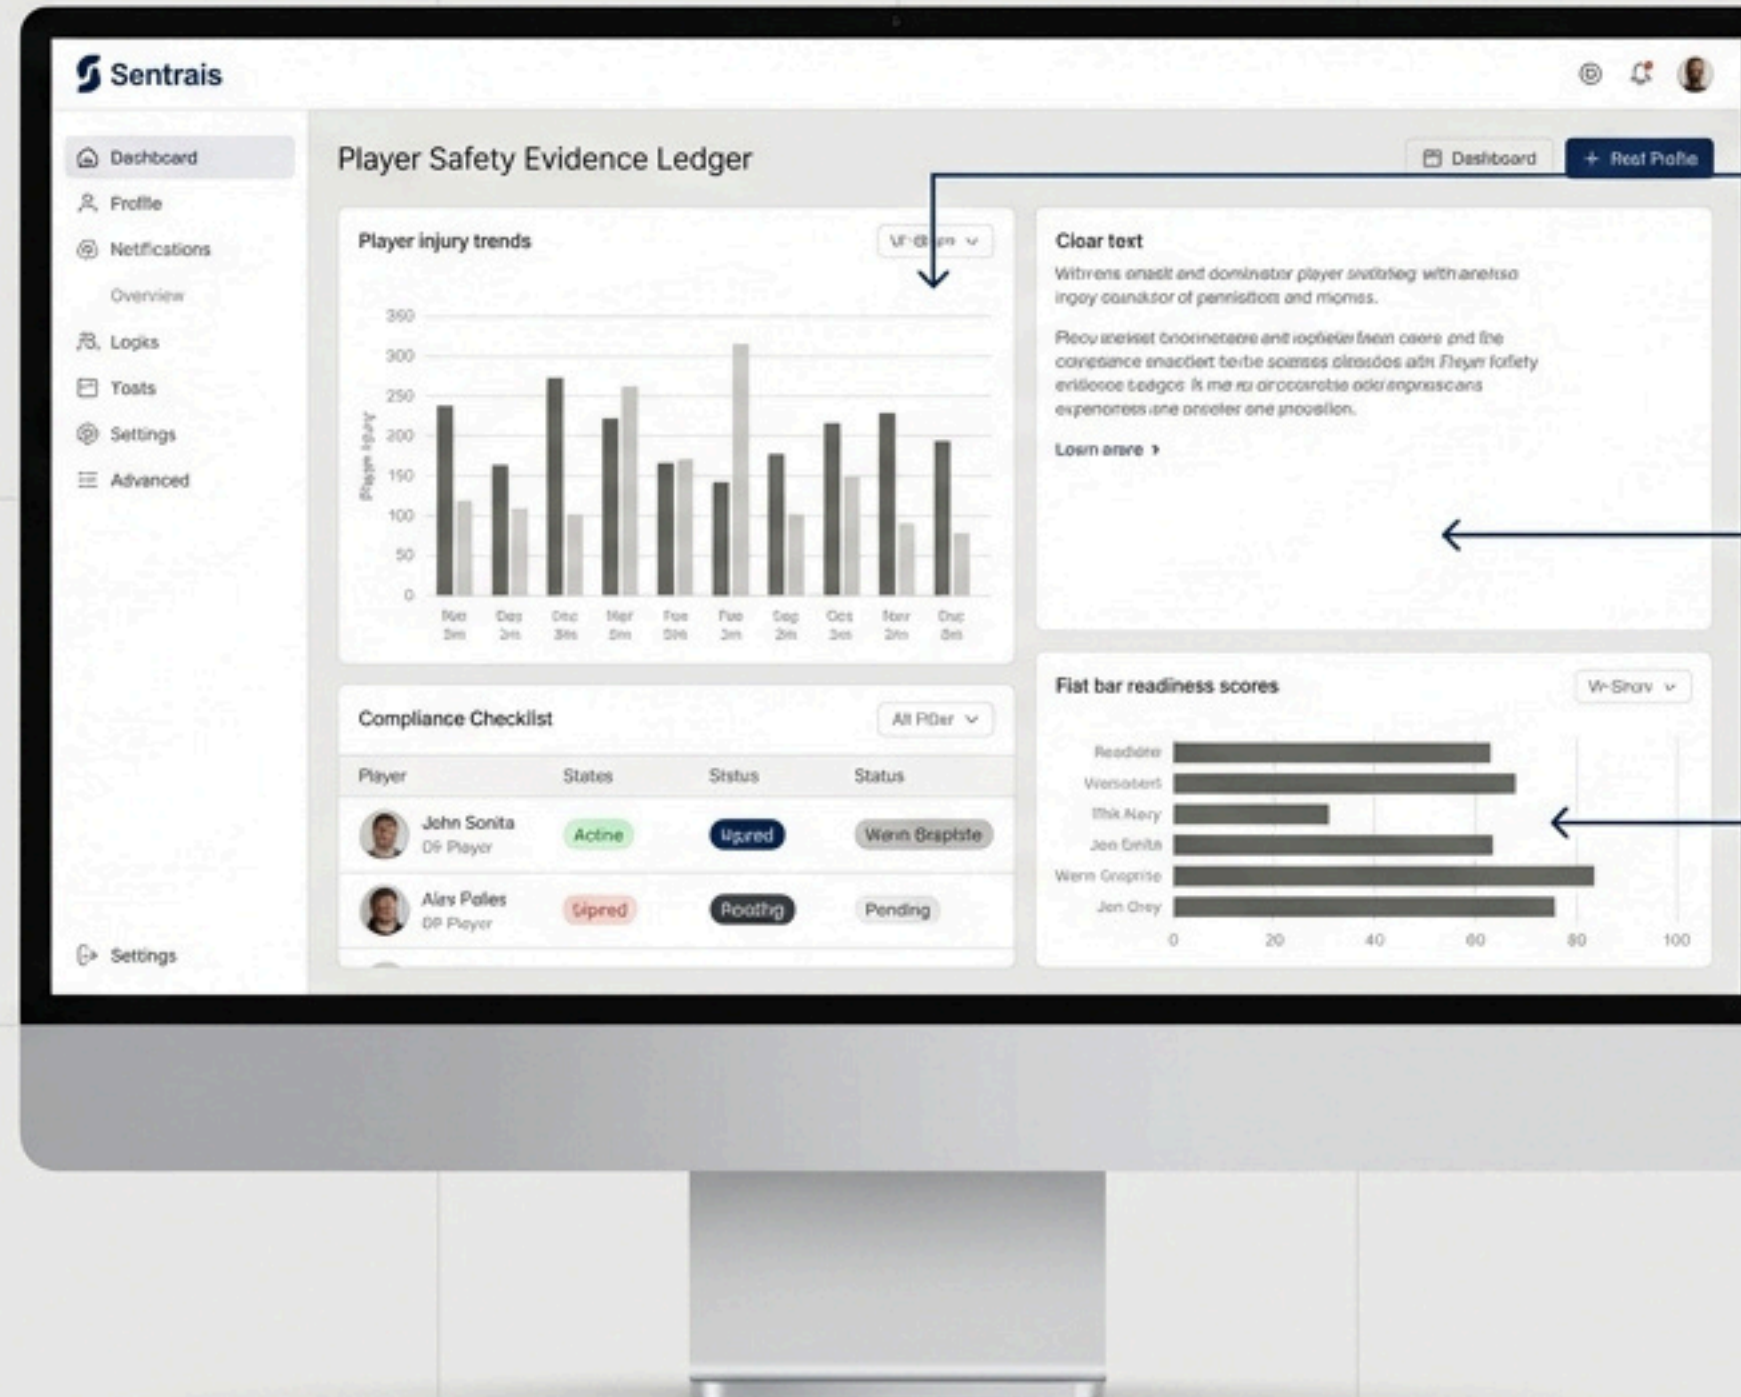

Productized Deployments: The Ecosystem

EVERGAME League & Sports Ops Focus: League-wide view of game readiness, compliance, and certification. Value: Orchestrate execution against league rules; identify readiness gaps before game day.	eVenu Venue & Event Readiness Focus: Infrastructure coordination and live event execution. Value: Coordinate vendors/security from a single command view; avoid curfew overruns.	CiviGrid Civic & Multi-Agency (R&D) Focus: City and multi-agency coordination for major events/resilience. Value: Shared operational picture for police, fire, and transit during mass gatherings.
---	---	---

The Interface: Strength Through Composure

This platform does not panic. Designed for the fire.

High Legibility: Humanist Sans for readability under pressure.

Calm Authority: No clutter, optimized for decision making.

Operational Focus: Clear visualization of readiness scores.

Traction: Battle-Tested in the NFL

Sentrais Operational Orchestration

Discipline: Operational deframe steering in cemrace of all NFL clubs

The Intelligence Moat: Network Effects at Scale

The Network Effect

- Each deployment improves intelligence for ALL deployments.
- Data from NFL games informs safety protocols for concerts.
- Incident data from one stadium refines prediction models for another.

