THE THREE-ENTITY ARCHITECTURE

KEY INSIGHT

This structure separates **AUTHORITY** (Sentrais) from **EXECUTION** (NOVATELabs.ai) and **RESEARCH** (NOVATELabs.org).

Sentrais retains architectural authority on all engagements. Tech execution is exclusive to NOVATELabs.

ENTITY 1: SENTRAIS CORPORATION (THE GOVERNOR)

+ ROLE DEFINITION

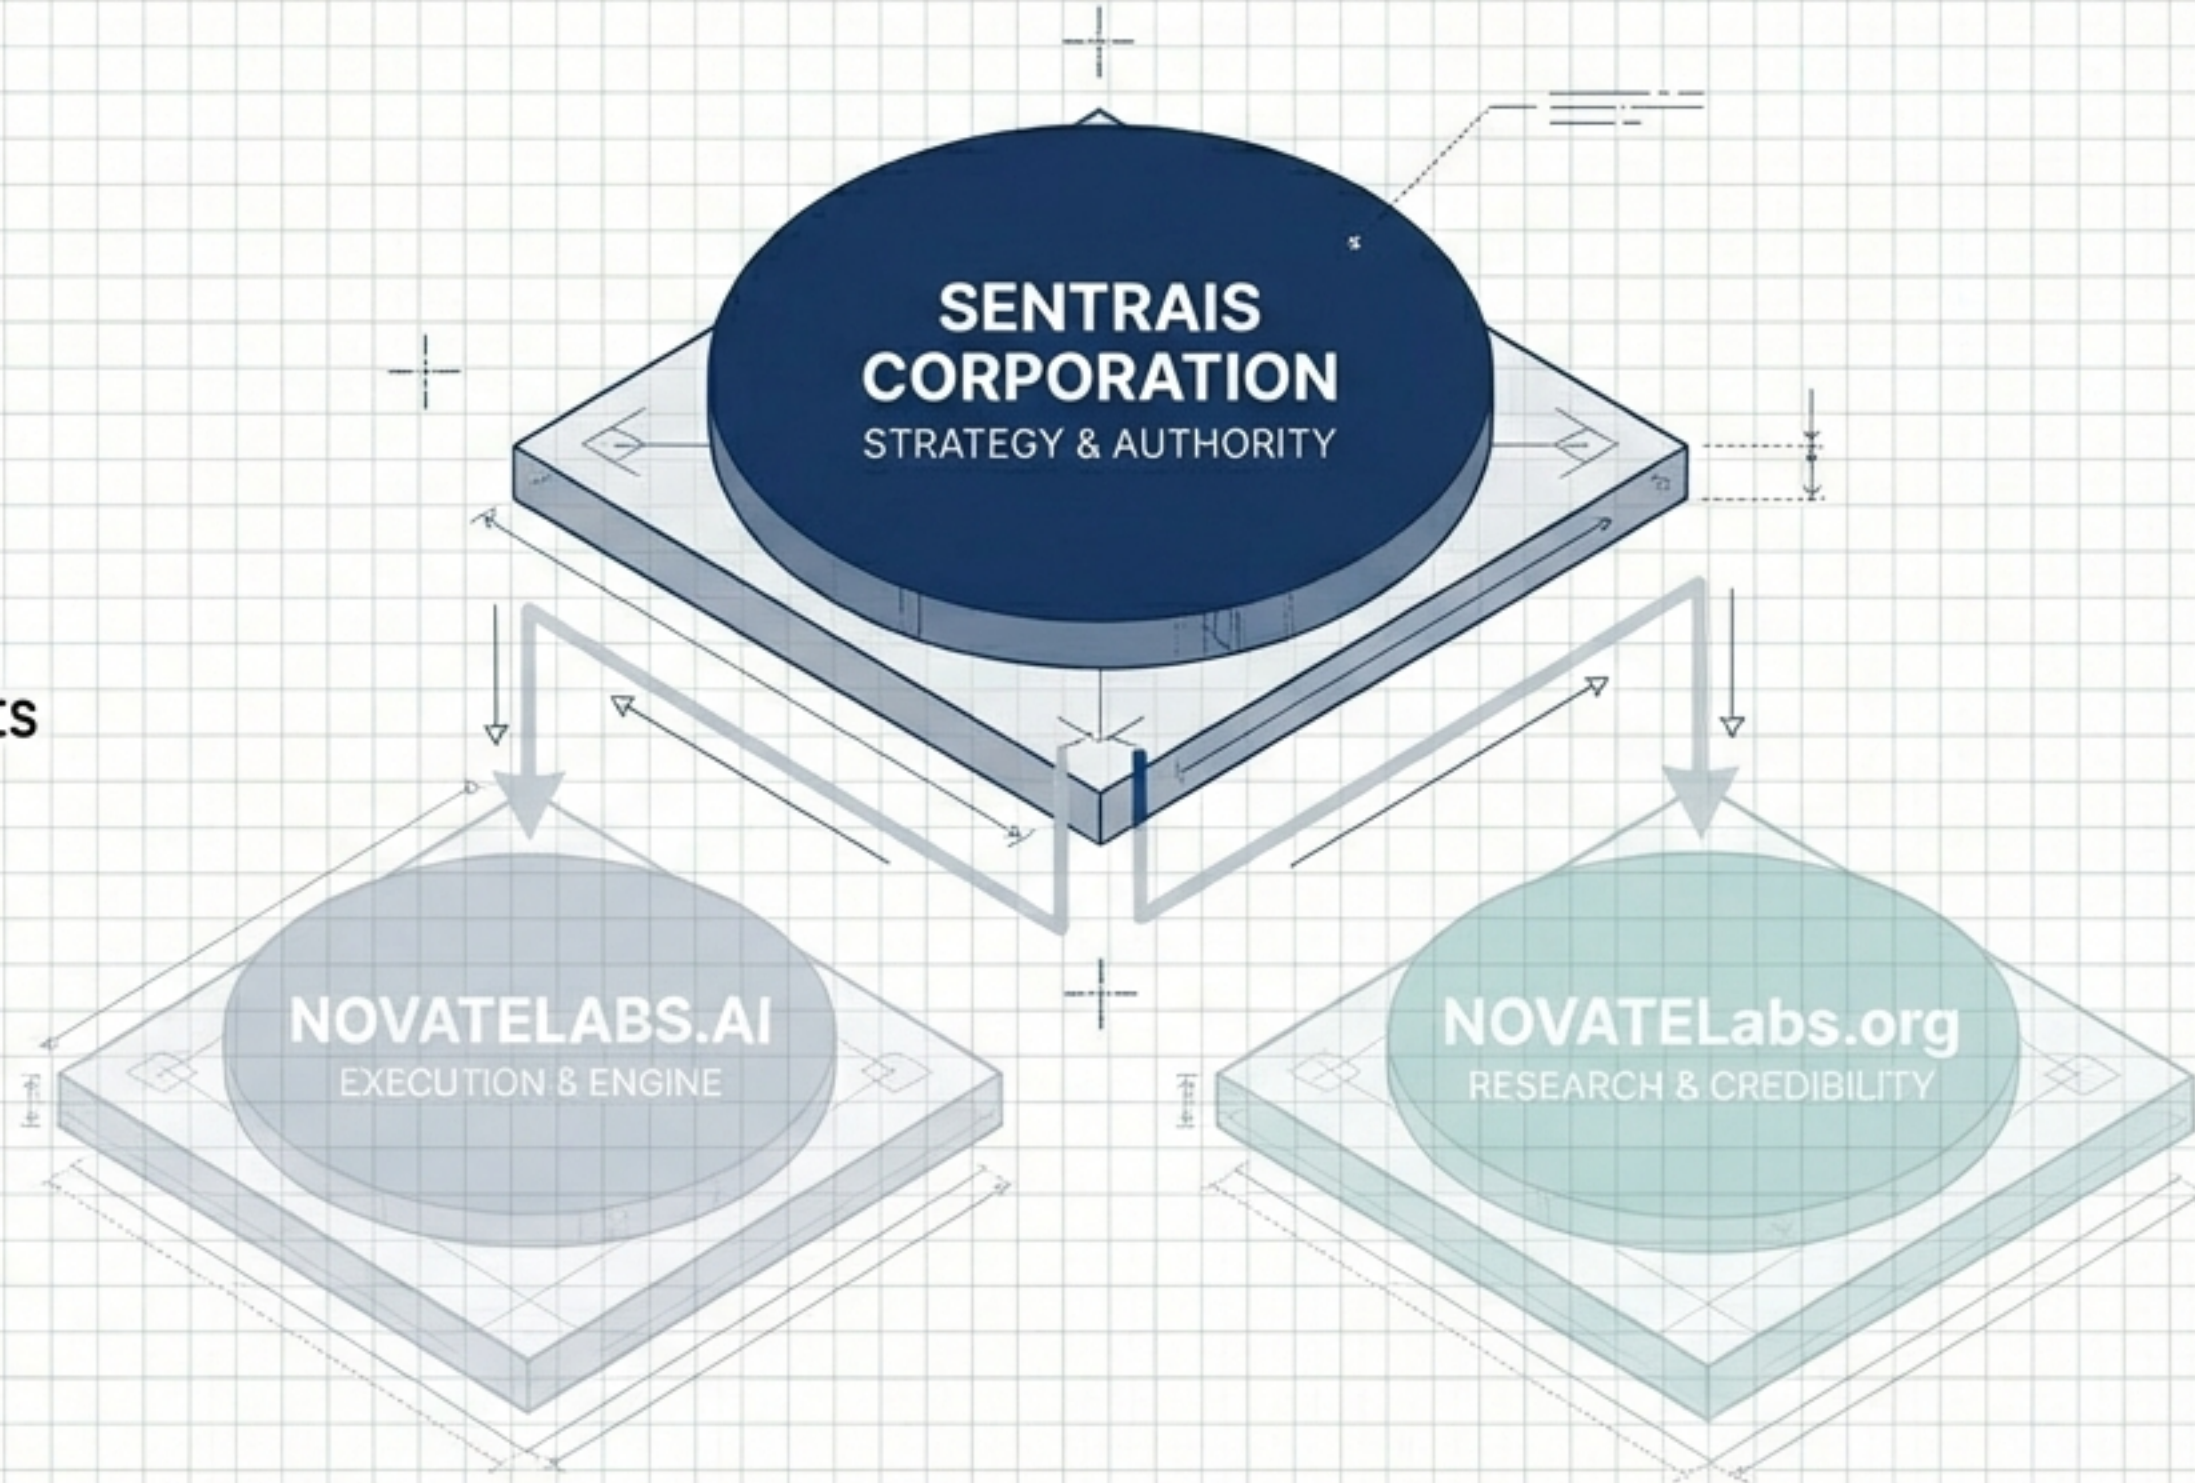

Parent company, market-facing authority, and contracting entity.

+ OWNERSHIP SCOPE

- Brand identity & commercial contracts
- Platform licensing
- Enterprise and league relationships
- Strategic partnerships

Warning

OPERATIONAL CONSTRAINT: Sentrais sets strategy and controls market access. It does not execute engineering directly.

ENTITY 2: NOVATELABS.AI (THE ENGINE)

ROLE DEFINITION

Technology execution, platform engineering, and managed services.

