

Blueprint360 POC – Executive Close-Out Report

Confidential | Prepared for Executive Leadership

Executive Summary

This report summarizes the results of the Blueprint360 Security & Operational Maturity Proof of Concept. It provides an evidence-backed readiness assessment, key risks, and recommendations for execution.

Maturity Assessment Results

Overall Maturity Level: ____ / 5

Readiness Status: ■ Go ■ Conditional Go ■ No-Go

Key Risks & Gaps

- Critical dependency failures
- Role clarity and escalation gaps
- Technology readiness or integration risks
- Evidence and audit weaknesses

Recommended Execution Path

Based on maturity outcomes, the following execution environments are recommended for deployment:

- EVERGAME – League & Venue Orchestration
- eVenu – Stadium Certification & Revenue Enablement
- CiviGrid – Host City Orchestration
- SEARGrid – High-Risk & National Security Event Orchestration

Next Steps

Approve execution environment deployment, confirm investment scope, and initiate operational onboarding.
