

STRATEGIC GROWTH & ECOSYSTEM APPROACH

Operationalizing the NFL Win for Federal,
Municipal, & Partner Expansion

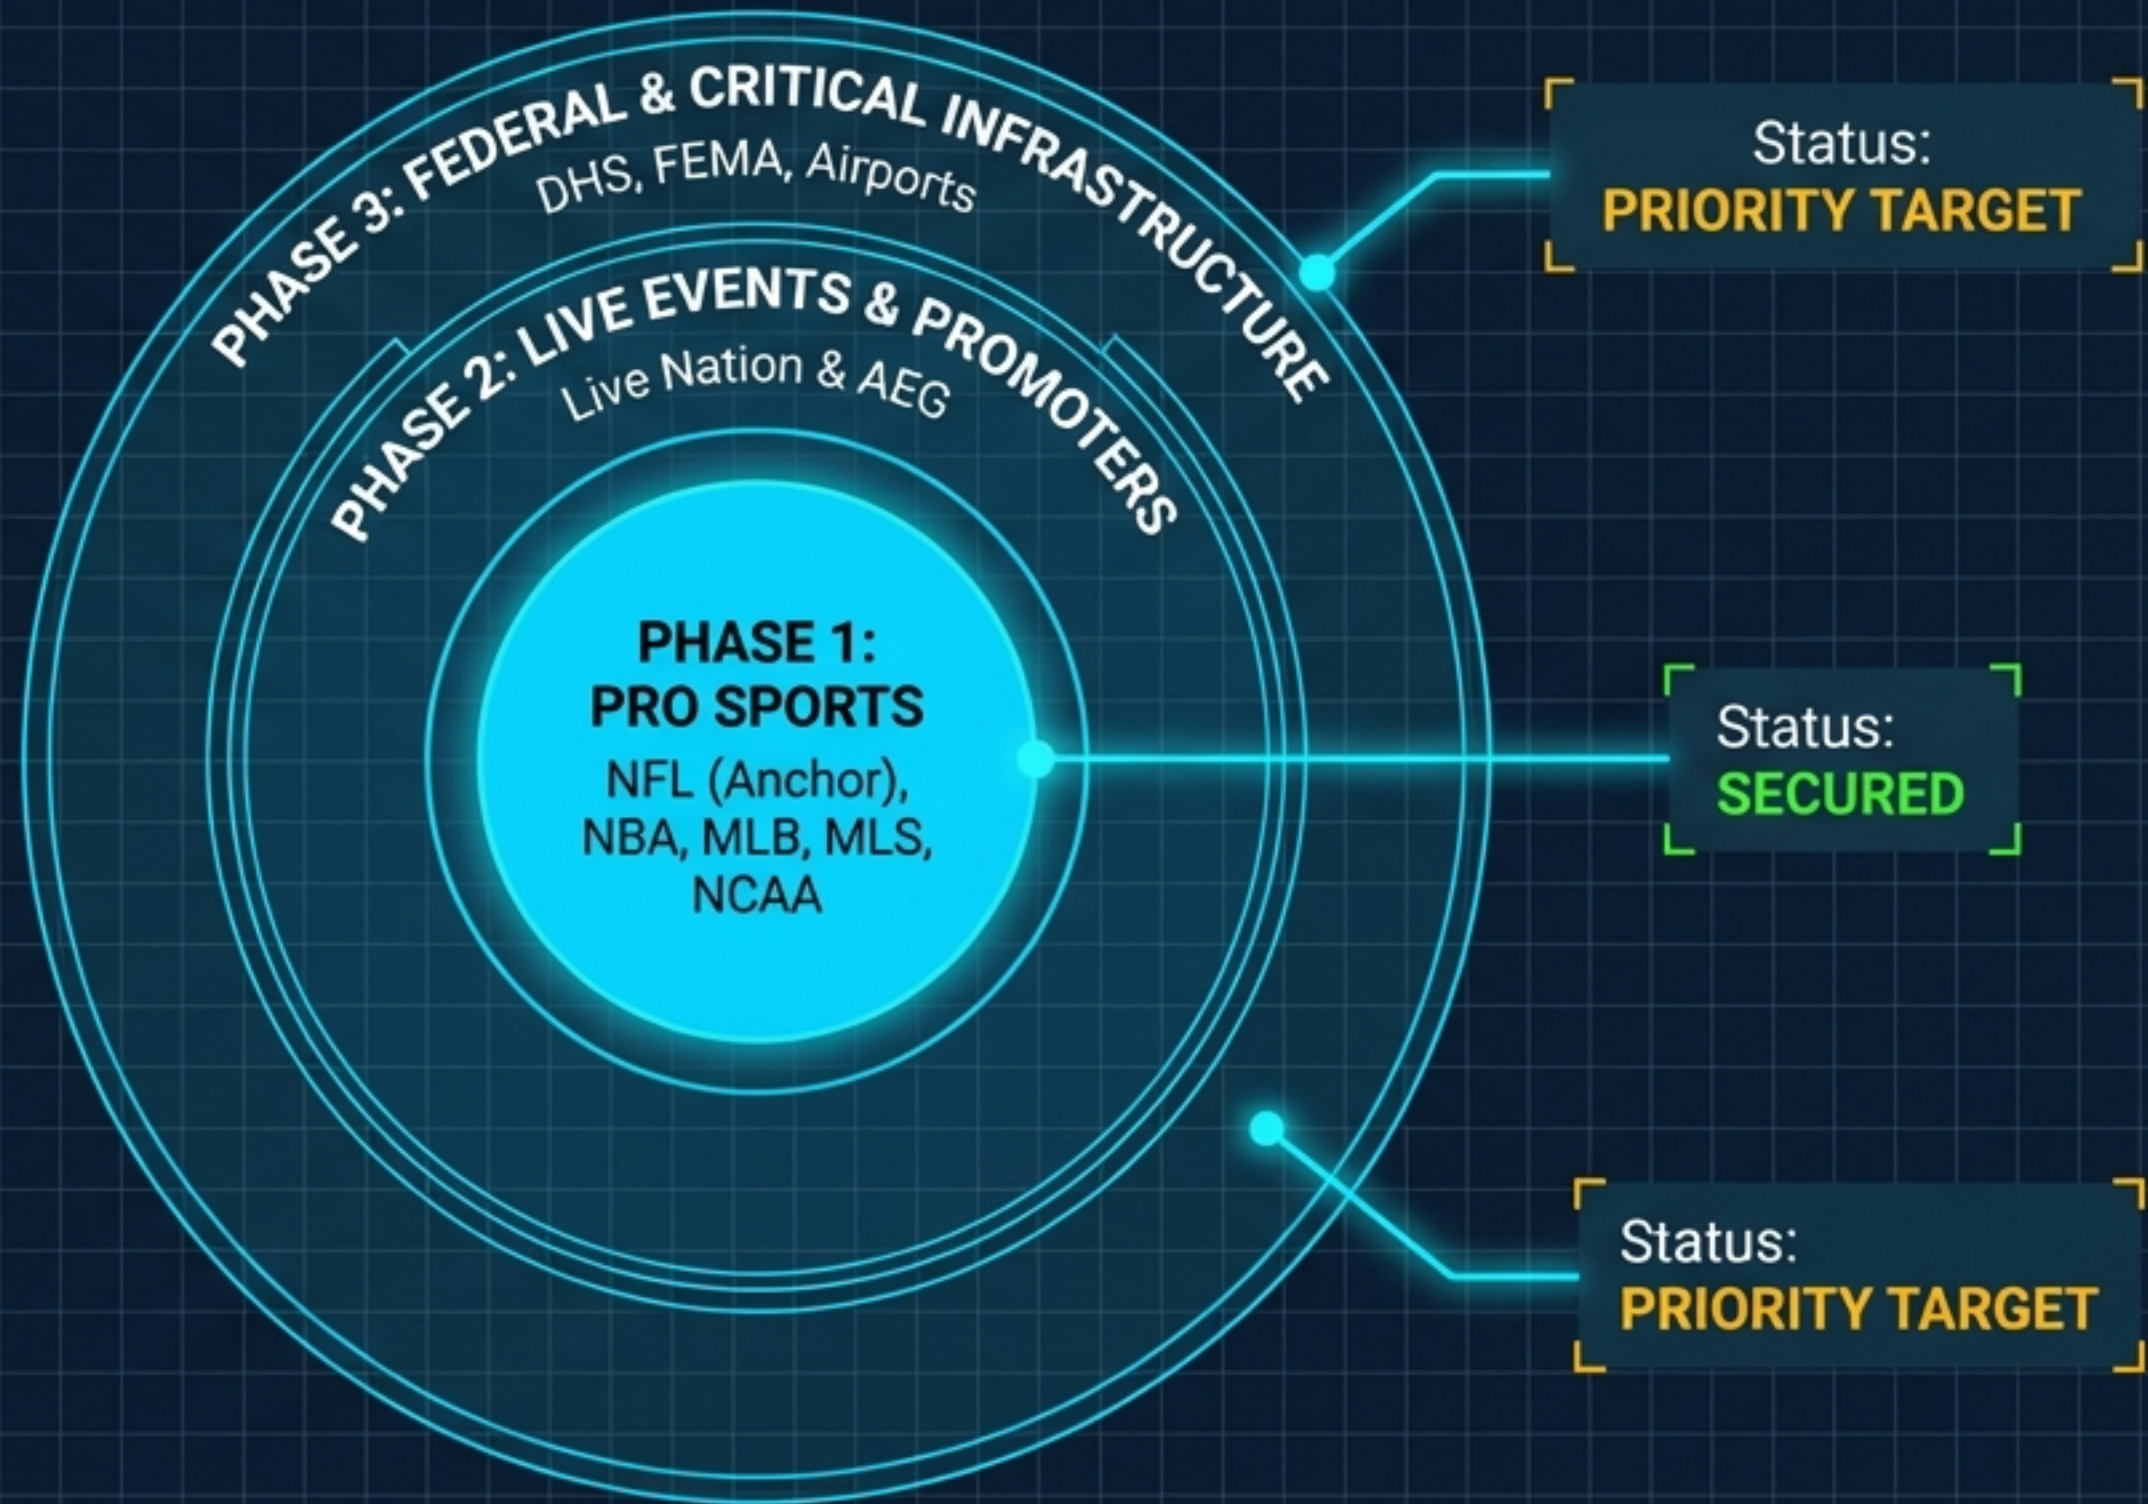

THE “LAND & EXPAND” GROWTH ARCHITECTURE

The Core (Secured): NFL Anchor.
Validated in the most demanding
live environment on earth.

Expansion Ring 1 (In Progress):
Live Events & Venues (eVenu).
Leveraging the mandate to capture
asset owners.

Expansion Ring 2 (Priority Target):
Host Cities & Federal Infrastructure
(CiviGrid/SEAR).
Using the “SEAR Bridge” to move
from commercial games to national
safety.

