

Blueprint360 Proof of Concept

Security & Operational Maturity Model | Powered by Sentrais

Purpose

The Blueprint360 Proof of Concept is a paid, executive-grade assessment designed to evaluate an organization's security and operational maturity across people, process, technology, and governance. It establishes a defensible readiness baseline before any execution environment is deployed.

What the POC Delivers

- Enterprise security and operational maturity score
- End-to-end operational blueprint and dependency map
- Risk and gap analysis tied to real operational impact
- Go / No-Go readiness decision gate
- Board-ready executive artifacts

Embedded Platform Value

- Sentrais Intelligence OS for modeling, evidence, and learning
- Blueprint360 orchestration and validation framework
- Sentrais Command (read-only) for live-state intelligence context

Engagement Structure

Duration: 6–10 weeks

Investment: \$250K–\$500K

Outcome: Readiness certification and execution roadmap
