

Blueprint360: From Maturity to Execution

The Verified Evolution Model

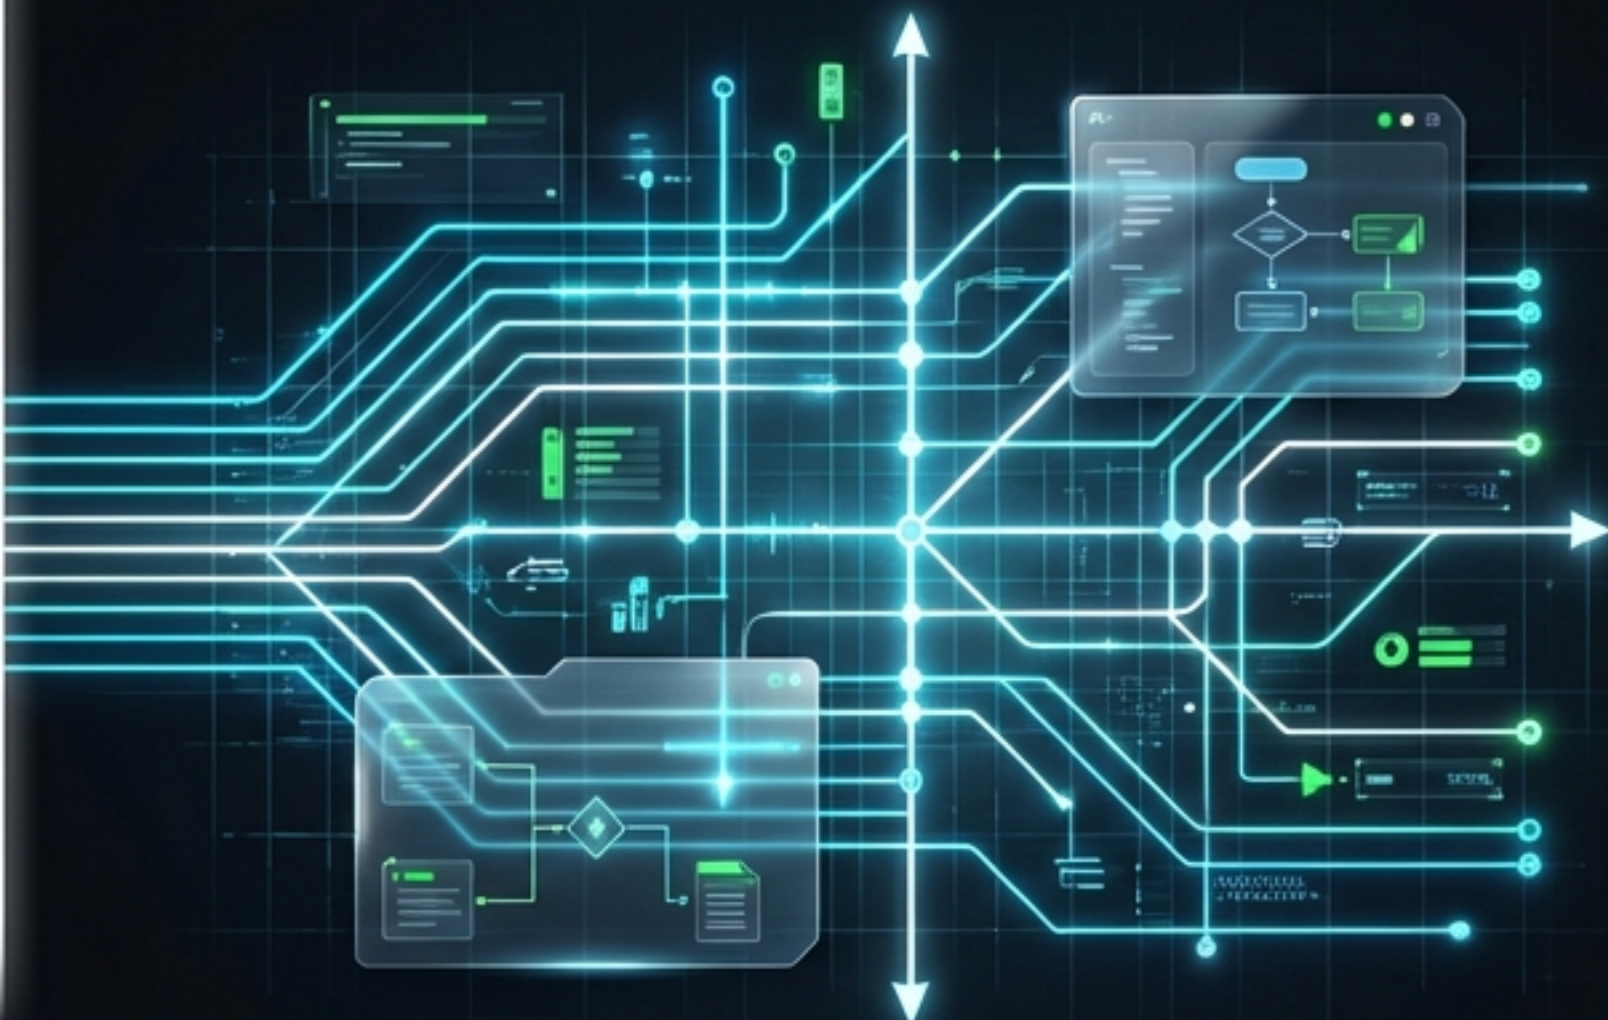

STATUS: STRATEGIC ENGAGEMENT
METHODOLOGY: PROVEN
PHASE: ASSESSMENT

OPERATIONALIZING EVIDENCE OVER ASSUMPTION

THE RISK: ASSUMPTION-DRIVEN EXECUTION

THE SOLUTION: EVIDENCE-LED OPERATIONS

- Ad hoc processes
- Siloed execution
- Unproven environments
- High risk of "shelf-ware"

CORE MANDATE: We do not deploy tools into unproven environments. We prove readiness first, then operationalize it.

- Validated need
- Reduced execution risk
- Readiness-based deployment
- Anchored to strategy

DEEP DIVE: ASSESSING OPERATIONAL READINESS

// POC OUTPUT PACKAGE

01. Overall Maturity Score (Level 1-5)
02. Dimension-Level Heatmap
03. Critical Gap Prioritization
04. Target Maturity State Definition
05. Time-Phased Remediation Roadmap

OBJECTIVE: END-TO-END VISIBILITY
IDENTIFYING CRITICAL GAPS BEFORE TECHNOLOGY INTRODUCTION.