THE ANCHOR: VALIDATING THE “GOLD STANDARD”

SoFi
Stadium

32 CLUBS

Live League-Wide

**ZERO
DOWNTIME**

Super Bowl Tested

\$6.3M

Contract Value

725%

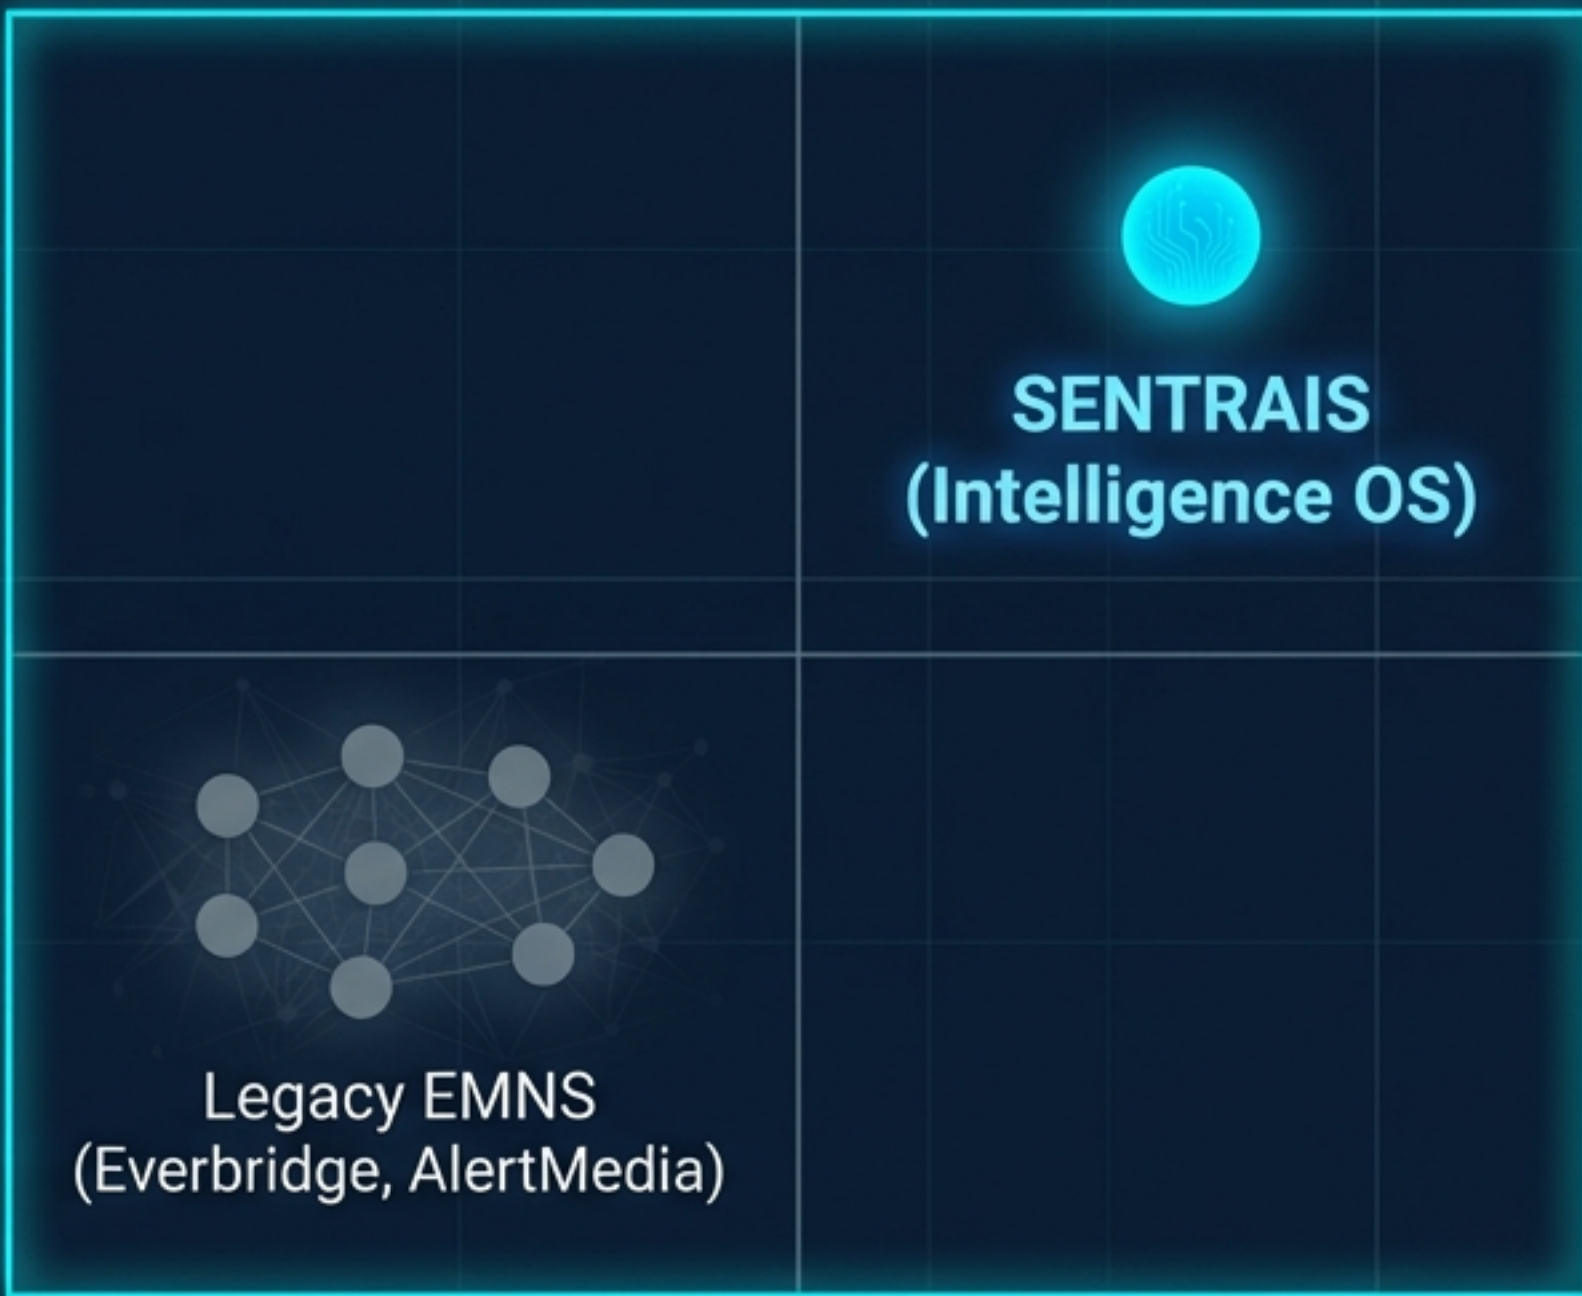

First-Year ROI

THIS AI IS ALREADY OPERATING
WHERE FAILURE IS NOT AN OPTION.

MARKET POSITIONING: LEADER IN A BLUE OCEAN

Revenue &
Resilience

Emergency Only

Manual/Reactive

Predictive AI

DIFFERENTIATION

We do not just send alerts.
We optimize revenue.

While legacy providers focus
on the tactical act of
notification, Sentrais focuses
on the strategic mandate of
Revenue Optimization.

EXPANSION VECTOR 1: VENUES & INFRASTRUCTURE (eVenu)

THE FRAGMENTATION TRAP

THE IMPACT

\$2M – \$4M

**ANNUAL REVENUE
LEAKAGE PER VENUE**

Losses driven by traffic bottlenecks, fan-flow inefficiencies, curfew penalties (\$75k), and VIP leakage.

67% OF INCIDENTS DRIVEN BY COORDINATION FAILURE

EXPANSION VECTOR 2: HOST CITIES & SEAR EVENTS (CiviGrid)

EVERGAME

League & Sports Ops.
Focus: Game readiness & compliance.

eVenu

Venue & Infrastructure.
Focus: Event execution & vendor coordination.

CiviGrid

Civic & Multi-Agency (R&D).
Focus: City coordination & SEAR resilience.

THE SEAR BRIDGE: NEW ORLEANS CRITICAL INFRASTRUCTURE CYBER COMMAND

Sentrais provided the multi-agency blueprint for the Super Bowl, connecting Police, Fire, DOT, and DHS.
Outcome: A replicable 'SEAR Playbook' for World Cup 2026 and LA28.

EXPANSION VECTOR 3: THE FEDERAL PRIORITY (FEMA/DHS)

CREDENTIAL: Designed by a U.S. Navy Officer, Validated by the NFL, Ready for FEMA.