Strategic Positioning: Moving from 'Venue Management' to 'Global Intelligence Standard'.

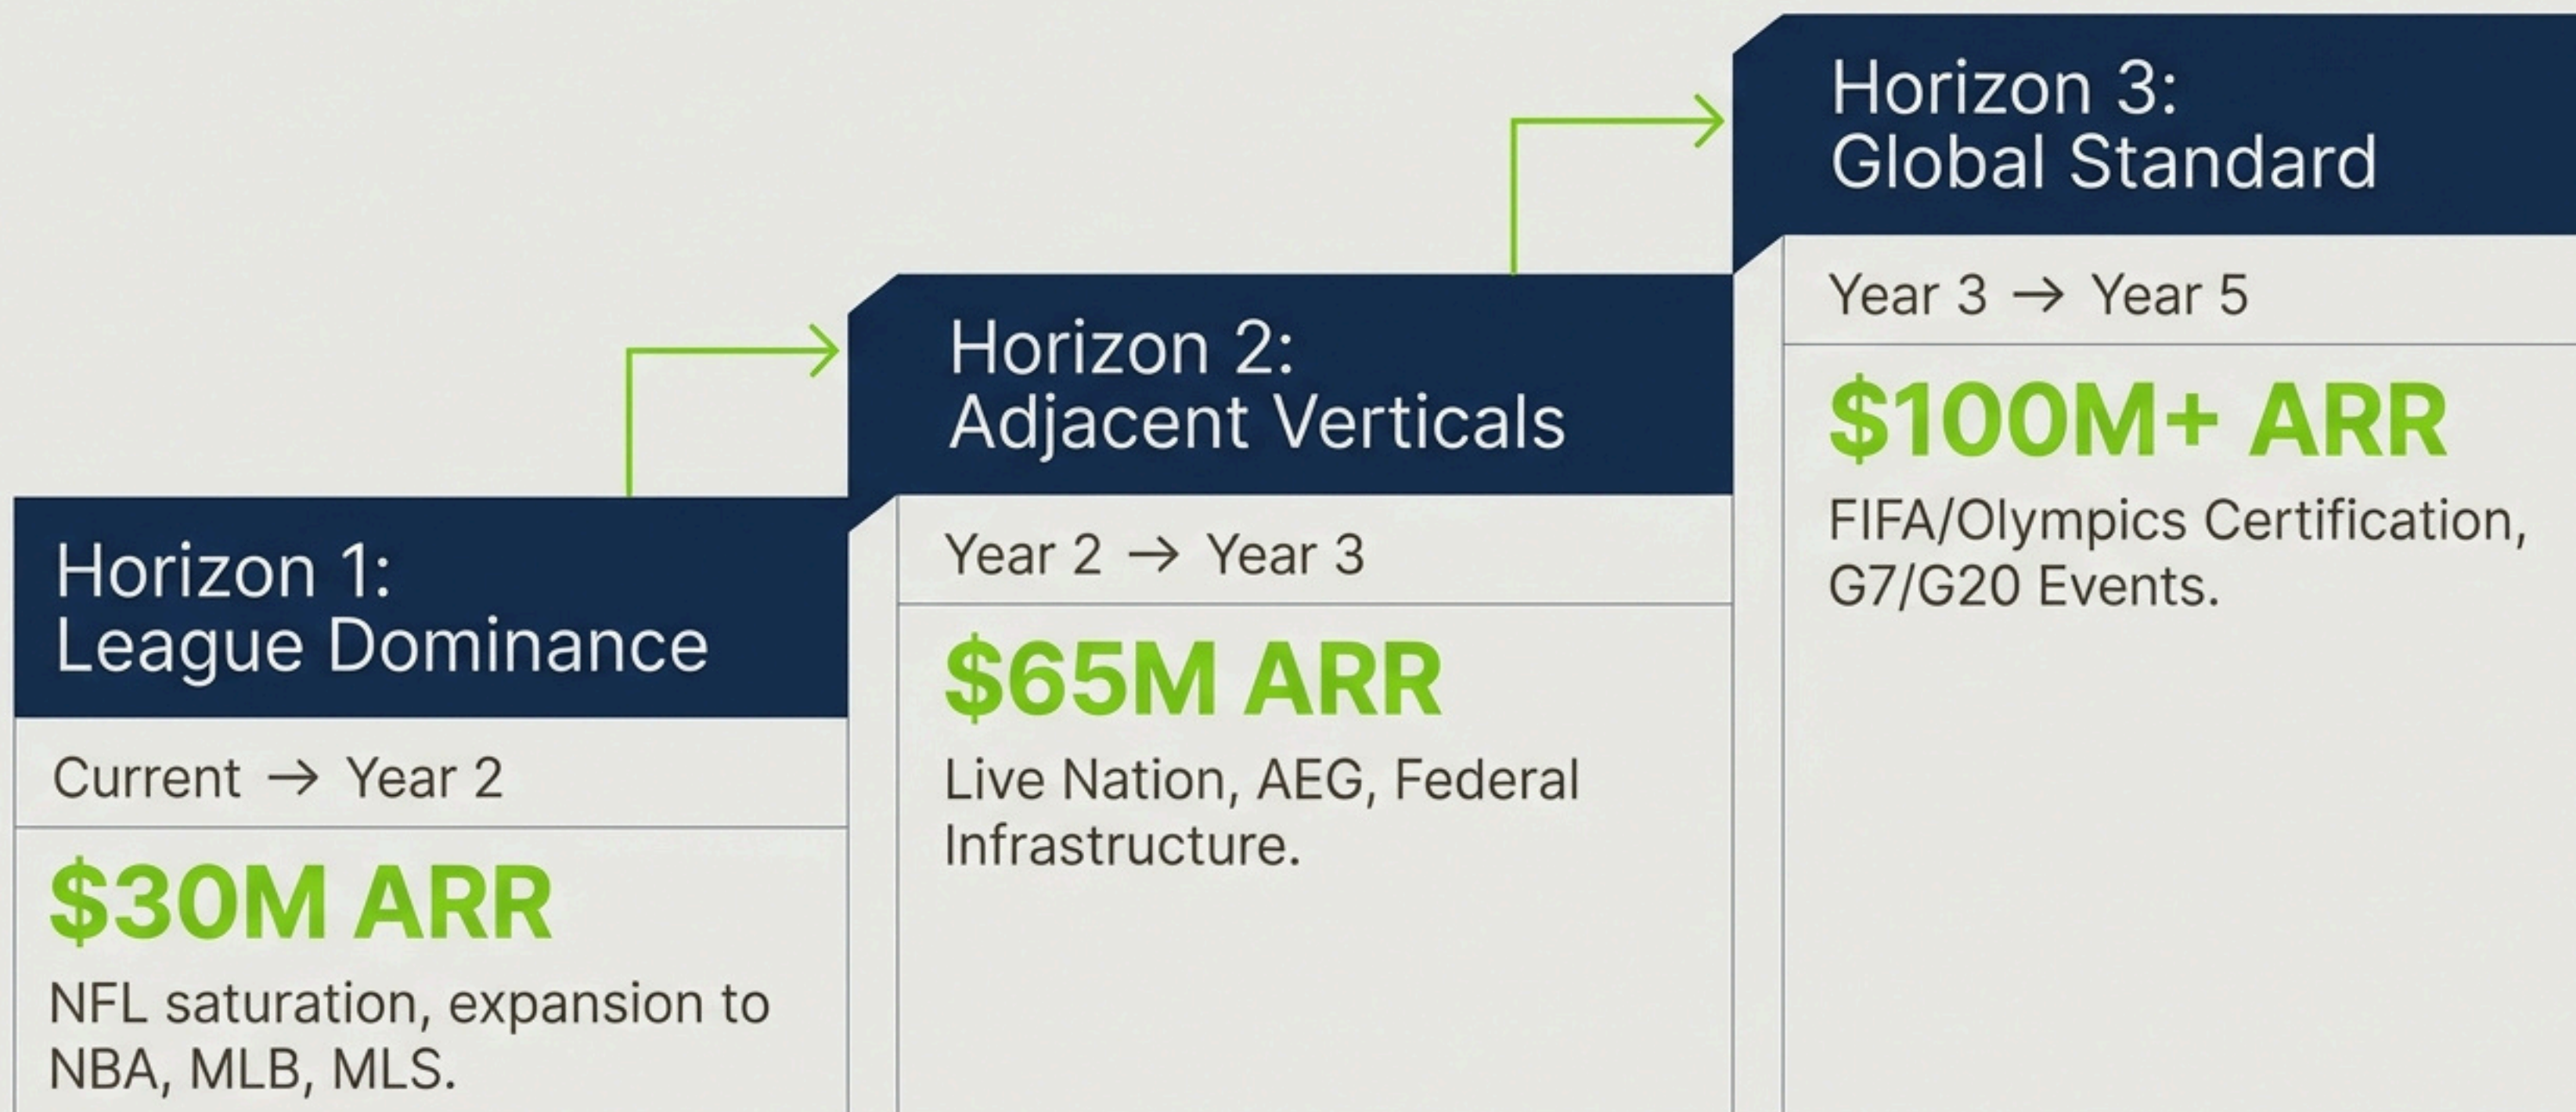

Market Opportunity: The \$85B+ Live Event Economy