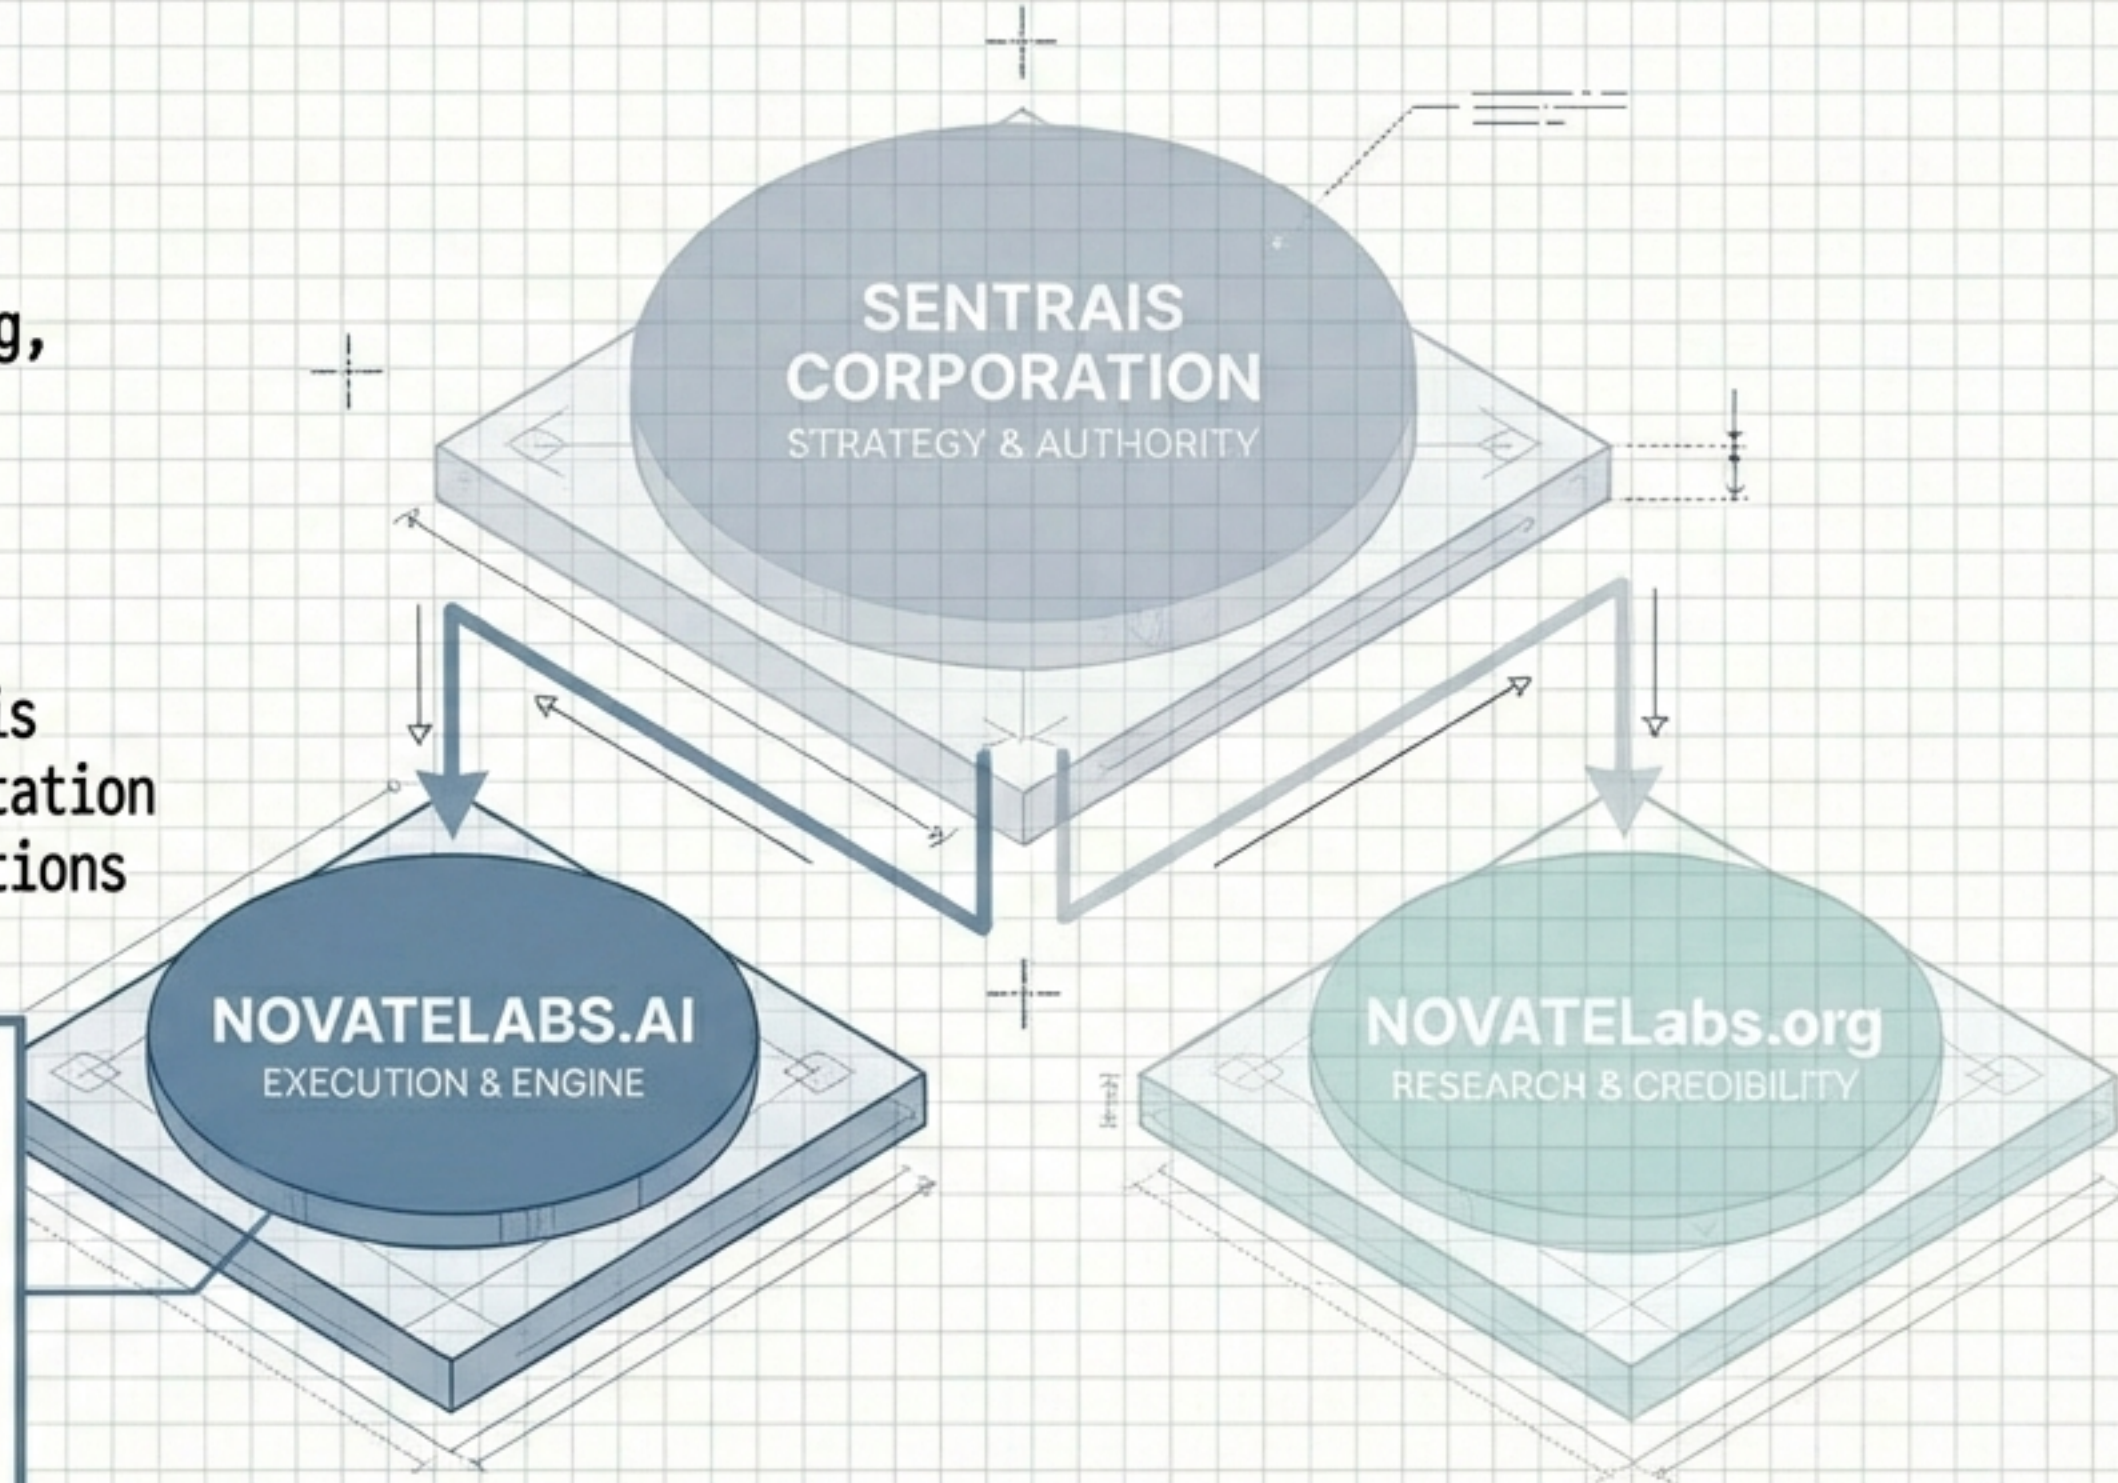

OWNERSHIP SCOPE

- Exclusive technical execution for Sentrais
- All infrastructure and security implementation
- AI model execution and live system operations
- NFL technical delivery (alongside Meta)

THE META RELATIONSHIP

NFL contracts are supported by a blended delivery team (Sentrais + NOVATELabs.ai + Meta), with Sentrais retaining architectural authority.

"All technology flows through NOVATELabs.ai. Sentrais governs. NOVATELabs.ai executes."

ENTITY 3: NOVATELABS.ORG (THE LAB)