TECH PARTNER STRATEGY: THE GOOGLE CLOUD PIVOT

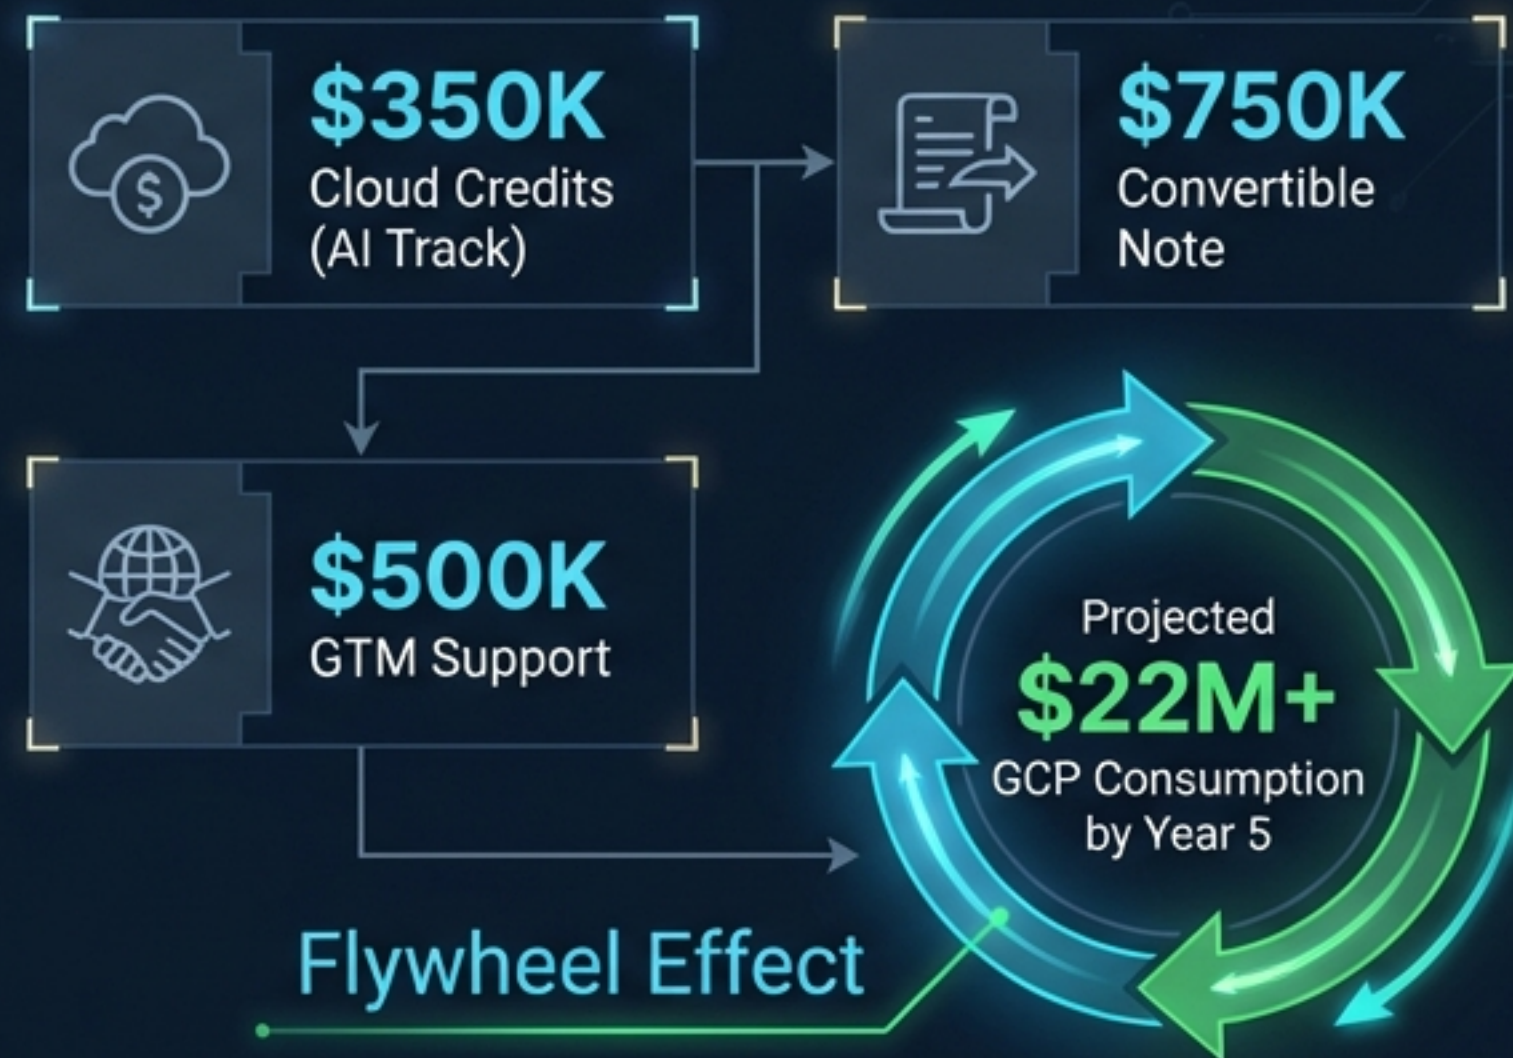

The Gap

Why Google? (Not AWS)

