

SENTRAIS

The Standard for Global
Venue Resilience.

Unlocking **\$2.1B** in Value by Transforming
Chaos into Certified Readiness.

SERIES A INVESTMENT MEMORANDUM

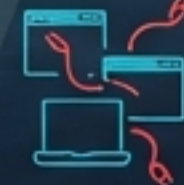

When Seconds Count, Venues Are Operating Blind.

73% of venues have no unified view of their operations. They rely on 14+ disconnected systems, forcing billion-dollar facilities to run on spreadsheets and radio calls. Disconnected agencies lead to delayed response. Innovation dies in silos. Reputation is risked every game day.

73%

No Unified View

14+

Disconnected Systems

\$2.1B+

Lost Annually to Sprawl & Fines

The Cost: Disconnected cities and innovation failure mean emergency response is delayed when it matters most.

Three Market Forces Creating Immediate Demand

The old methods aren't just inefficient; they are now uninsurable and non-compliant.

The Insurance Crisis

- Premiums up **40%**.
- Venues need certification to reduce costs.
- Sentrais certification = measurable risk reduction.

Federal Mandates

- Expanding DHS SEAR requirements make compliance non-negotiable.
- Non-compliance carries **severe penalties** and reputational risk.

The AI Gap

- Venues want AI, but lack the data infrastructure.
- Sentrais acts as the **"AI-Ready"** data layer, preparing venues for the future of security.

Context: Post-pandemic operations demand lean, resilient systems that traditional staffing cannot support.

Sentrais: Transforming Chaos into Certified Resilience.

The only intelligent operating system that integrates fragmented operations, enforces readiness, and orchestrates real-time response.

Validated by the Best: The NFL Standard.

The NFL didn't just buy a tool; they standardized their operations on Sentrais after extensive diligence.

\$6.3M

Total Contract Value

(\$600k Implementation + \$1.9M/Year x 3 Years)

Deployment Scope

1. MVP 1 (EVERGAME360): Sports Intelligence Dashboard across all 32 NFL Clubs.
2. MVP 2 (NFLiOS): White-labeled SIPE Engine for league-wide Innovation Orchestration.

\$1.9M ARR committed Feb 2026

Battle-Tested in Crisis: NCICC Command

New Orleans Critical Infrastructure Cyber Command (NCICC)

Coordinated **40+ agencies**
during Super Bowls and
critical infrastructure threats.

Sentrais provided the
operational intelligence that
enabled real-time
coordination, proving the
NIN Forensics Methodology
Methodology works under
extreme pressure.

40+

Agencies Coordinated

Super Bowls Managed

Zero Debt / \$5M

Founder Capital Deployed

A Category-Defining Moat.

The Gap We Fill

vs. Consultants (McKinsey/Deloitte):

They offer strategy without execution.

We offer the **Platform**.

vs. Point Solutions (Ticketing/Security apps):

They create vertical silos.

We offer **Unification**.

Defensibility Factors

1. **The Reference Customer:** The NFL contract creates a “standard” that competitors cannot replicate.

2. **Certification Authority:** By building the eVenue Certification Board, we define what “ready” means.

3. **Proprietary Tech:** SIPE Engine represents 4 years of R&D.

4. **Network Effects:** More certified venues = more benchmarking data.

An \$8.5B Market Hungry for Resilience.

Inter: MARKET OPPORTUNITY

Market Strategy: Targeting high-value sports & entertainment venues first due to immediate regulatory needs, then expanding to city infrastructure.

High-Efficiency Revenue Engine

Land and Expand

LAND
(Discover/Diagnose)

Single Venue Certification
(\$25k-\$100k).
High margin services.

EXPAND
(Design/Deploy)

Platform Subscription
(EVERGAME360).
80%+ Margin SaaS.

ENTERPRISE
(Scale)

League-wide adoption
(NFL Model).
\$1M+ contracts.

Target NRR: 120%+ | Gross Margin: 70-80% | Avg Contract Value: \$425k - \$900k

Scaling via Partners, Insiders, and Insurance

Founder-Led Enterprise

Closing the "Whales" (Leagues) directly.