ROLE DEFINITION

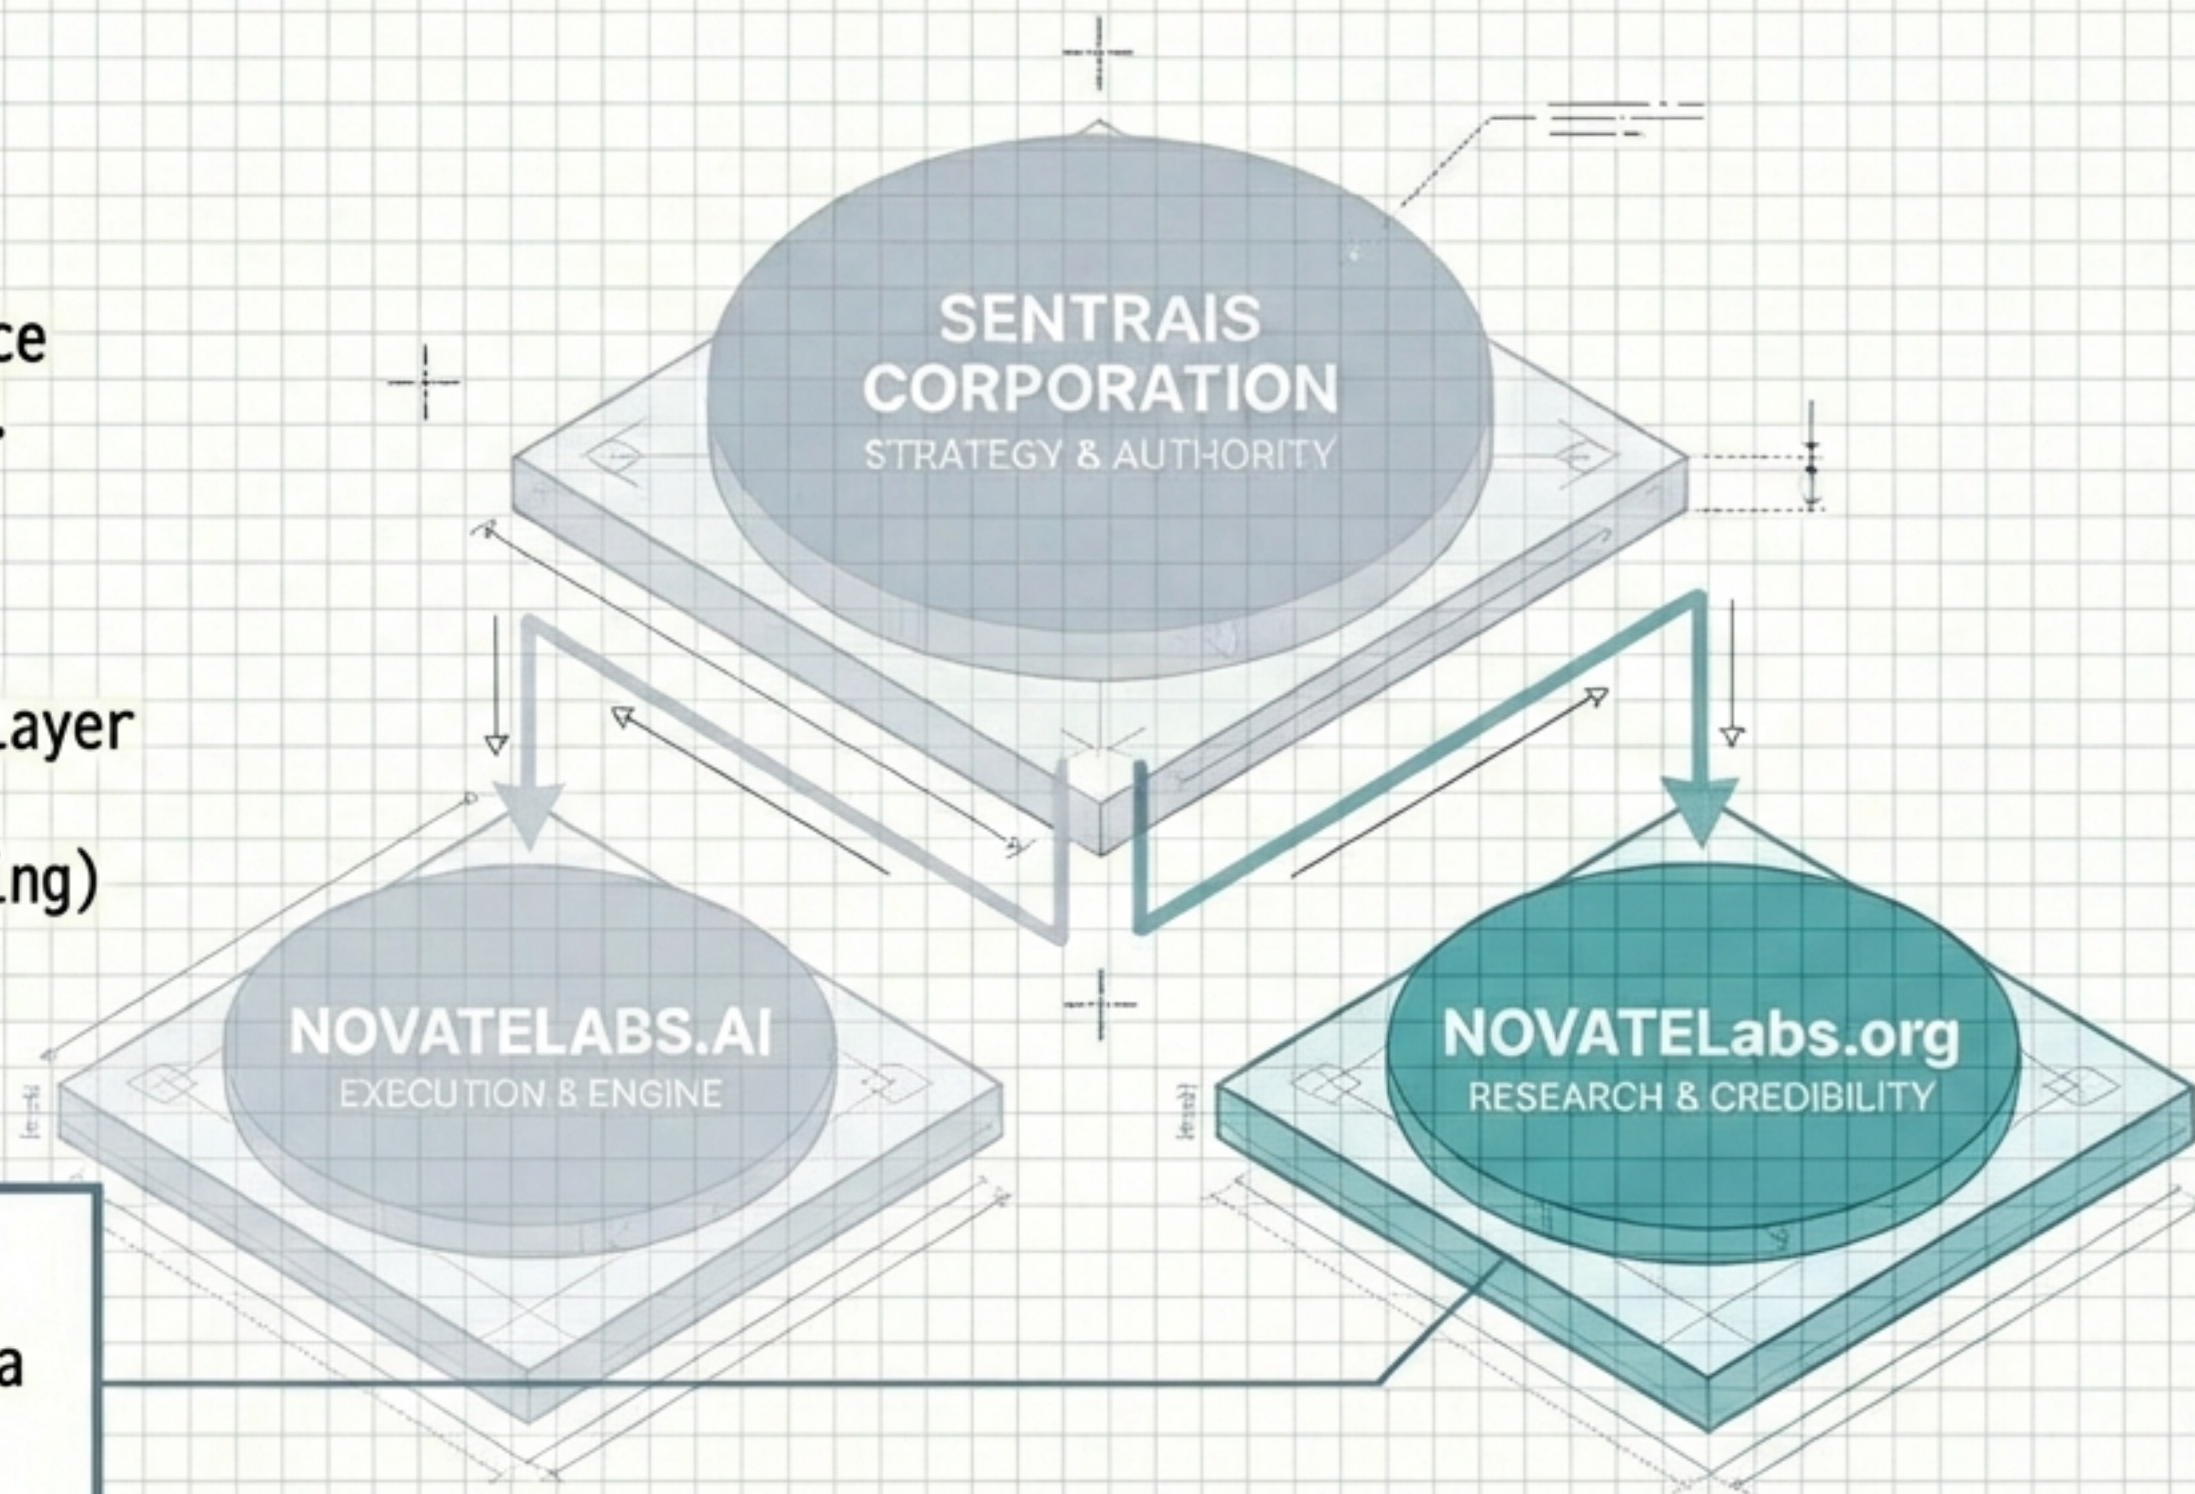

Research, Blueprint360 POCs, workforce development, and federal credibility.

