

BRAND GUIDELINES

WELCOME TO THE SENTRAIS BRAND GUIDELINES

These guidelines explain how the Sentrais brand is applied across products, communications, and environments.

They support teams and partners in using the visual system consistently — from software interfaces and presentations to materials used in complex operational contexts.

The purpose of this document is to provide a clear structure for maintaining a coherent and recognizable Sentrais presence as the platform grows.

LOGO BASICS

LOGO COMPONENTS

The Sentrais logo is made up of a wordmark and an icon, coming together to create a cohesive and memorable visual identity.

The icon can be used either independently or together with the full logo. The choice of usage depends on the context and the visual hierarchy.

LOGO CONSTRUCTION

The logo has geometric proportions that define the spacing between its elements. This ensures a consistent and stable representation of the logo in all conditions and sizes.

Understanding these spatial relationships is crucial for maintaining the cohesion of the entire brand. These proportions should never be altered, as they are key to the visual balance and clarity of the logo.

VISUAL ALIGNMENT

The symbol introduces additional visual weight above the horizontal axis, so the complete logo lockup requires a slight upward optical adjustment to appear centered within a composition. This correction is calculated as 20% of A.

Horizontally, the logo should remain centered within the available space. Vertically, alignment should always follow the visual center line, even when it differs from the geometric midpoint.

This principle ensures that the Sentrais logo appears balanced, stable, and optically centered across layouts.

USAGE OPTIONS

In different situations, you can use one of the provided logo variations depending on placement needs and format.

The "horizontal logo" is the primary version and should be used in most cases, especially on wide horizontal formats like websites, banners, or business cards. Other variations may be used only when required by layout constraints or specific application needs.

The Sentrais brandmark can be used in places where minimal branding is needed, such as footers, favicons, or mobile app buttons.

The vertical logo is intended for use when space is limited both in width and height. This version should only be used in rare, exceptional cases where the design or limited space requires it.

Always use the official Sentrais logo files provided in the package. Do not recreate them or alter their proportions or colors.

SENTRAIS 

SENTRAIS

SENTRAIS

FAVICON

For the favicon and small elements where the full logo isn't recognizable, use the brandmark. It's a simplified brand element, suitable for limited formats like browser tabs and mobile apps.

The favicon is used in Sentrais's brand colors: Mineral Gray on a Verdant Slate background.

128 px

64 px

32 px

FOR SMALL USE

The Sentrais logo should perform well at any size. Follow the guidelines below for proper implementation of small logos that remain sharp and legible when scaled down.

For small logos, a minimum width of 180 pixels is recommended. This ensures that all key brand elements, such as fonts and symbols, are preserved, guaranteeing good readability across all devices and platforms.

When the logo is used in very small elements, such as a favicon or mobile app icons, it's advisable to use a simplified version of the logo — a brandmark. This brandmark should maintain visual integrity even in constrained formats, such as browser tabs or mobile device interfaces.

CLEAR SPACE

Ensure ample space between the Sentrais logo and surrounding elements. The clear space around the logo should always be at least half the size of the icon or greater.

When using the brandmark on its own, the clear space around it should be at least one-third of the icon's size or more.

This helps maintain a clean, professional appearance and prevents the logo or brandmark from being overwhelmed by other elements in the design.

LOGO MISUSE

⊗ Don't

Follow the guidelines for developing and using the Sentrais logo as outlined above. Any alterations to the logo can compromise its integrity, which can negatively impact the brand's perception and recognition.

Consistent usage helps reinforce brand awareness and builds a lasting impression in the minds of the audience.

Do not crop the logo

Do not distort the logo

Do not alter the logo's transparency

Do not use shadows or any other effects

Do not shuffle around the colors of the logo

Do not use any other font

Do not use different colors

Do not add an outline to the logo

Do not change the size or orientation of the logotype

Do not rotate any part of the logo

COLORS

COLOR PALETTE

The Sentrais color palette is built around a restrained set of primary colors supported by a single accent tone.

Obsidian Green, Verdant Slate, Mineral Gray, and White form the primary foundation of the visual system. These colors should be used across most applications, including interfaces, layouts, presentations, and background structures.

Oxide Bronze serves as the accent color. It is used to highlight key elements such as navigation states, interface signals, diagrams, and supporting graphic details. It should be applied selectively and never dominate compositions.

To maintain consistency across the brand system, additional colors should not be introduced outside this palette.

White

CMYK	0-0-0-0
RGB	255-255-255
HEX	FFFFFF
PMS	WHITE C

Mineral Gray

CMYK	13-8-13-0
RGB	219-221-216
HEX	DADDD8
PMS	421 C

Oxide Bronze

CMYK	11-32-88-2
RGB	43-45-68-14
HEX	8C7A5A
PMS	872 C

Verdant Slate

CMYK	68-48-64-32
RGB	75-91-79
HEX	4A5A4E
PMS	5565 C

Obsidian Green

CMYK	75-59-70-69
RGB	31-42-35
HEX	1F2A23
PMS	3 C

SECONDARY COLORS

Do not use secondary colors for text, except for the primary White and Oxide Bronze - 200.