Sentrais Serviceable Market: \$450-600M

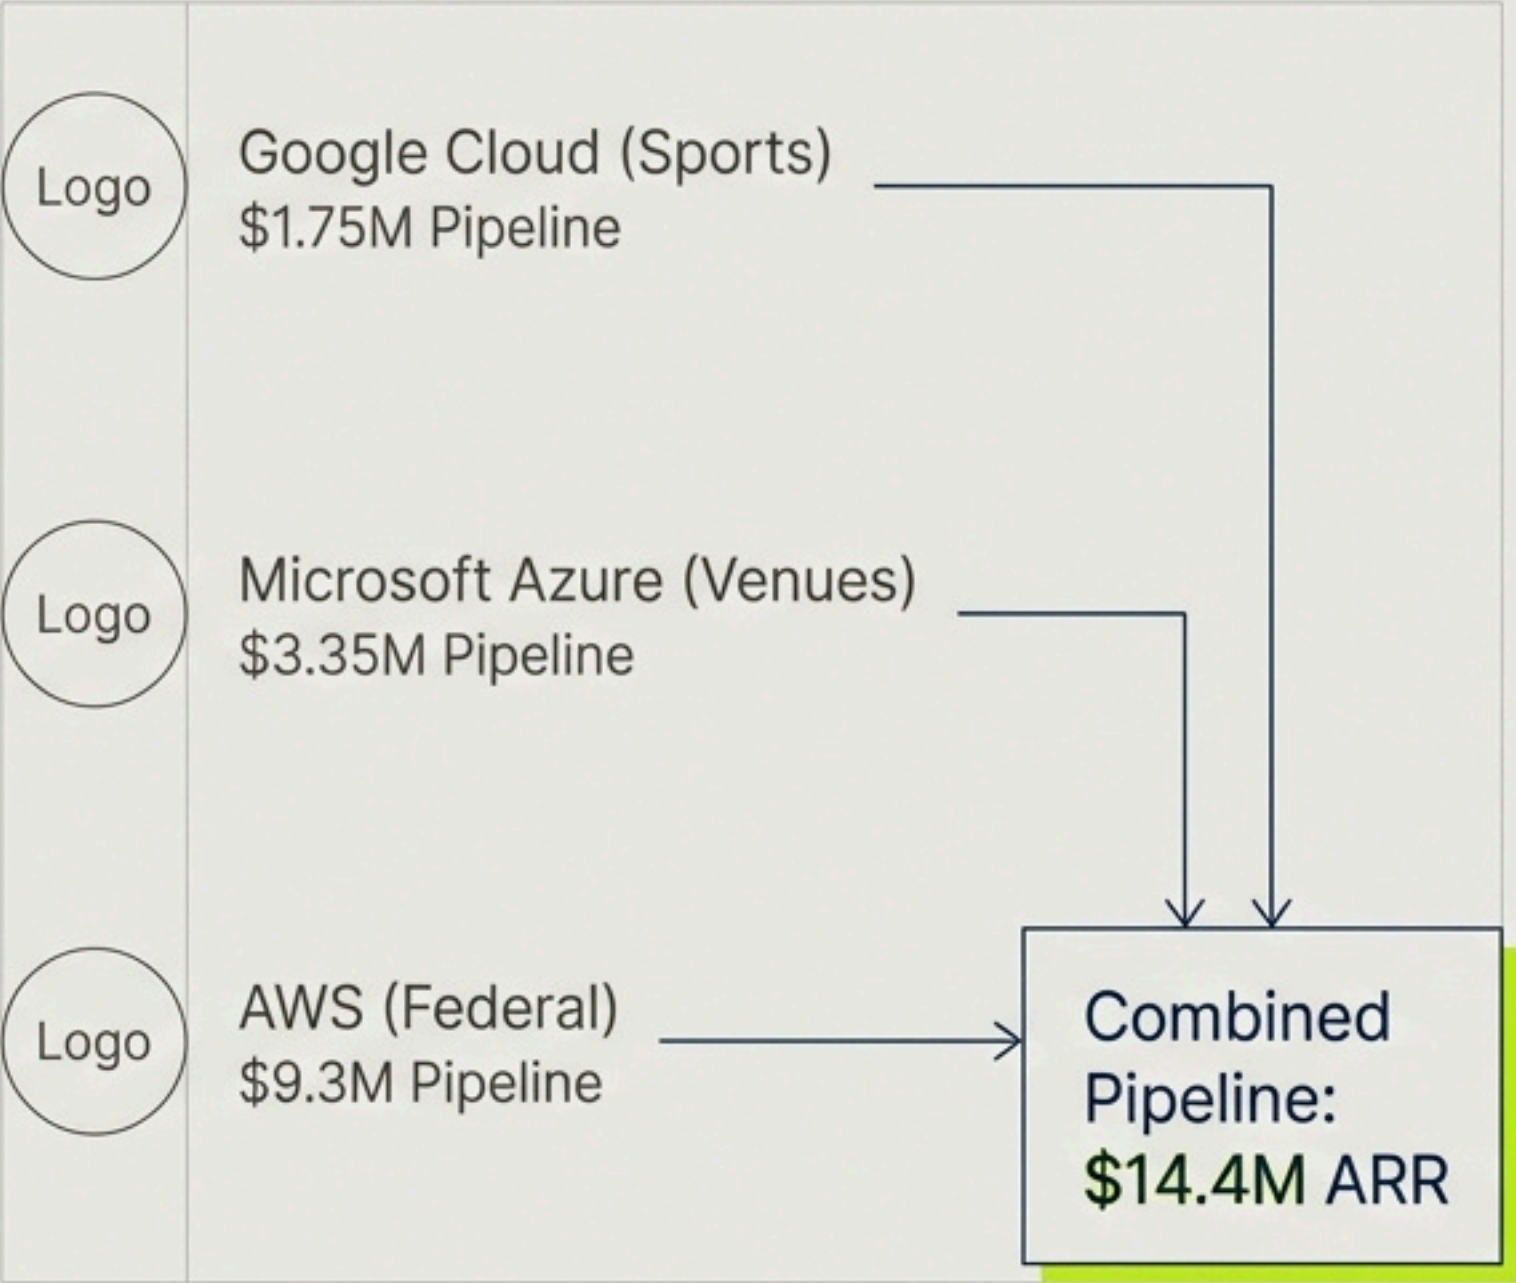

- 10% of tier-one venues
- 1 major promoter (Live Nation/AEG)
- Federal critical infrastructure