THE DECISION GATE: CONVERTING MATURITY TO EXECUTION

STEP 1: PROVE READINESS
Execute Blueprint360 POC. Deliver Scoring.

**GO / NO-GO
DECISION**

No-Go (Remediate)

STEP 2: SELECT EXECUTION ENVIRONMENT
Match Product to Validated Maturity Gap.

STEP 3: DEPLOY WITH CONFIDENCE
Sentrais Command Activation. Evidence-Led Execution.

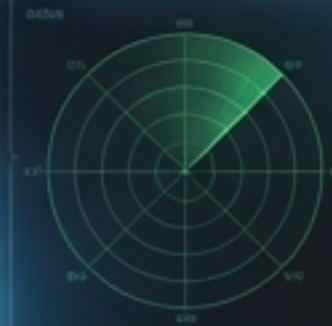

TAILORED EXECUTION ENVIRONMENTS

// MATCHING SOLUTIONS TO VALIDATED GAPS

EVERGAME

// TARGET: LEAGUES & VENUES
// GAP: OPERATIONAL ORCHESTRATION

CiviGrid

// TARGET: HOST CITIES
// GAP: MULTI-AGENCY COORDINATION

SEARGrid

// TARGET: NATIONAL SECURITY
// GAP: HIGH-RISK ASSURANCE

eVenu

// TARGET: INDIVIDUAL STADIUMS
// GAP: COMPLIANCE & REVENUE

EVERGAME: League & Major Venue Orchestration

VALUE PROPOSITION

- Single operational truth across partners
- Coordinated season planning & game-day execution
- Reduced live event risk

