THE COST

THE "ONE-TIME FAN" PROBLEM

Poor operational experiences (lines, friction, delays) kill loyalty and LTV.

\$2.1B+

ANNUAL REVENUE LEAKAGE

- Traffic bottlenecks & fan-flow inefficiencies
- \$2M-\$4M average annual loss per venue
- Zero defensible record of readiness
= Escalating insurance premiums

MOVING FROM LEGACY NOTIFICATION TO OPERATIONAL ORCHESTRATION

The post-pandemic landscape and DHS mandates demand a shift from reactive alerts to proactive orchestration.