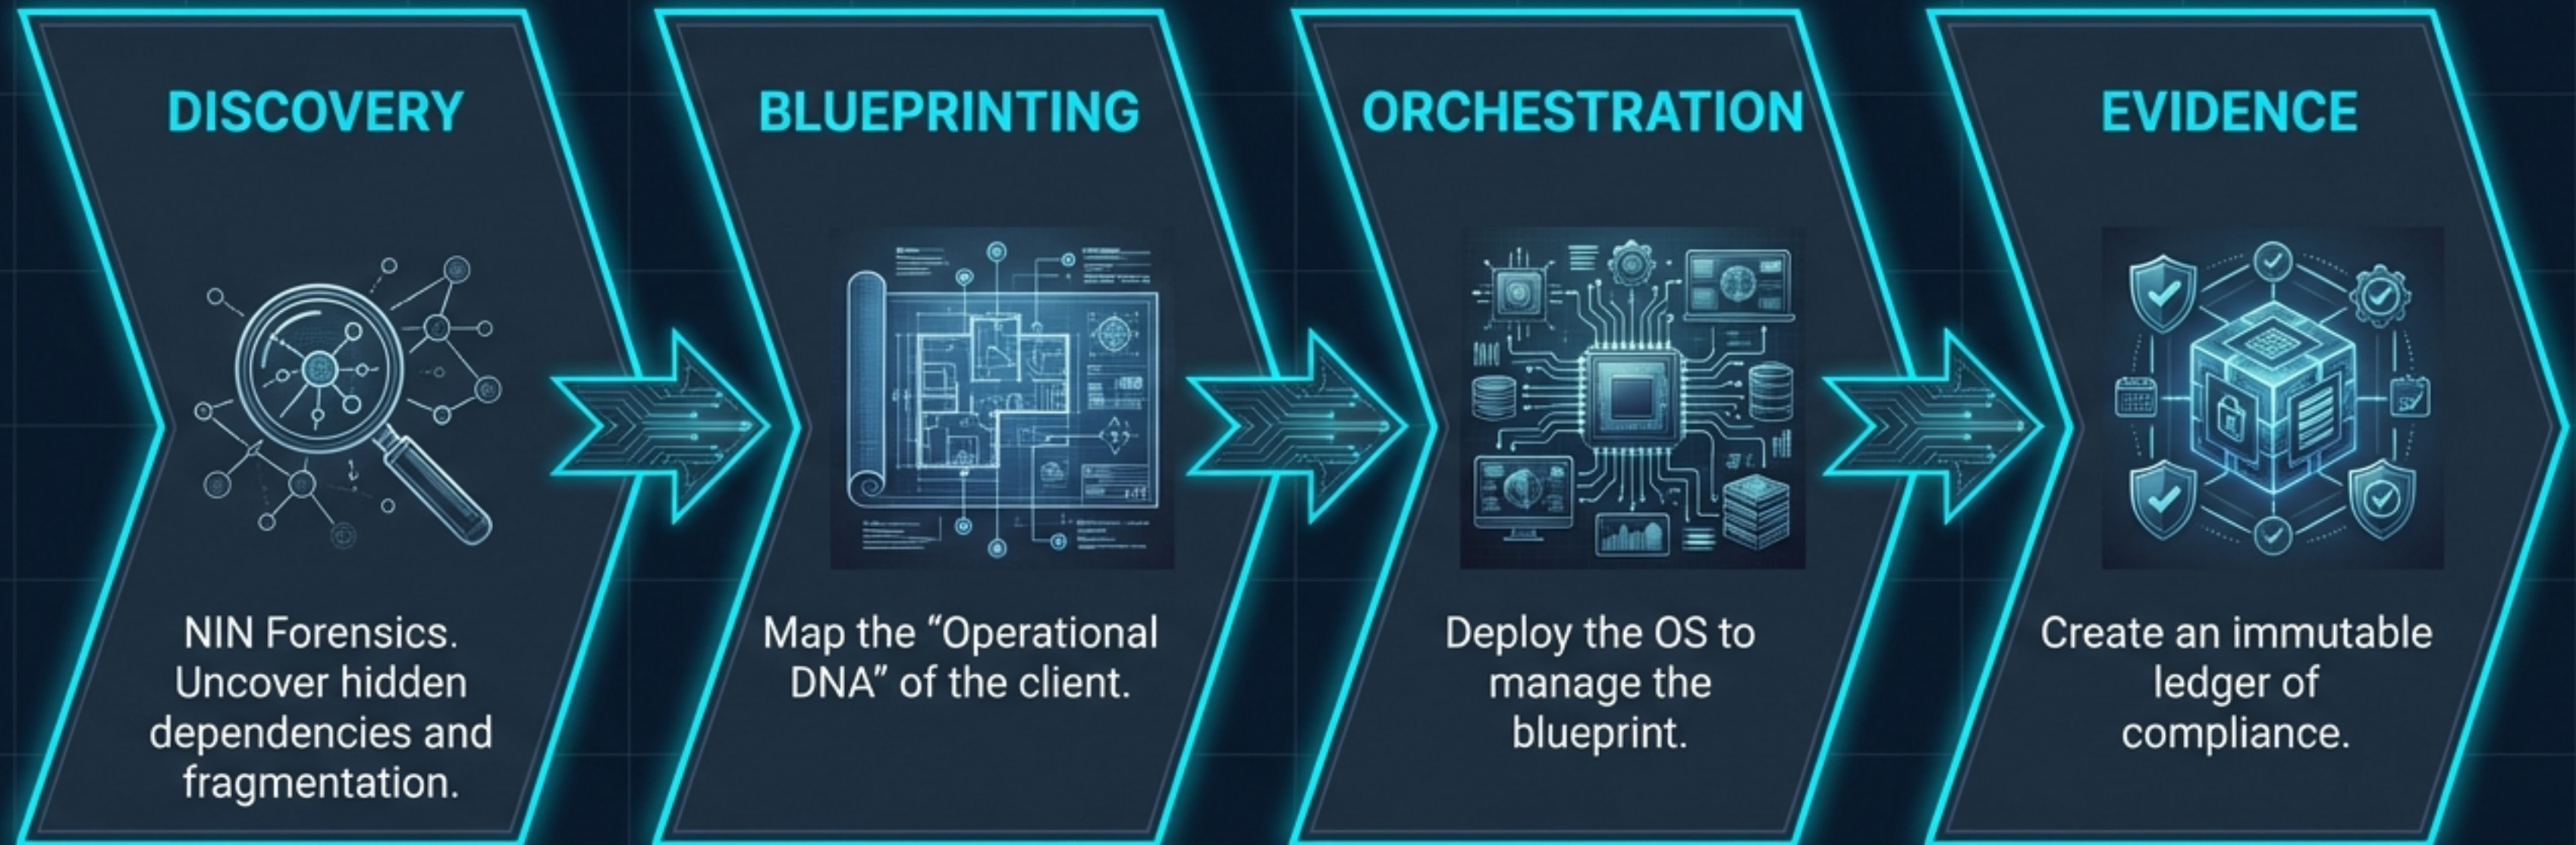

- LA28 Official Cloud Provider but lacks an Operations Layer.
- Needs to beat AWS in Sports/Public Sector.
- Infrastructure wins bids; Intelligence wins events.