Growth Strategy: Three-Horizon Model

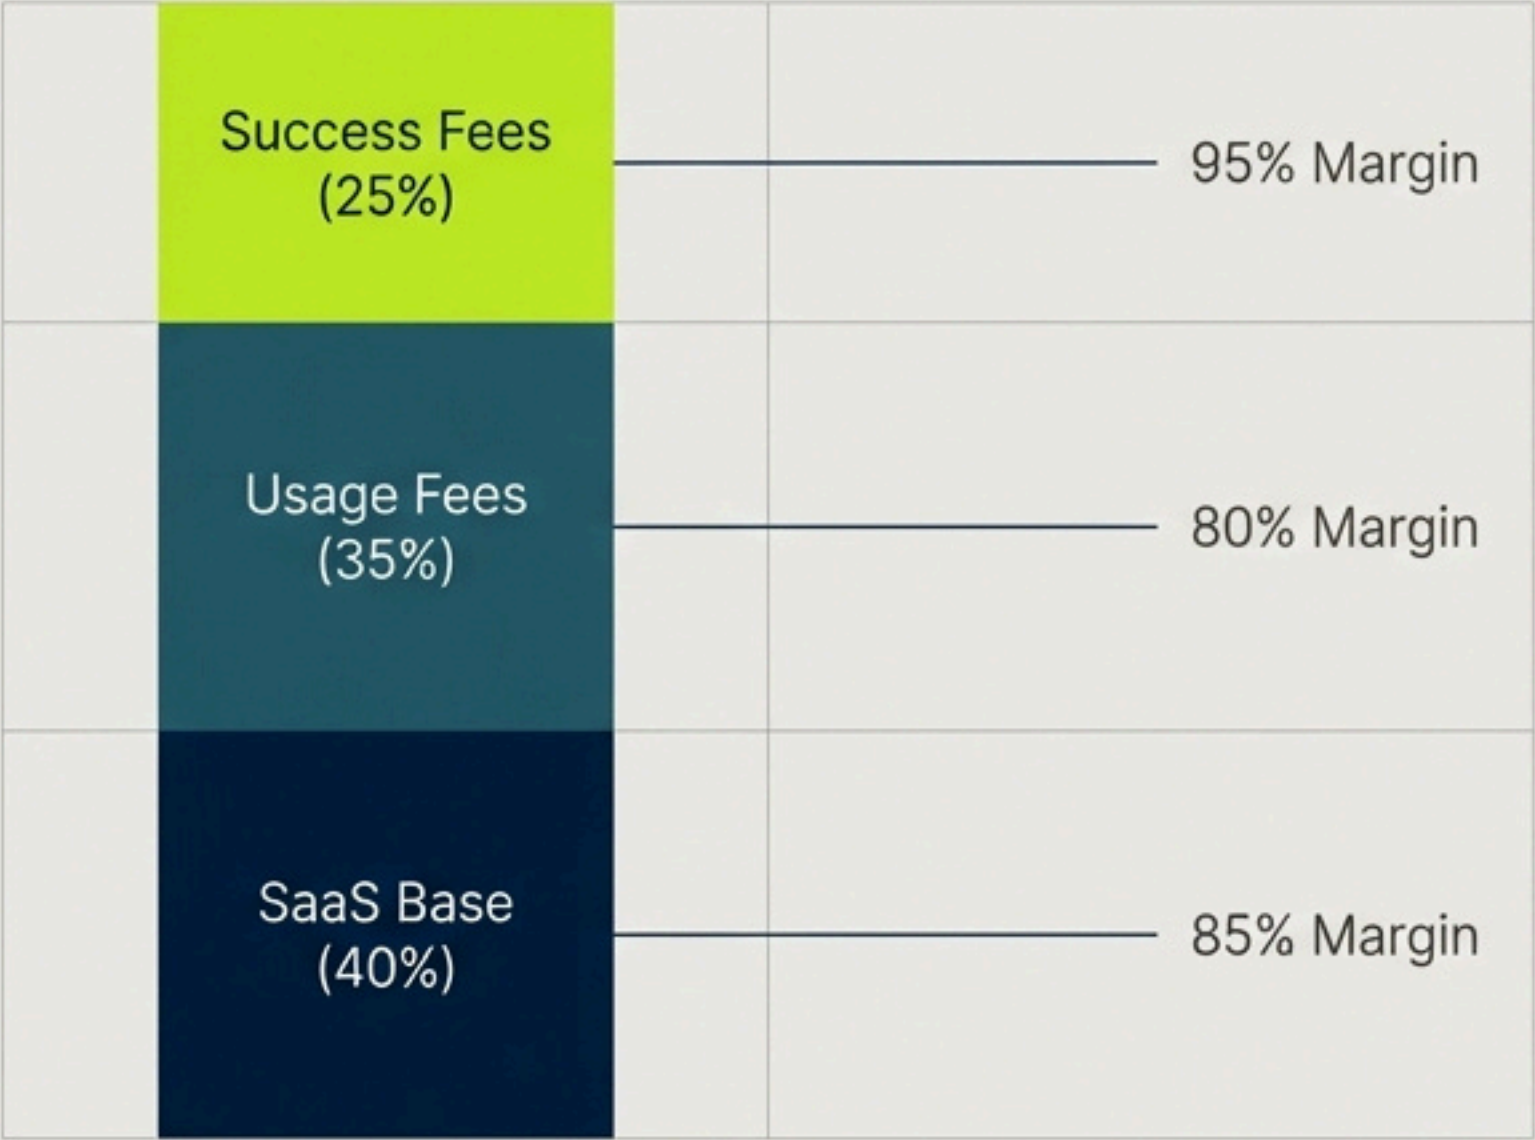

Business Model & Strategic Distribution

Partnerships (Cloud)

Revenue Composition (Year 3)

Pricing: Tier 1 (\$150k-\$250k) | Enterprise Control Tower (\$2-4M)

Founder & Operator Advantage

Tye Hayes, Founder & CEO

Built in fire, not a lab.

- Former U.S. Navy Intelligence Officer.
- Built cyber readiness practice at Lockheed Martin Aeronautics.
- Crisis Manager for the City of Atlanta (Cyber breach recovery & Super Bowl readiness).

Sentra is built by an operator who has executed under real-world pressure.