INCLUDES

- Intelligence OS + Blueprint360 Framework + Sentrais Command

INVESTMENT

- License: \$750K – \$1.5M per season
- Managed Services: \$250K – \$750K (Optional)

CiviGrid: Host City Orchestration

VALUE PROPOSITION

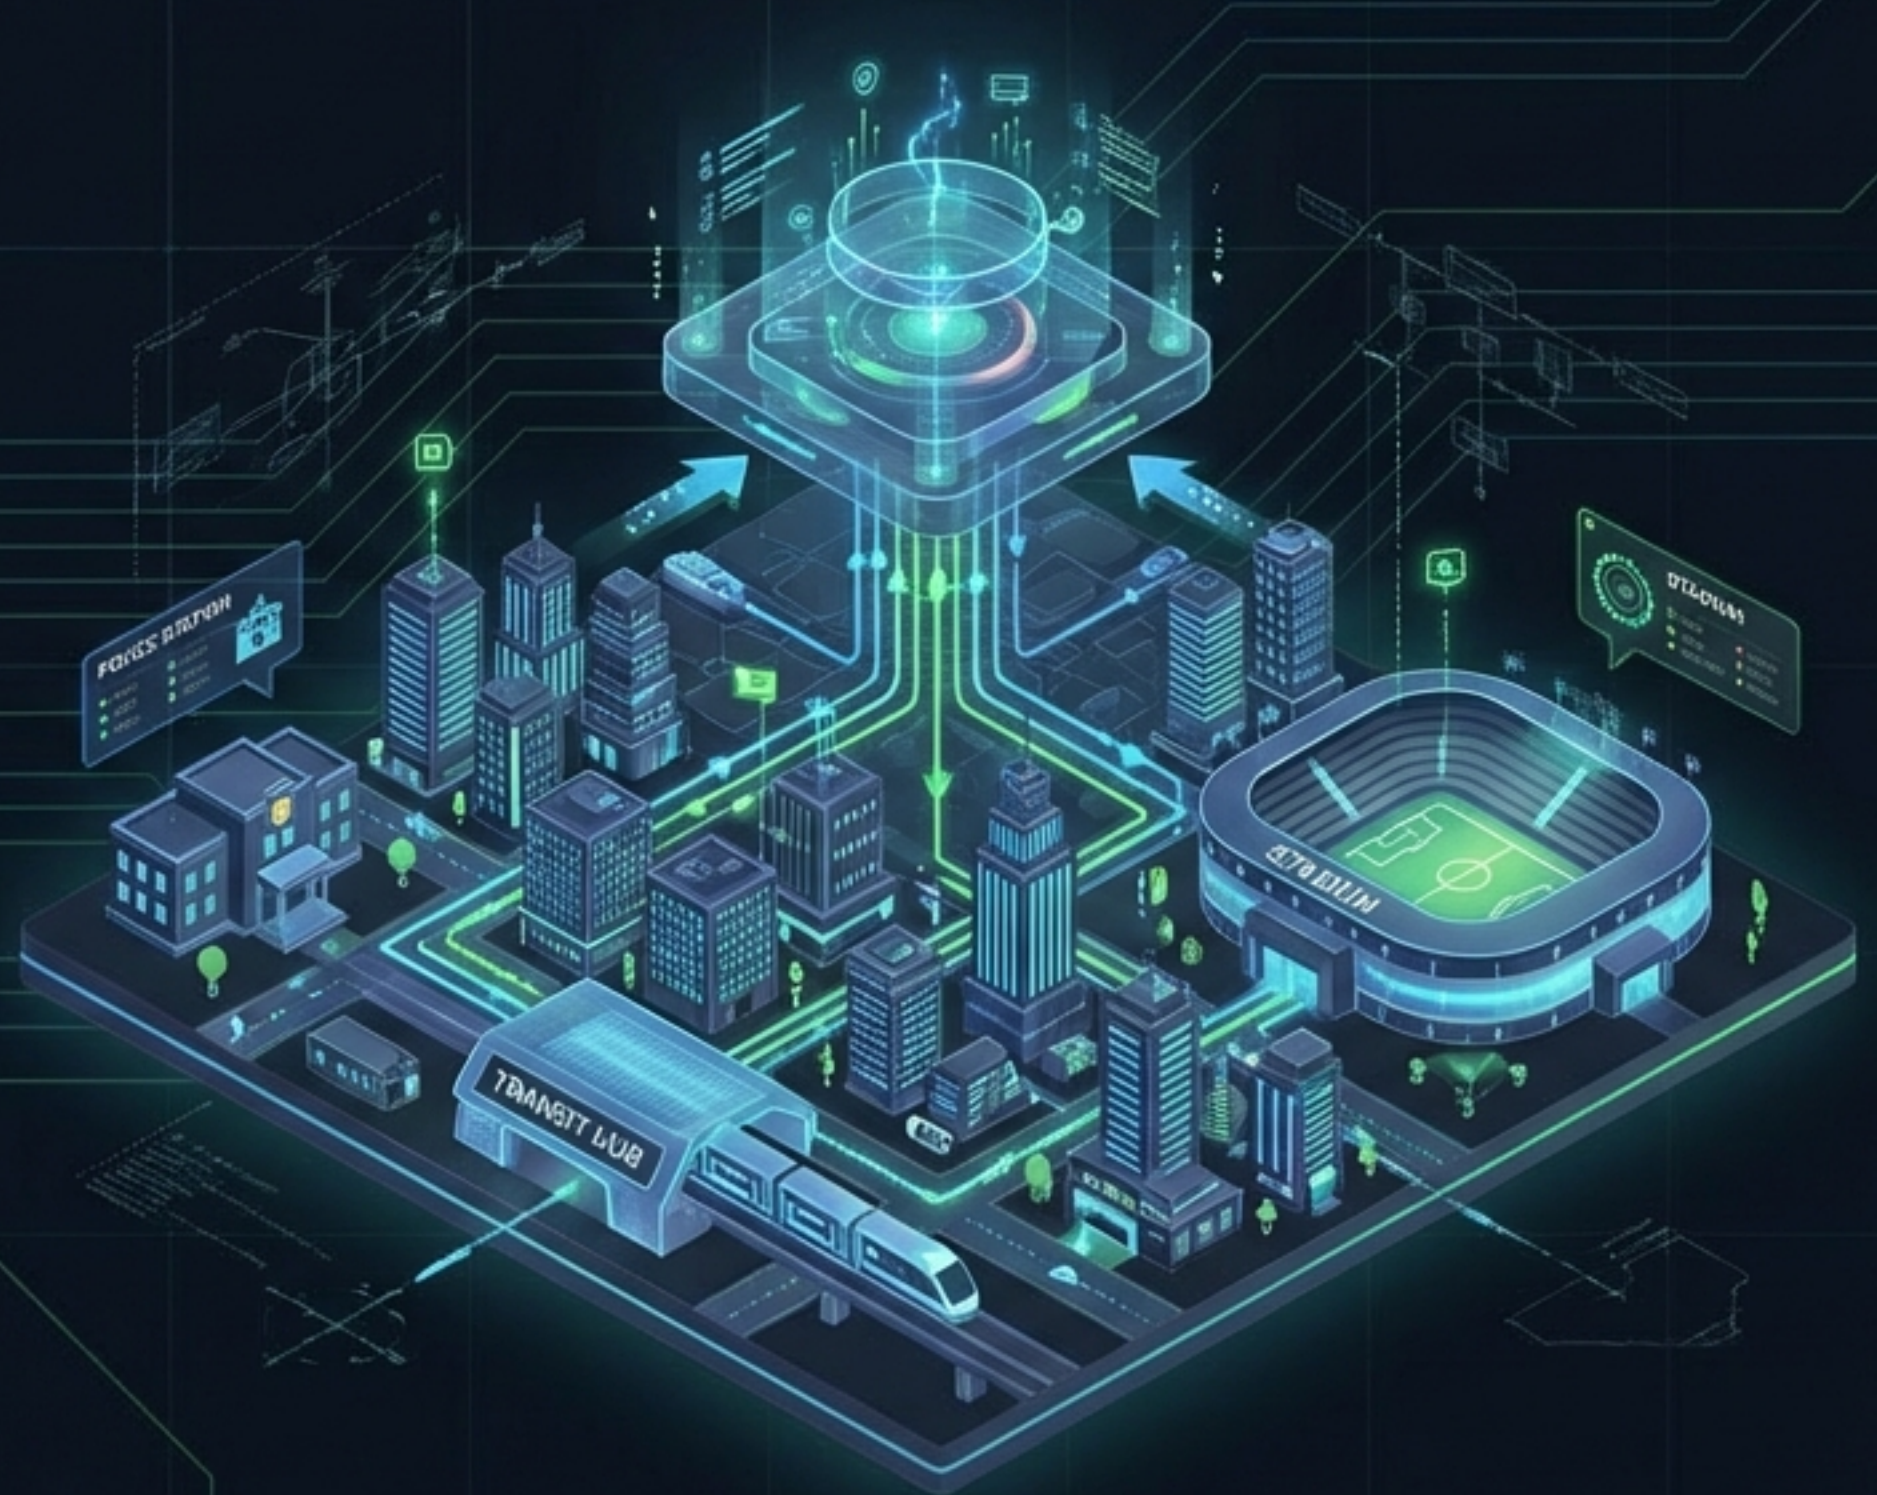

- Multi-agency interoperability
- Executive-level visibility during major events
- Post-event accountability

INCLUDES

- Cross-agency intelligence models
- Escalation mapping
- City-wide command dashboards

INVESTMENT

- Single Event: \$500K – \$1.25M
- Annual City Subscription: \$1M – \$2.5M

SEARGrid: National Security Event Orchestration

VALUE PROPOSITION

- National-security-grade orchestration
- Standardized SEAR certification