OWNERSHIP SCOPE

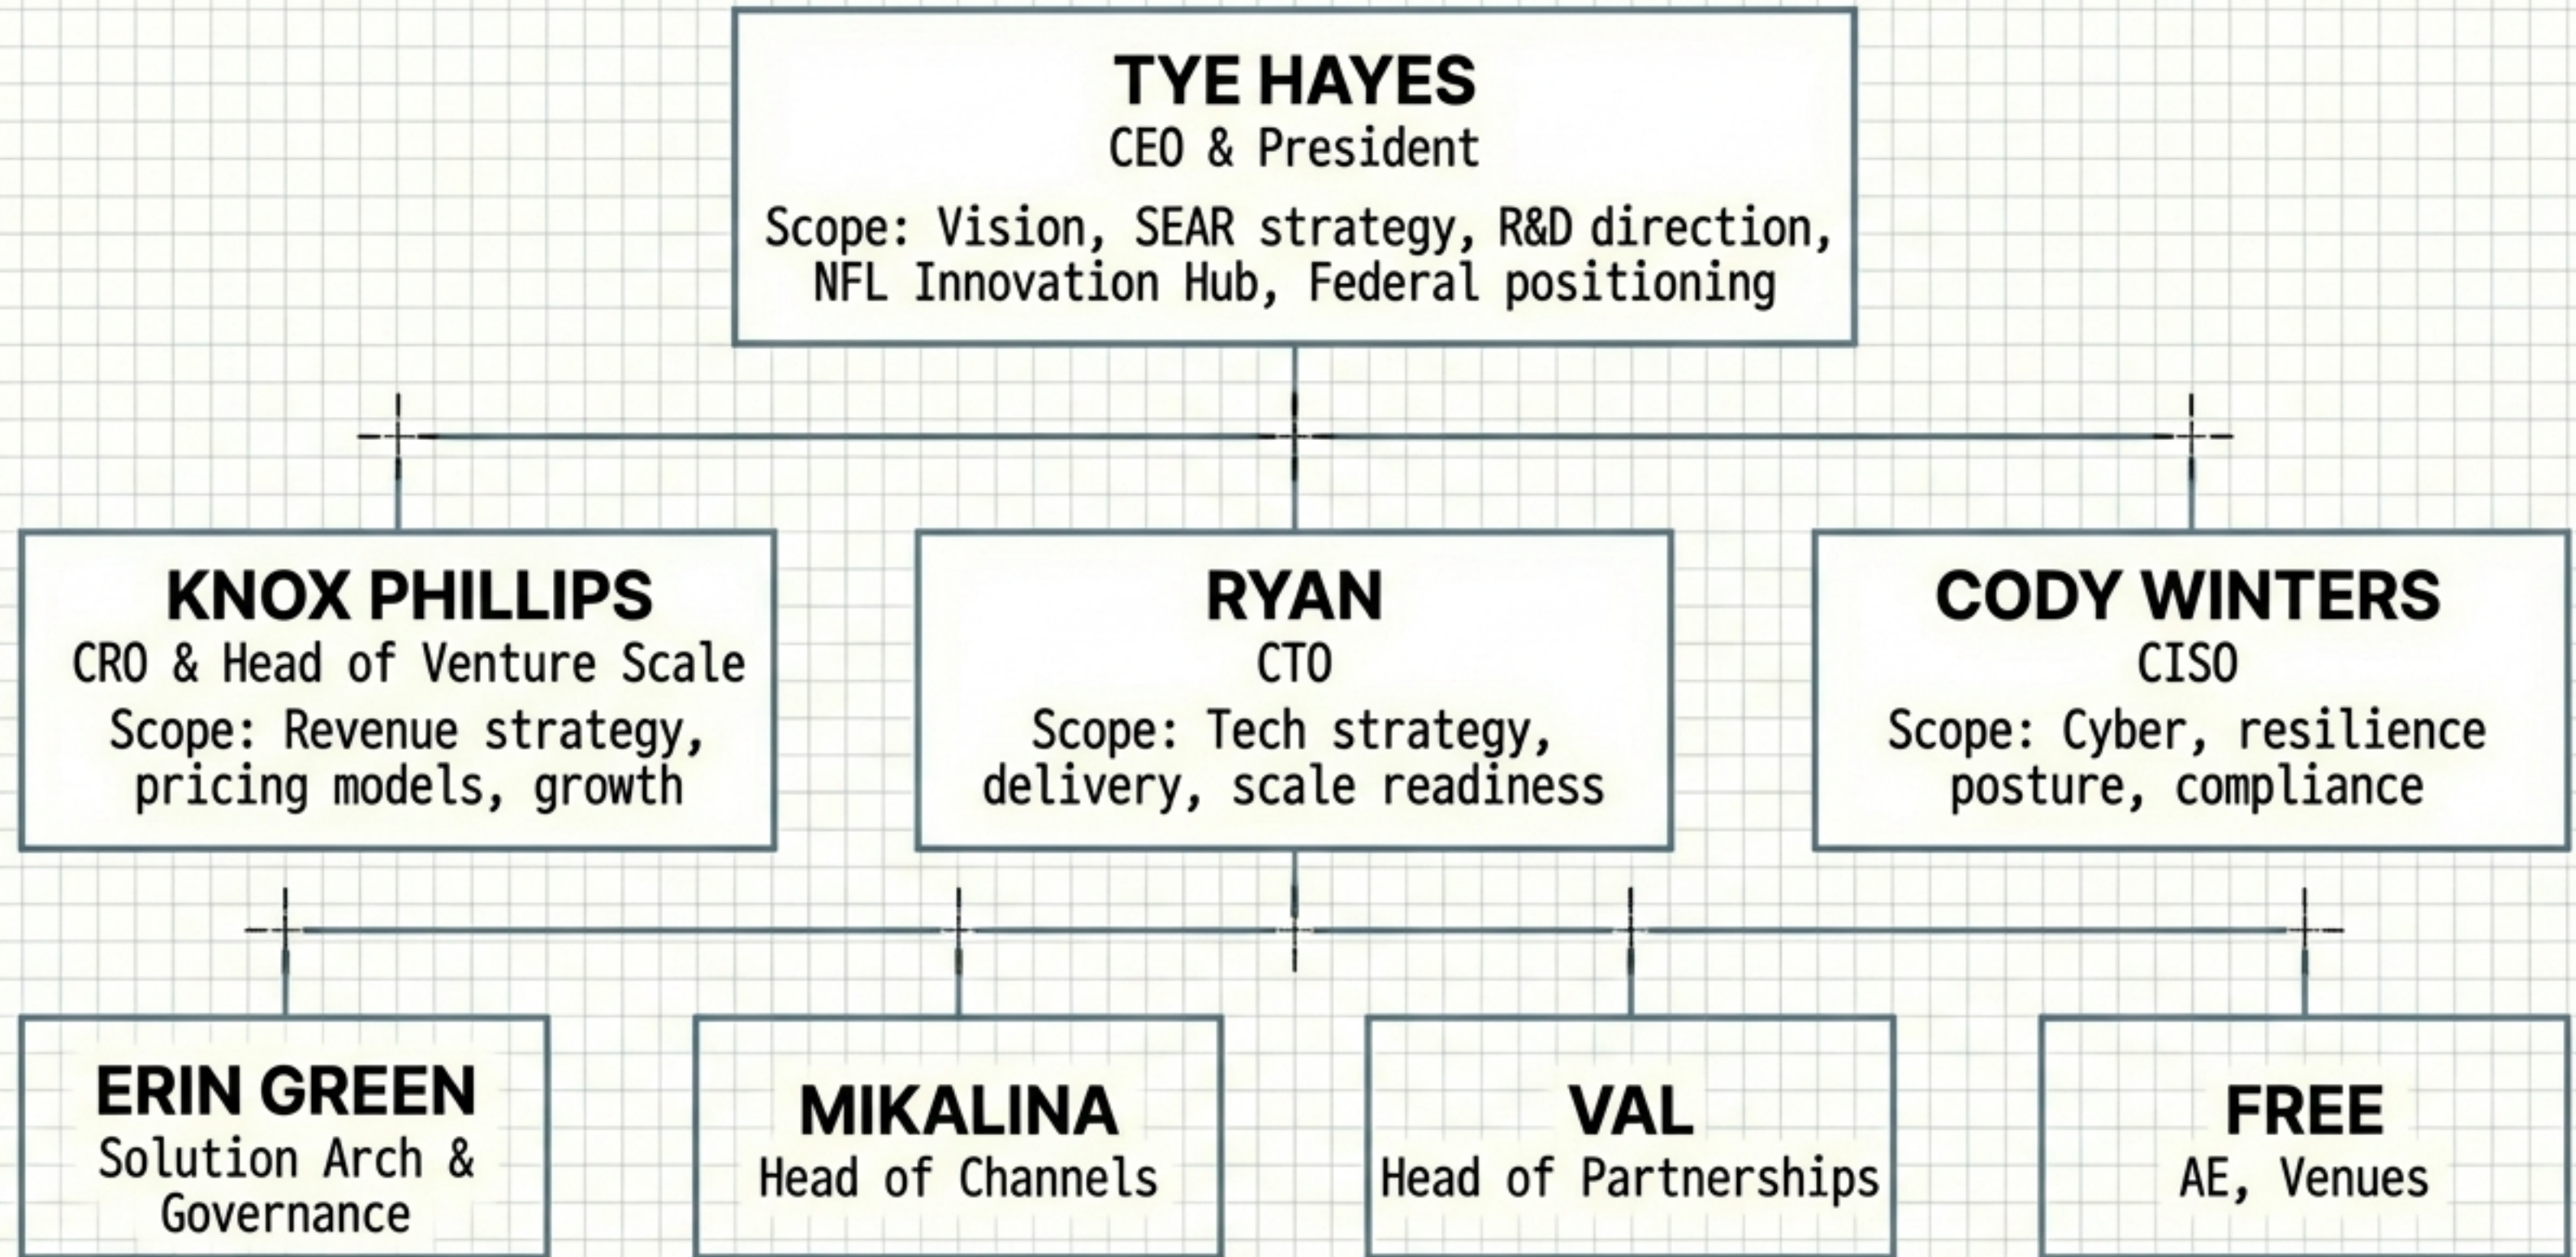

- R&D Engine and Blueprint360 proof layer
- Federal and Academic interface
- SEAR (Special Event Assessment Rating) research and readiness lab
- FEMA/DHS research tracks and Host City readiness studies