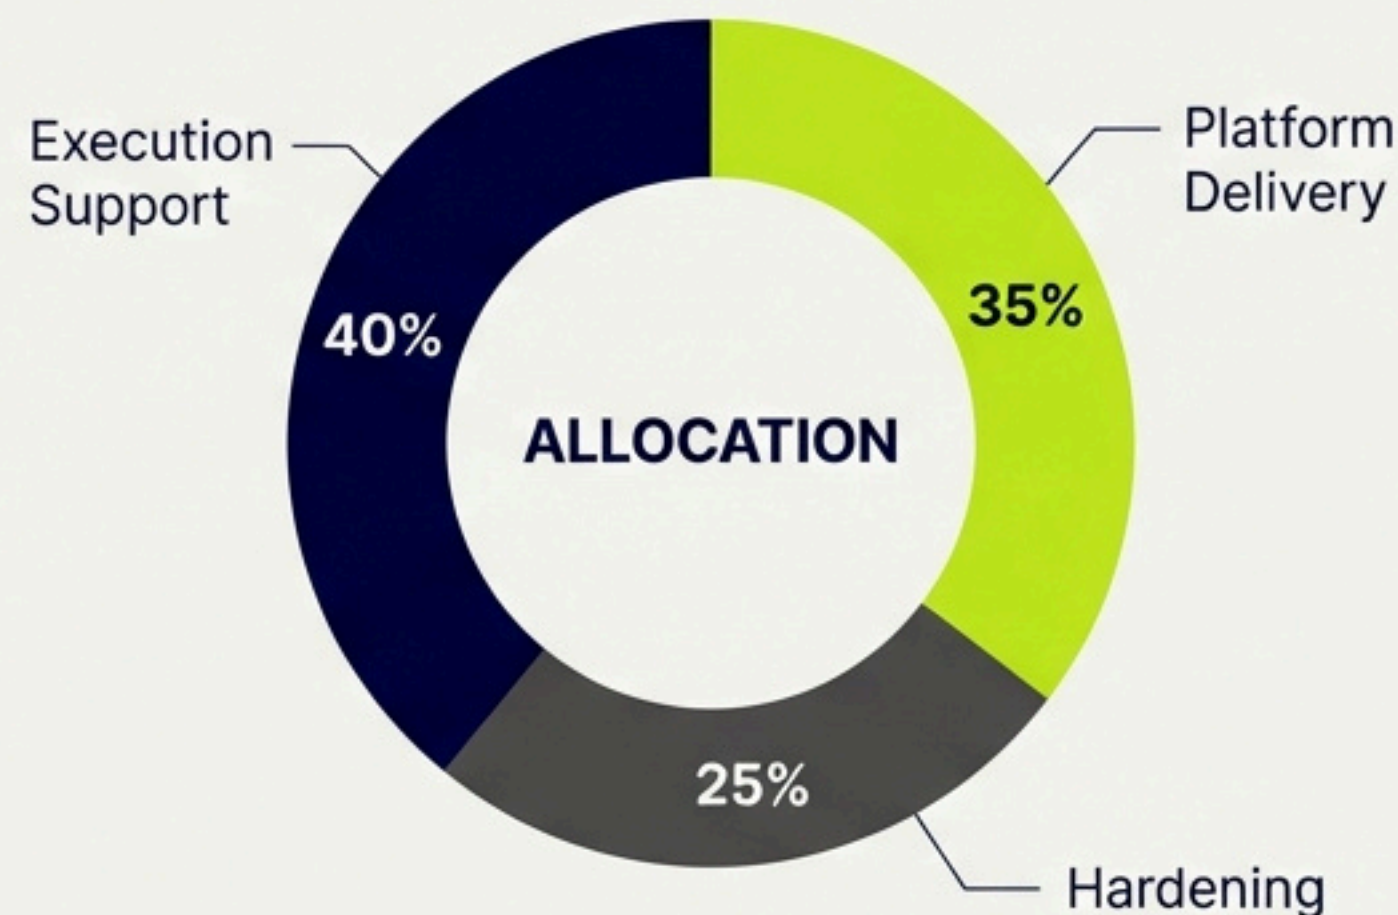

The Opportunity: Series Seed / SAFE

The Instrument

\$2M SAFE Note

- ✓ \$15-20M Valuation Cap
- ✓ 20% Discount to Series A
- ✓ Objective: Convert contracted demand into repeatable ARR.

Use of Funds

Every Stadium. Certified. Intelligent.