Secondary colors can be paired with Sentrais’s primary colors, but their use should be limited and always follow the brand guidelines.

IMPORTANT! White is considered a primary color, but it falls under the “Mineral Gray” category. You can use it as a standalone primary color, but always take into account the context and its compatibility with other design elements to ensure visual harmony and readability.

Mineral Gray - 600 HEX C4C7C2	Oxide Bronze - 600 HEX 7E6E51	Verdant Slate - 600 HEX 435146	Obsidian Green - 600 HEX 161D19
Mineral Gray - 400 HEX E5E7E4	Oxide Bronze - 400 HEX A3957B	Verdant Slate - 400 HEX 6E7B71	Obsidian Green - 400 HEX 4C554F
Mineral Gray - 200 HEX F4F5F3	Oxide Bronze - 200 HEX C5BCAC	Verdant Slate - 200 HEX A4ACA6	Obsidian Green - 200 HEX 8F9491
White	Oxide Bronze - 50 HEX E2DED6	Verdant Slate - 50 HEX D2D6D3	Obsidian Green - 50 HEX C7CAC8

USAGE ON BACKGROUNDS

In most cases, the full-color logo should be used whenever possible.

SENTRAIS

SENTRAIS 

SENTRAIS 

SENTRAIS 

GRAY PALETTE

The combination of gray colors in the logo can be used in the platform's footer, in animations, or alongside monochrome logo variations (such as Instagram, Facebook, etc.).

Do not use this color variation of the logo as the primary option. The full-color logo is the primary option.

SENTRAIS 

SENTRAIS 

MONOCHROME

Monochrome logo versions are used when full-color reproduction is not possible or when technical or environmental conditions require a simplified application.

These versions ensure consistent visibility across a wide range of materials and backgrounds, including single-color printing, embossing, engraving, low-contrast environments, or limited production methods.

The selection of a monochrome version should be based on background contrast, reproduction technique, and overall legibility. Always choose the version that provides the strongest visual clarity within the given context.

Avoid using monochrome variations when full-color logo reproduction is available and appropriate.

ACCESSIBLE COLOR COMBINATIONS

Primary text should appear in Obsidian Green or Verdant Slate on light backgrounds such as White or Mineral Gray. For dark backgrounds, use White or Mineral Gray to maintain clarity and readability.

Oxide Bronze may be used for emphasis or supporting interface signals, but should not be used for long-form body text.

Avoid low-contrast combinations within the palette. Text should remain clear and readable across digital and physical environments.

TYPOGRAPHY

HEADLINES

Headlines in Sentrais communications use Fahkwang. The typeface supports the brand's structured and composed visual language and ensures a consistent presence across interfaces, presentations, and external materials.

Use lighter weights for large-format headings and layout structures. Medium and Bold weights may be used where additional emphasis or hierarchy is required.

Avoid excessive styling in headlines. Sentrais typography should remain clear, restrained, and precise.

BRAND TEXT

Sentrais uses Inter for body text across interfaces, presentations, and supporting materials.

The typeface provides clarity and readability across complex information environments and supports consistent communication at different scales.

Avoid excessive styling. Body text should remain clear, structured, and easy to read across digital and physical applications.

Inter

POWERPOINT

Use Fahkwang and Inter in Google Slides.

If you're converting Google Slides into a Keynote or PowerPoint presentation, use Helvetica Neue for headings and Tahoma for body text.

If the presentation is created in Keynote or PowerPoint, use Helvetica Neue for headings and Tahoma for body text.

Your Sentrais Setup Is Confirmed
To: james@nolan.com

March 1, 2026 at 2:00PM
Cc: tye@sentrais.com

Dear Mr. James Nolan,

Access to Sentrais has been successfully confirmed.

Sentrais provides a unified platform for coordinating people, processes, and technology across complex environments. System access and operational details can be reviewed anytime using the link below.

The platform is designed to bring clarity, coordination, and control to situations where multiple systems and teams need to work together seamlessly.

If additional access permissions or configuration adjustments are needed, please reply to this email or contact the support team.

With heartfelt thanks,
Tye Hayes

SENTRAIS

USAGE GUIDELINES

Sentra's trademarks include the name and logo, as well as any designations that identify Sentra's products. These elements create a unique brand identity, ensuring recognition and consumer trust.

Please avoid modifying or using these trademarks in ways that could cause confusion, imply Sentra's sponsorship, or lead to mistaken identity with another brand. Misuse may mislead customers and harm our reputation.

We request that you follow our trademark usage standards, as outlined in our brand guidelines, to maintain brand integrity and avoid confusion.

You may not:

- Do not use logos or similar images representing Sentra's except as outlined in our Sentra's Brand Guidelines.
- Do not use Sentra's assets in place of your own — if you do not have a logo, please do not copy ours.
- Do not reproduce or obscure any part of the logo.
- Do not add special effects to the logo.
- Do not distribute or otherwise make our logos, marks, or assets available without permission.