The Ask

\$1.6M Strategic Partnership

ENGAGEMENT METHODOLOGY: NIN FORENSICS

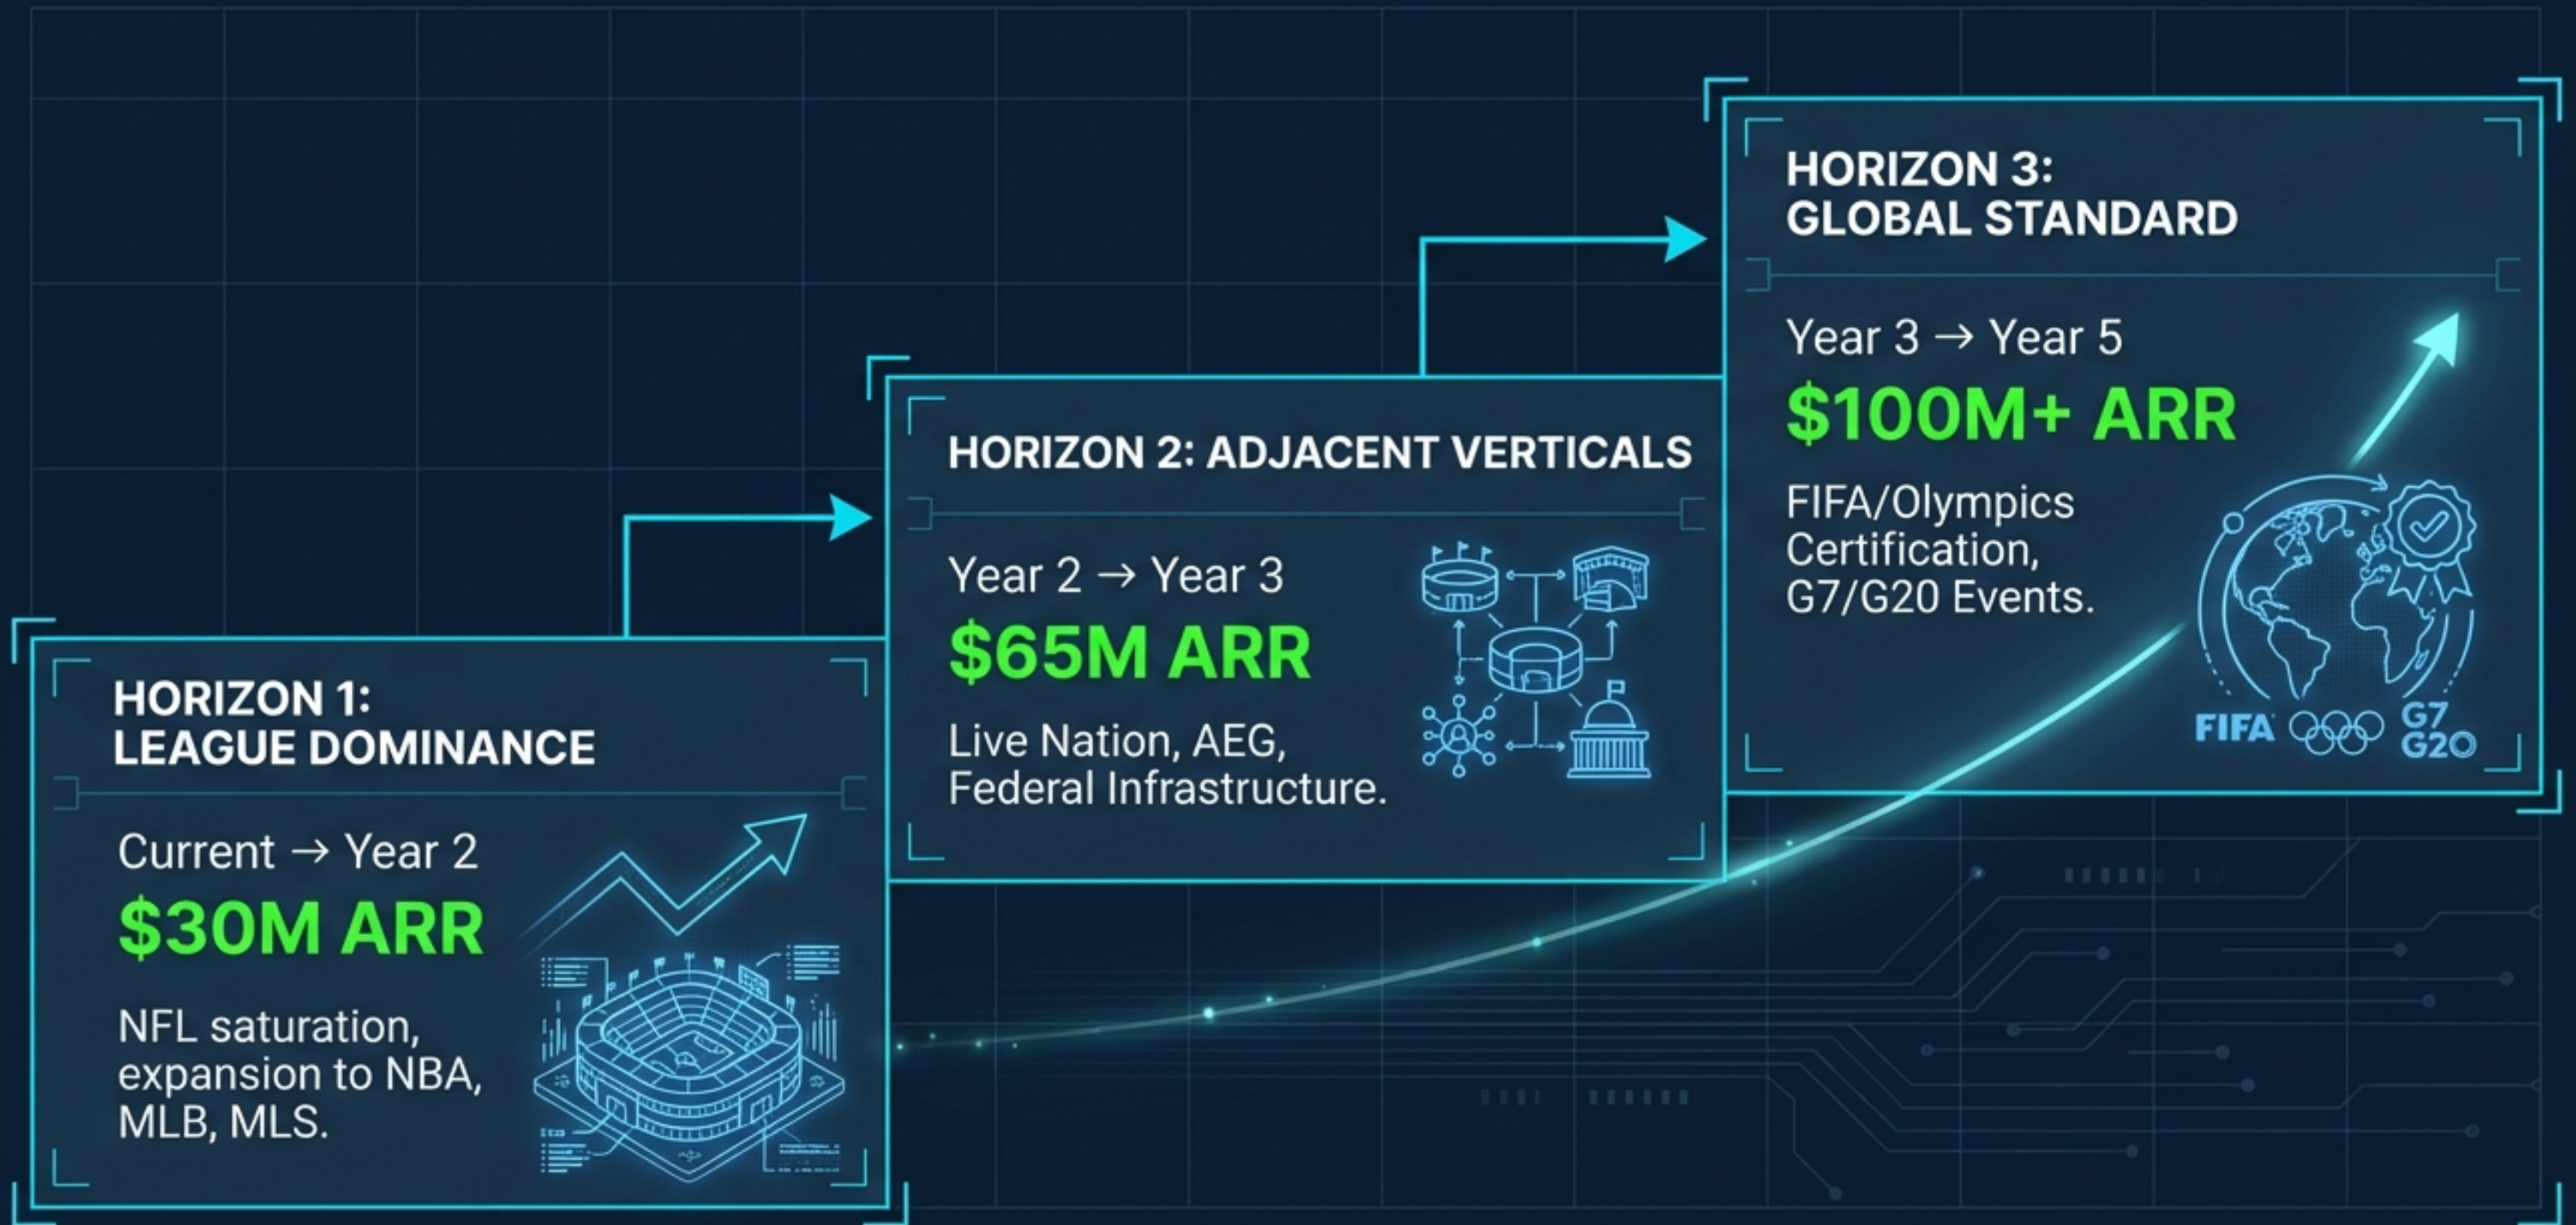

STRATEGIC VALUE: The Evidence Ledger creates high switching costs, moving us from a vendor to a **Strategic Partner**.

NARRATIVE CONTROL SYSTEM: ONE PLATFORM, DISTINCT DIALECTS

AUDIENCE	THE NARRATIVE HOOK
LEAGUES (Evergame)	Compliance & Standardization. "Game-day readiness."
VENUES (eVenu)	Revenue Optimization & Uptime. "Stop the \$75k fines."
CITIES / FEDS (CiviGrid)	Safety, Interoperability, & Risk. "Shared operational picture."
GOOGLE CLOUD	Sticky Workloads & AI Consumption. "Gemini validation."

RULE: You never explain the same thing twice in the same way.

GROWTH TRAJECTORY: THREE-HORIZON MODEL

EXECUTIVE ROADMAP: IMMEDIATE ACTION PLAN (30-60-90)

30 DAYS (SOLIDIFY)

- Solidify NFL expansion.
- Initiate Google Cloud partnership discussions.
- Finalize Federal "White Paper" for FEMA.

60 DAYS (TARGET)

- Target upcoming Host Cities for Super Bowl/World Cup.
- Engage FEMA/CISA with "SEAR Readiness" capability statement.

90 DAYS (CLOSE)

- Close "Land and Expand" deals in 3 major venues.
- Formalize the Federal pipeline.

OPERATIONS GENERATE DATA. WE GENERATE INTELLIGENCE.