GOVERNANCE & CONTROL PRINCIPLES

REVENUE VS. DELIVERY

KNOX PHILLIPS:
Revenue Ownership

RYAN:
Delivery Execution

SIGNED ENGAGEMENTS:
Joint Authority

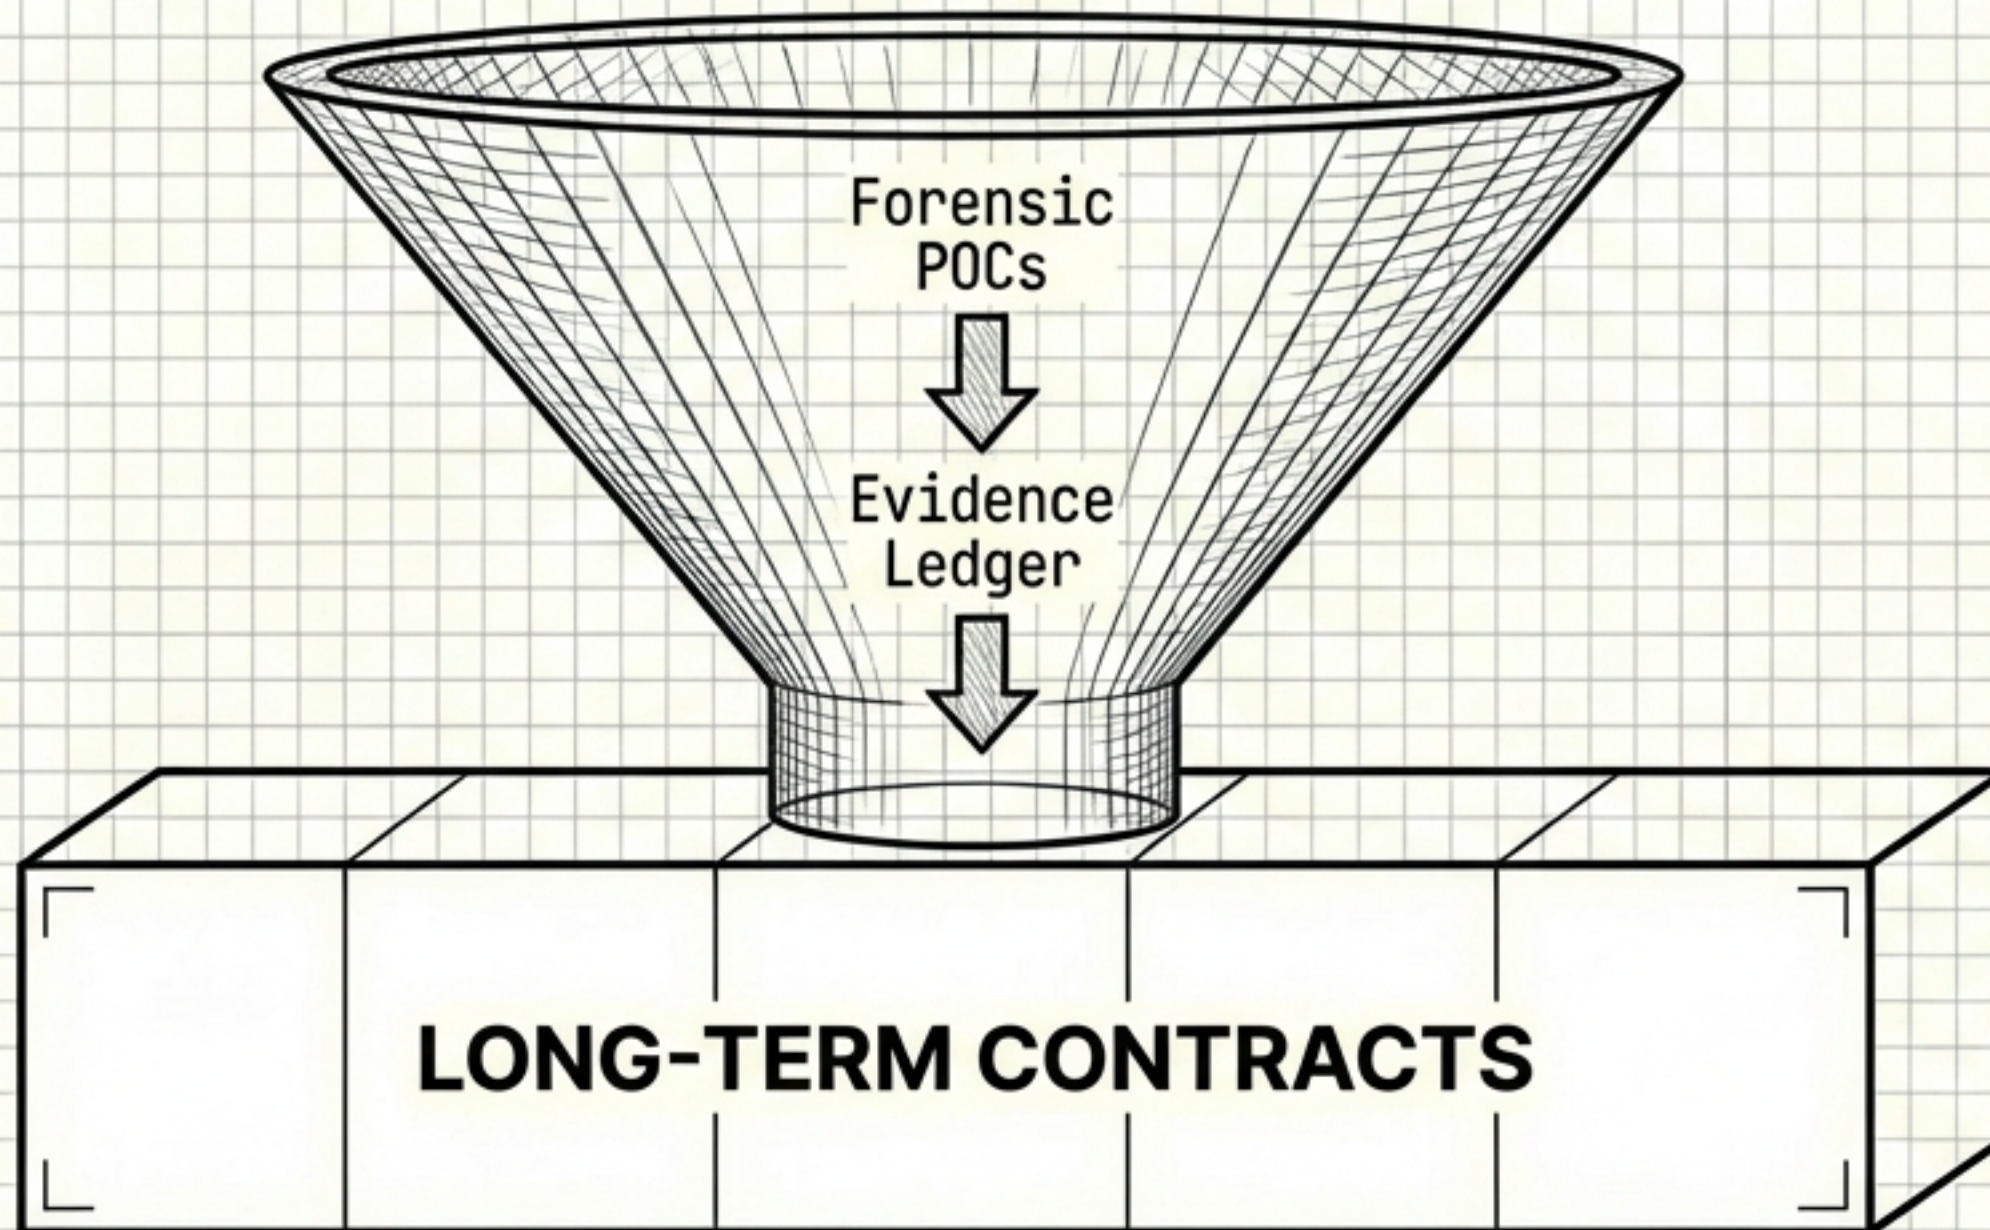

THE TWO-HEADED LEADERSHIP MODEL

Designed for scale with clear accountability.

Sentrais retains architectural authority on all engagements, regardless of execution by NOVATE Labs.

THE CORE ENGINE: BLUEPRINT360

BLUEPRINT360 (THE ONLY ENTRY POINT)

THE MANDATE:

Blueprint360 is the only entry point.

METHODOLOGY:

POCs are forensic investigations, not product demos.

POCs feed the Evidence Ledger.

THE TARGET:

30 Blueprint360 POCs live by end of calendar year.

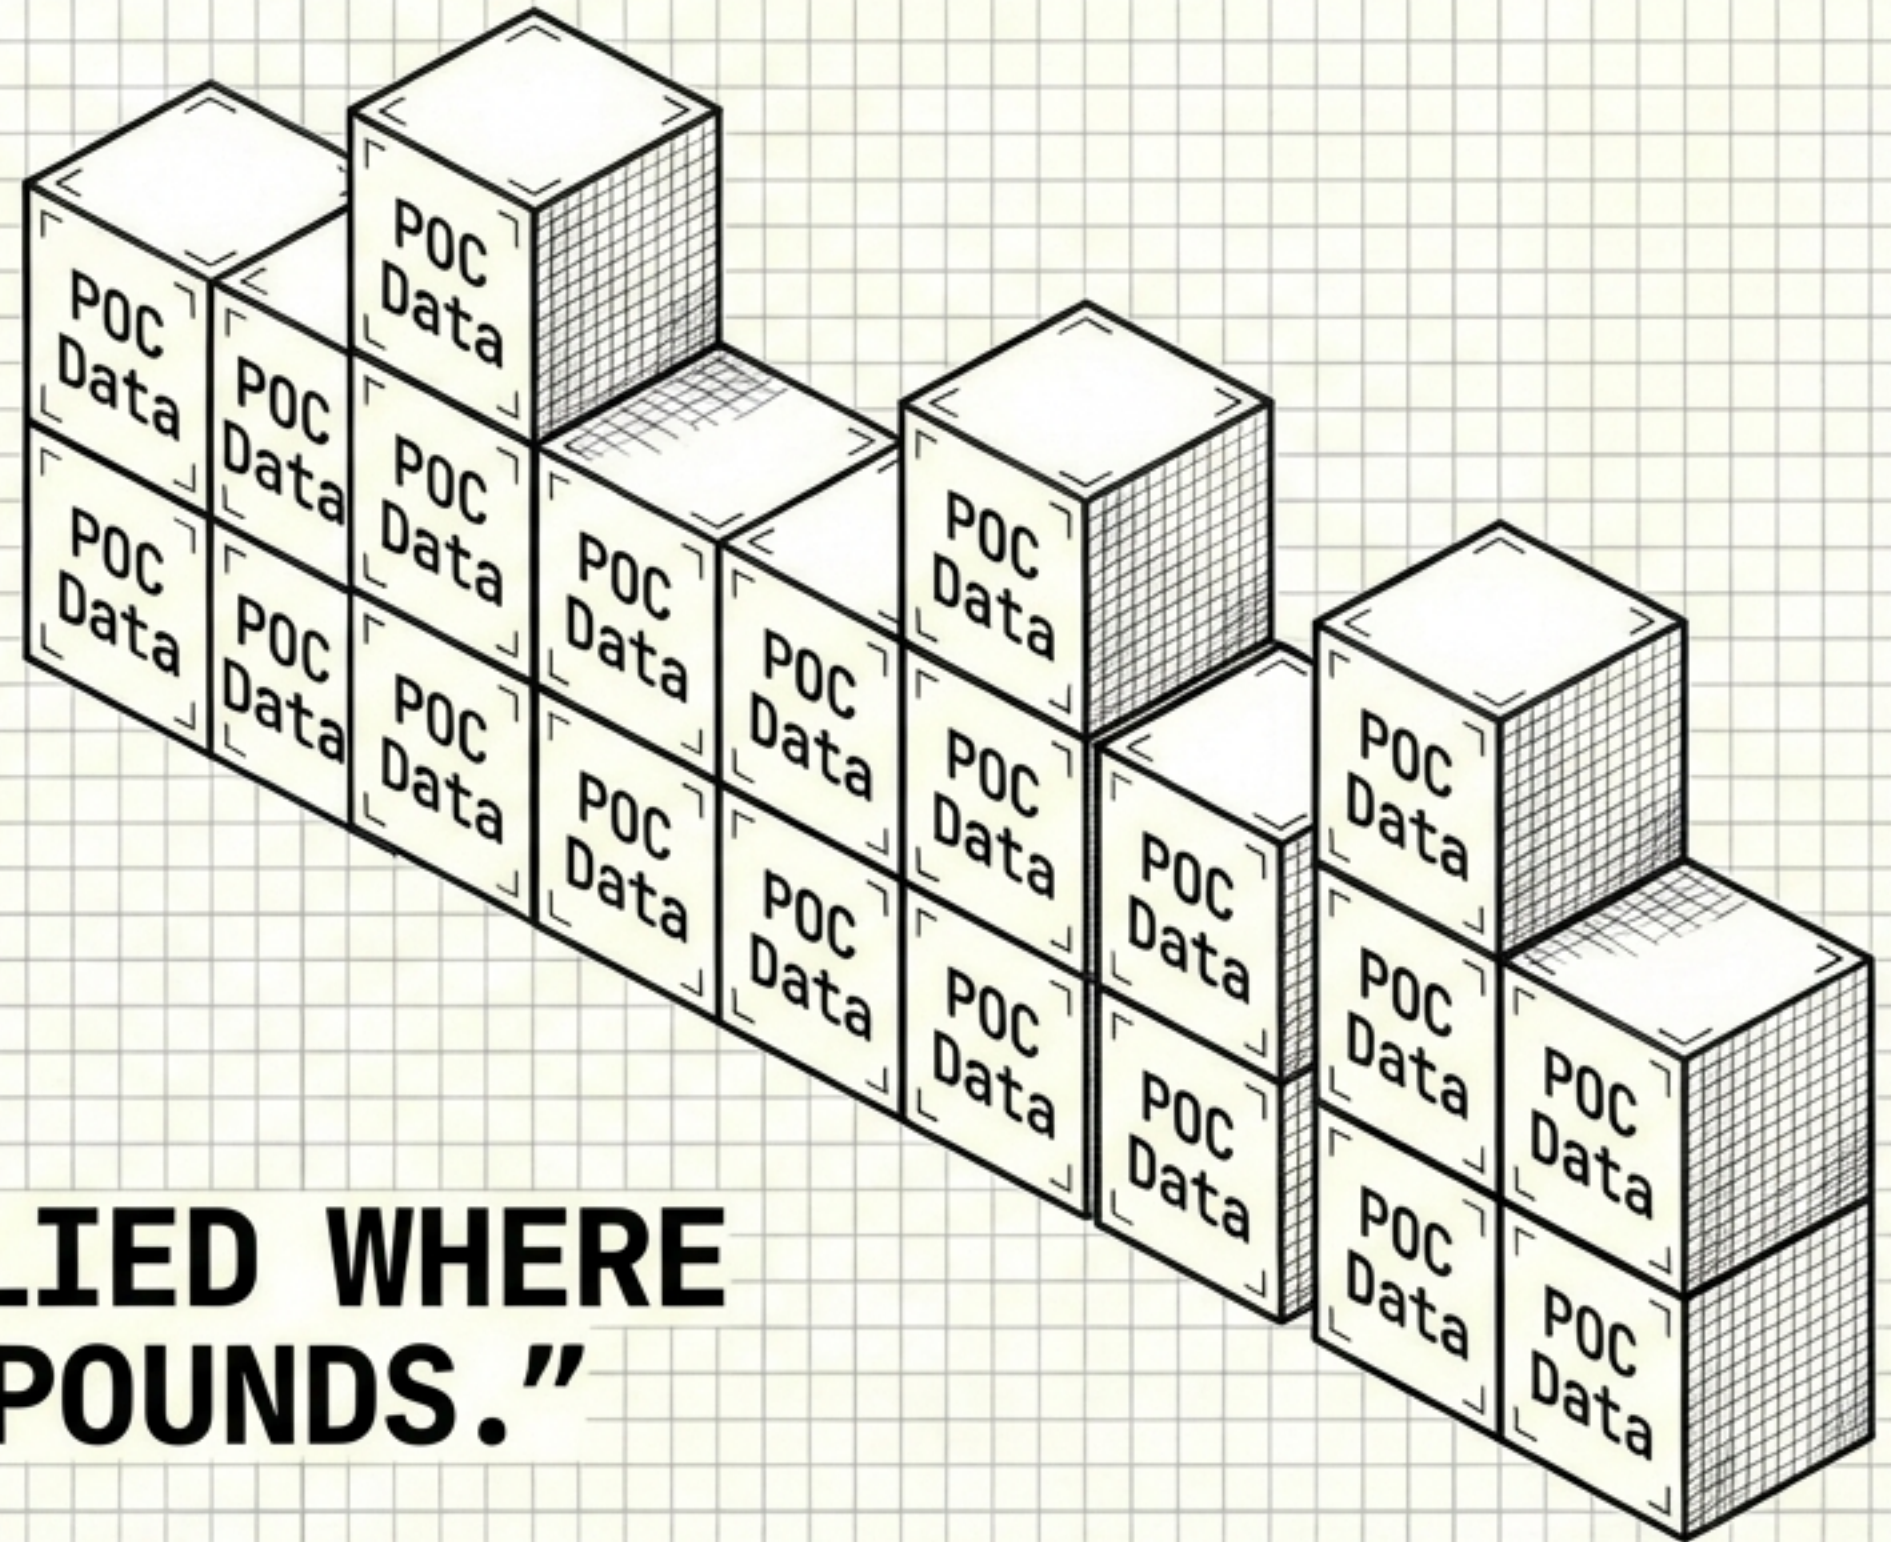

THE MOAT: THE EVIDENCE LEDGER

CONCEPT:

Every Blueprint360 POC creates an entry in the Evidence Ledger.