- Audit-ready operational assurance

INCLUDES

- Threat/Risk intelligence
- SEAR-aligned validation logic
- National command dashboards

INVESTMENT

- Single SEAR Event: \$1.5M – \$3.5M
- Programmatic Deployment: \$3M – \$7.5M

SYSTEM STATUS: ACTIVE // SEARGRID ORCHESTRATION INITIALIZED

eVenu: Stadium Certification & Revenue

VALUE PROPOSITION

- Transform readiness into auditable assets
- Standardize inspections & reduce compliance risk
- Enable recurring revenue streams

INCLUDES

- Evidence ledger
- Compliance intelligence
- Live inspection visibility

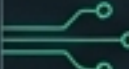

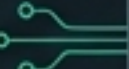

INVESTMENT

- Per-Venue License: \$150K – \$350K / yr
- Certification Tiers: \$25K – \$100K

Commercial Summary & Investment Profile

PRODUCT	PRIMARY BUYER	INVESTMENT RANGE
eVenu	Stadiums / Venues	\$150K – \$350K
CiviGrid	Host Cities	\$500K – \$2.5M
EVERGAME	Leagues / Major Venues	\$750K – \$1.5M
SEARGrid	Federal / State Authorities	\$1.5M – \$7.5M

 Pricing reflects licensing of a complete operational capability: Embedded Intelligence + Orchestration + Live Command. 

The Value Equation: Holistic Capability Licensing

ONE LICENSE = COMPLETE CAPABILITY

THE FRAMEWORK
Blueprint360 Planning,
Readiness Logic, Validation Gates

LIVE COMMAND
Operational Visibility,
Dashboards, Escalation Mapping

INTELLIGENCE OS