The Agent Network

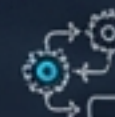

Commission-only (8-15%) industry insiders and former league execs. Low CAC.

The Insurance Channel

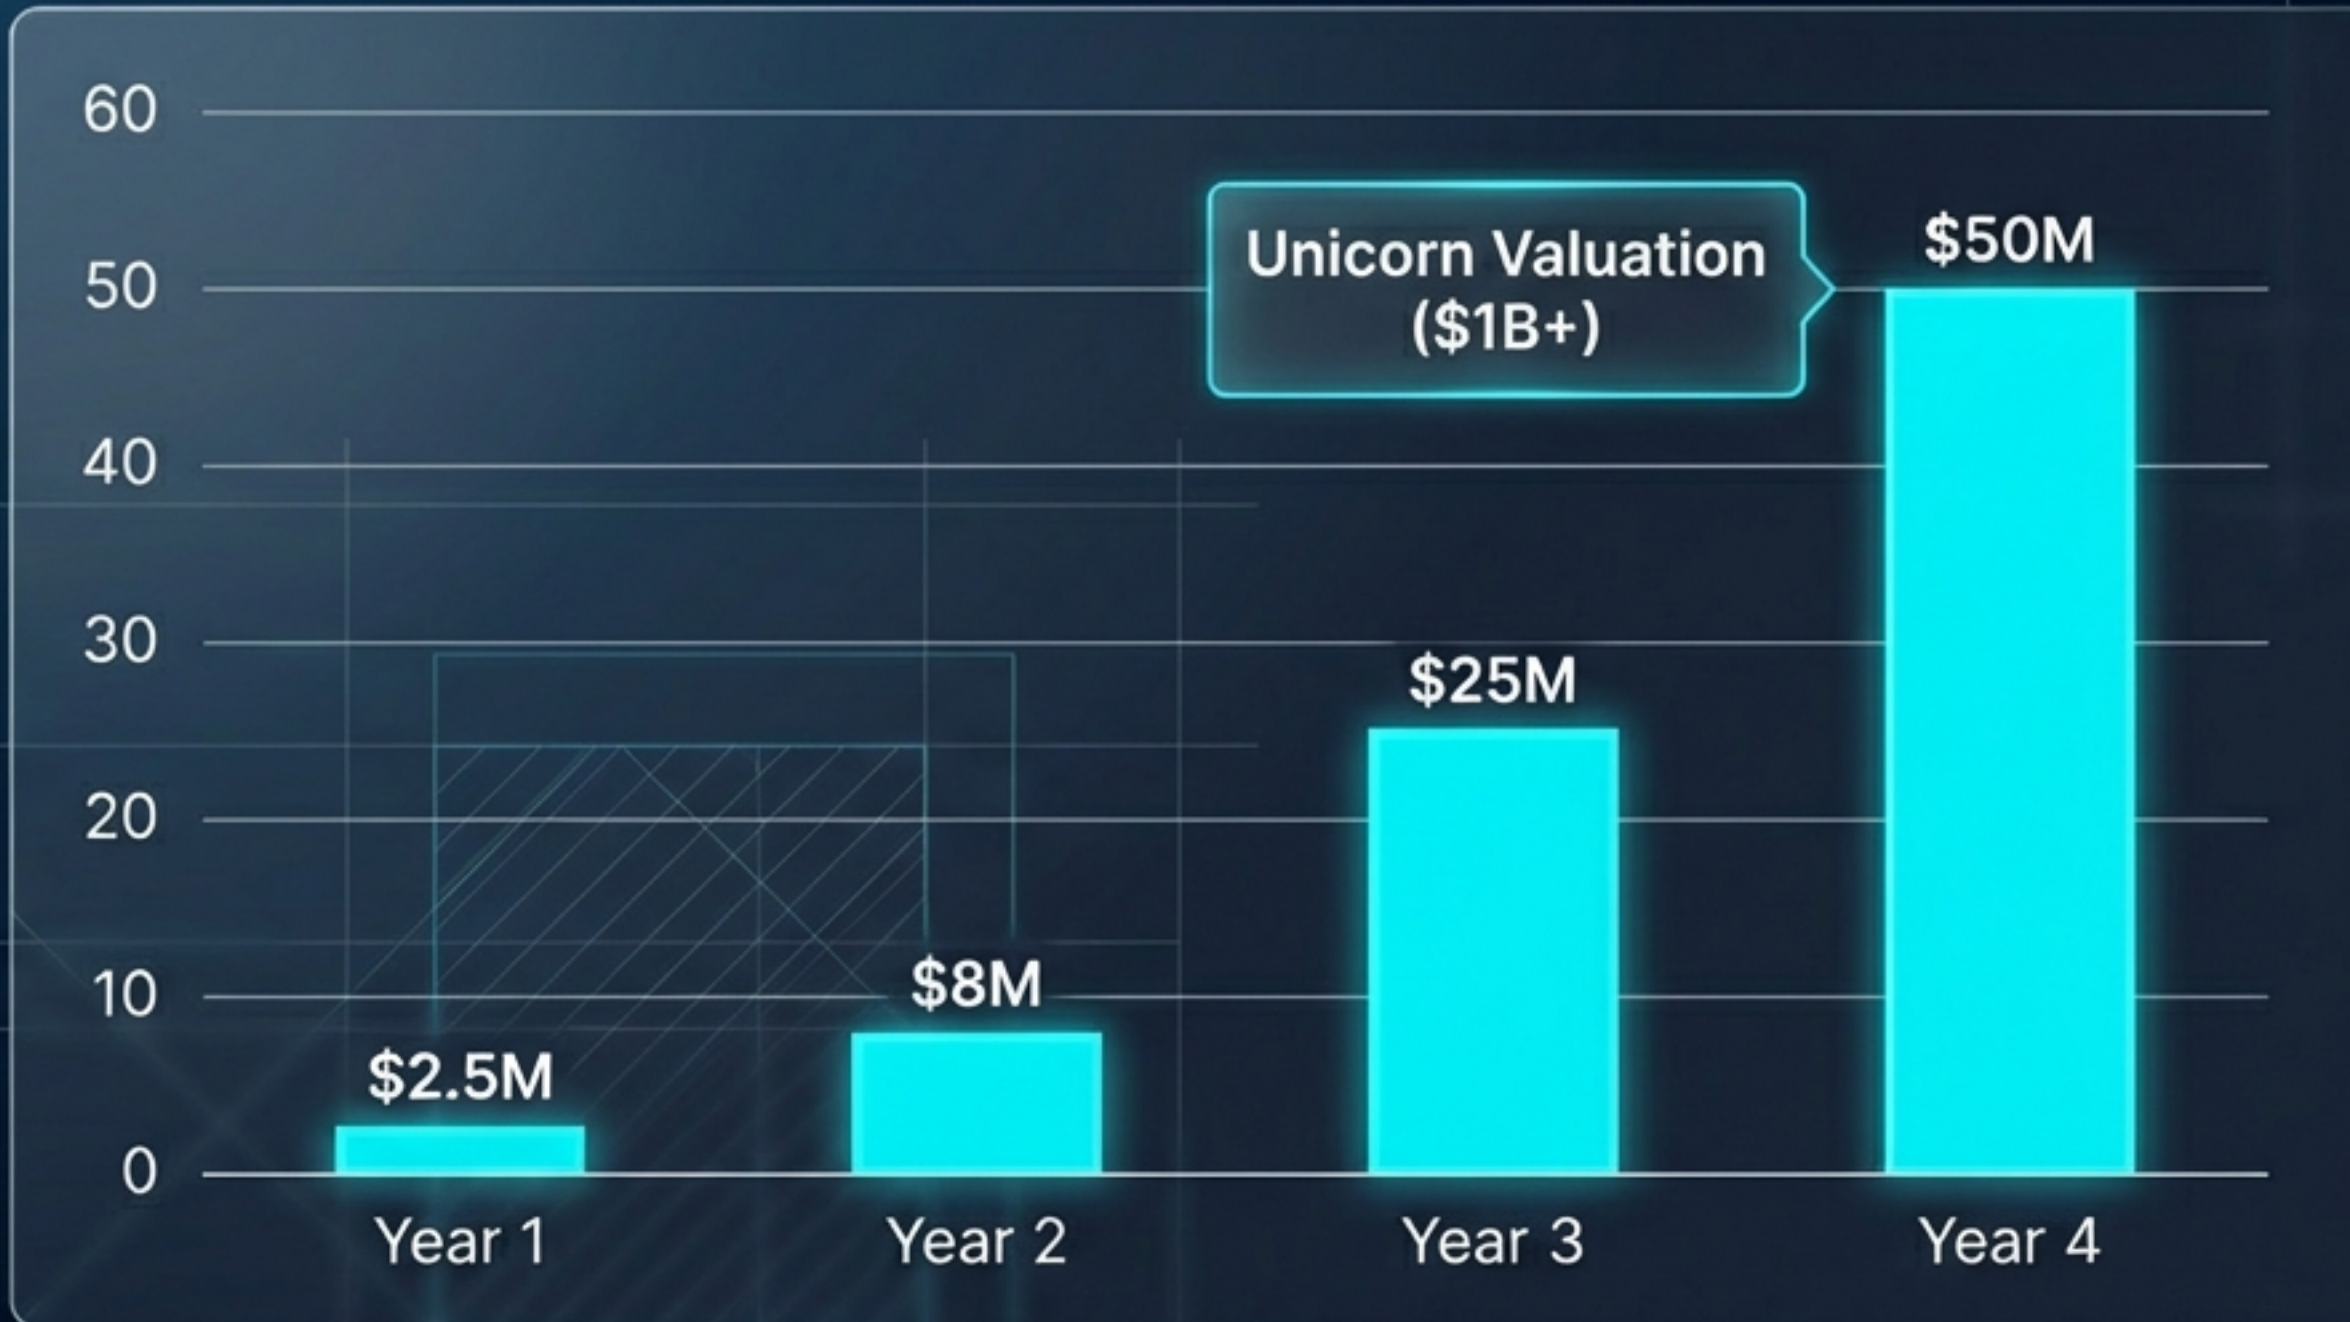

Brokers push Sentrais to lower their clients' premiums.

Automation First

Leveraging n8n workflows. Keeping fixed FTEs low (20-29) while scaling variable resources (100+).

Path to \$50M ARR and Unicorn Valuation

Profitability:

Break-even at
~\$15M ARR.

Efficiency: Burn
under 2x by
Year 2.

Drivers: \$500k
Avg Contract, 3x
YoY Growth.

Built by the Authority on Resilience.

Tye Hayes (CEO)

- Managed resilience for **4 NFL Super Bowls**.
- Led **NCICC Command** (40+ agencies).
- **Architect** of NFL Innovation.

“The **proven authority** who lived the problem and built the **solution**.”

Strategic Hires (Use of Funds)

- **CPO**: Scale platform roadmap.
- **CTO**: Architecture & Security.
- **CRO**: Sales & Partnerships.

Advisors

Industry titans in Sports, GovTech, and Enterprise SaaS.

Series A Investment Opportunity

The Deal

Raising: **\$12-15M**

Valuation: **\$50-80M**
Pre-money

Runway: **24+ Months**

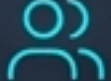

Use of Funds

- **45%** Team Expansion
- **25%** Platform Development
- **20%** Sales/Marketing
- **10%** Operations

Milestones Unlocked

 **\$8M** ARR (Month 18)

 **35+** Customers

 **3** New Leagues Signed

 **50+** Venues Certified

Investor Fit: Seeking partners with expertise in Enterprise SaaS, Sports, or GovTech.

Building the Global Standard for Resilience.

Building the category-defining platform that certifies every venue, game, and city as resilient.