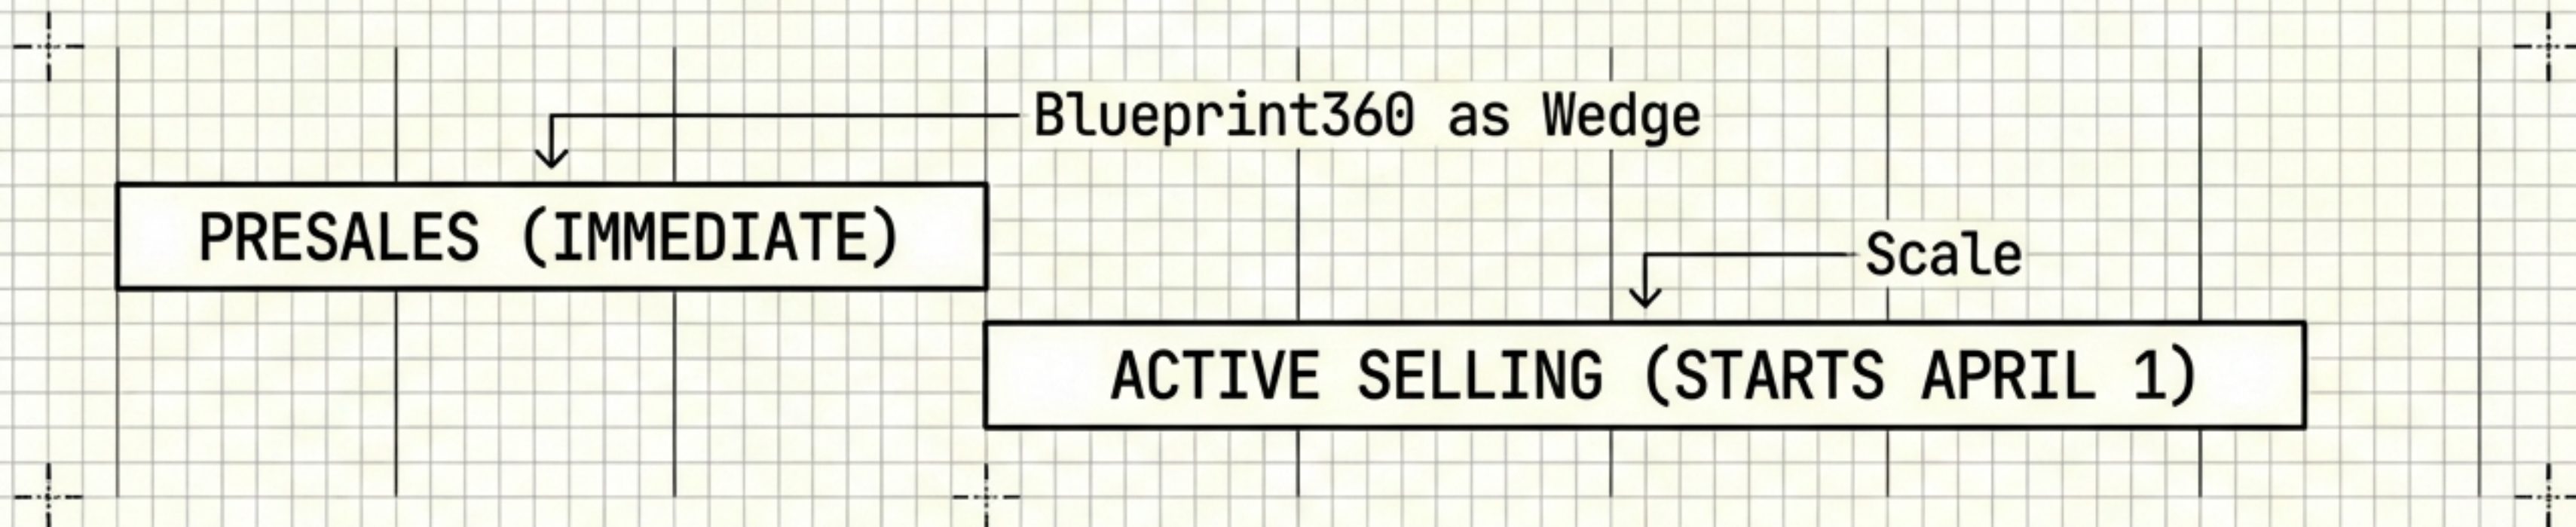

STRATEGIC VALUE:

Compounds valuation.
Increases defensibility against competitors.
De-risks innovation via NOVATELabs.org.

“PRESSURE IS APPLIED WHERE INTELLIGENCE COMPOUNDS.”
